Bias

The #1 New York Times bestselling autobiography of the guitarist, songwriter, singer, and founding member of the Rolling Stones. Ladies and gentlemen: Keith Richards. With The Rolling Stones, Keith Richards created the songs that roused the world, and

Read Book 100 People Who Are Screwing Up America And Al Franken Is 37 Bernard Goldberg

he lived the original rock and roll life. Now, at last, the man himself tells his story of life in the crossfire hurricane. Listening obsessively to Chuck Berry and Muddy Waters records, learning guitar and forming a band with Mick Jagger and Brian Jones. The Rolling Stones's first fame and the notorious drug busts that led to his enduring image as an outlaw folk hero. Creating immortal riffs like the ones in "Jumping Jack Flash" and "Honky Tonk Women." His relationship with Anita Pallenberg and the death of Brian Jones. Tax exile in France, wildfire tours of the U.S., isolation and addiction. Falling in love with Patti Hansen. Estrangement from Jagger and subsequent reconciliation. Marriage, family, solo albums and Xpensive Winos, and the road that goes on forever. With his trademark disarming honesty, Keith Richard brings us the story of a life we have all longed to know more of, unfettered, fearless, and true.

Evil Geniuses

"The internet's best friend." — Flare From the author of the popular newsletter That's What She Said, Nobody Cares is a frank, funny personal essay collection about work, failure, friendship, and the messy business of being alive in your twenties and thirties. As she shares her hard-won insights from screwing up, growing up, and trying to find her own path, Anne T. Donahue's debut book offers all the honesty, laughs, and reassurance of a late-night phone call with your best friend. Whether she's giving a signature pep talk, railing against summer, or describing her own mental health struggles, Anne

Read Book 100 People Who Are Screwing Up America And AI Franken Is 37 Bernard Goldberg

reminds us that failure is normal, saying no to things is liberating, and that we're all a bunch of beautiful disasters — and she wouldn't have it any other way.

Never Be Closing

Modern humans have come a long way in the seventy thousand years they've walked the earth. Art, science, culture, trade—on the evolutionary food chain, we're true winners. But it hasn't always been smooth sailing, and sometimes—just occasionally—we've managed to truly f*ck things up. Weaving together history, science, politics and pop culture, *Humans* offers a panoramic exploration of humankind in all its glory, or lack thereof. From Lucy, our first ancestor, who fell out of a tree and died, to General Zhou Shou of China, who stored gunpowder in his palace before a lantern festival, to the Austrian army attacking itself one drunken night, to the most spectacular fails of the present day, *Humans* reveals how even the most mundane mistakes can shift the course of civilization as we know it. Lively, wry and brimming with brilliant insight, this unique compendium offers a fresh take on world history and is one of the most entertaining reads of the year.

Sold Out

In his "remarkable" (*Men's Journal*) and "controversial" (*Fortune*) book -- written in a "wry, amusing style" (*The Guardian*) -- Bruce Cannon Gibney shows how America was hijacked by the Boomers, a generation whose reckless self-indulgence

Read Book 100 People Who Are Screwing Up America And AI Franken Is 37 Bernard Goldberg

degraded the foundations of American prosperity. In *A Generation of Sociopaths*, Gibney examines the disastrous policies of the most powerful generation in modern history, showing how the Boomers ruthlessly enriched themselves at the expense of future generations. Acting without empathy, prudence, or respect for facts--acting, in other words, as sociopaths--the Boomers turned American dynamism into stagnation, inequality, and bipartisan fiasco. The Boomers have set a time bomb for the 2030s, when damage to Social Security, public finances, and the environment will become catastrophic and possibly irreversible--and when, not coincidentally, Boomers will be dying off. Gibney argues that younger generations have a fleeting window to hold the Boomers accountable and begin restoring America.

Normal People

Gathers selections from fiction by Charles Bukowski, J.P. Donleavy, Spalding Gray, Erica Jong, Mary McCarthy, Henry Miller, Anais Nin, Vladimir Nabokov, Tom Robbins, and Terry Southern

The Fix

In his nearly thirty years at CBS News, Emmy Award-winner Bernard Goldberg earned a reputation as one of the preeminent reporters in the television news business. When he looked at his own industry, however, he saw that the media far too often ignored their primary mission: objective, disinterested reporting. Again and again he saw that they slanted

Read Book 100 People Who Are Screwing Up America And AI Franken Is 37 Bernard Goldberg

the news to the left. For years Goldberg appealed to reporters, producers, and network executives for more balanced reporting, but no one listened. The liberal bias continued. In this classic number one New York Times bestseller, Goldberg blew the whistle on the news business, showing exactly how the media slant their coverage while insisting they're just reporting the facts.

10 Books that Screwed Up the World

Millions of users create and share Excel spreadsheets every day, but few go deeply enough to learn the techniques that will make their work much easier. There are many ways to take advantage of Excel's advanced capabilities without spending hours on advanced study. Excel Hacks provides more than 130 hacks -- clever tools, tips and techniques -- that will leapfrog your work beyond the ordinary. Now expanded to include Excel 2007, this resourceful, roll-up-your-sleeves guide gives you little known "backdoor" tricks for several Excel versions using different platforms and external applications. Think of this book as a toolbox. When a need arises or a problem occurs, you can simply use the right tool for the job. Hacks are grouped into chapters so you can find what you need quickly, including ways to: Reduce workbook and worksheet frustration -- manage how users interact with worksheets, find and highlight information, and deal with debris and corruption. Analyze and manage data -- extend and automate these features, moving beyond the limited tasks they were designed to perform. Hack names -- learn not

Read Book 100 People Who Are Screwing Up America And AI Franken Is 37 Bernard Goldberg

only how to name cells and ranges, but also how to create names that adapt to the data in your spreadsheet. Get the most out of PivotTables -- avoid the problems that make them frustrating and learn how to extend them. Create customized charts -- tweak and combine Excel's built-in charting capabilities. Hack formulas and functions -- subjects range from moving formulas around to dealing with datatype issues to improving recalculation time. Make the most of macros -- including ways to manage them and use them to extend other features. Use the enhanced capabilities of Microsoft Office 2007 to combine Excel with Word, Access, and Outlook. You can either browse through the book or read it from cover to cover, studying the procedures and scripts to learn more about Excel. However you use it, Excel Hacks will help you increase productivity and give you hours of "hacking" enjoyment along the way.

What I Learned From 50 Celebrities

The number one New York Times bestselling author of Bias delivers another bombshell—this time aimed at . . . 100 People Who Are Screwing Up America No preaching. No pontificating. Just some uncommon sense about the things that have made this country great—and the culprits who are screwing it up. Bernard Goldberg takes dead aim at the America Bashers (the cultural elites who look down their snobby noses at "ordinary" Americans) . . . the Hollywood Blowhards (incredibly ditzy celebrities who think they're smart just because they're famous) . . . the TV Schlockmeisters (including the one whose

Read Book 100 People Who Are Screwing Up America And AI Franken Is 37 Bernard Goldberg

show has been compared to a churning mass of maggots devouring rotten meat) . . . the Intellectual Thugs (bigwigs at some of our best colleges, whose views run the gamut from left wing to far left wing) . . . and many more. Goldberg names names, counting down the villains in his rogues' gallery from 100 all the way to 1—and, yes, you-know-who is number 37. Some supposedly "serious" journalists also made the list, including the journalist-diva who sold out her integrity and hosted one of the dumbest hours in the history of network television news. And there are those famous miscreants who have made America a nastier place than it ought to be—a far more selfish, vulgar, and cynical place. But Goldberg doesn't just round up the usual suspects we have come to know and detest. He also exposes some of the people who operate away from the limelight but still manage to pull a lot of strings and do all sorts of harm to our culture. Most of all, 100 People Who Are Screwing Up America is about a country where as long as anything goes, as one of the good guys in the book puts it, sooner or later everything will go. This is serious stuff for sure. But Goldberg will also make you laugh as he harpoons scoundrels like the congresswoman who thinks there aren't enough hurricanes named after black people, and the environmentalist to the stars who yells at total strangers driving SUVs—even though she tools around the country in a gas-guzzling private jet. With Bias, Bernard Goldberg took us behind the scenes and exposed the way Big Journalism distorts the news. Now he has written a book that goes even further. This time he casts his eye on American culture at large—and the result is a book that is sure to become the voice of all those

Read Book 100 People Who Are Screwing Up America And AI Franken Is 37 Bernard Goldberg

Americans who feel that no one is speaking for them on perhaps the most vital issue of all: the kind of country in which we want to live.

Failed It!

Broadcast journalist Goldberg is back with more hard-hitting observations and no-nonsense advice for saving America from the lunatics on the Left and the sellouts on the Right. He argues that while conservatives still believe in important things, the jury

Black Chalk

Throughout your life, you've had parents, coaches, teachers, friends, and mentors who have pushed you to be better than your excuses and bigger than your fears. What if the secret to having the confidence and courage to enrich your life and work is simply knowing how to push yourself? Using the science habits, riveting stories and surprising facts from some of the most famous moments in history, art and business, Mel Robbins will explain the power of a "push moment." Then, she'll give you one simple tool you can use to become your greatest self. It take just five seconds to use this tool, and every time you do, you'll be in great company. More than 8 million people have watched Mel's TEDx Talk, and executives inside of the world's largest brands are using the tool to increase productivity, collaboration, and engagement. In *The 5 Second Rule*, you'll discover it takes just five seconds to: Become confident Break the habit of procrastination and self-doubt Beat fear and

Read Book 100 People Who Are Screwing Up America And AI Franken Is 37 Bernard Goldberg

uncertainty Stop worrying and feel happier Share your ideas with courage The 5 Second Rule is a simple, one-size-fits-all solution for the one problem we all face—we hold ourselves back. The secret isn't knowing what to do—it's knowing how to make yourself do it. p.p1 {margin: 0.0px 0.0px 0.0px 0.0px; font: 12.0px Arial}

Permission to Screw Up

"The first thing you think is where's the edge, where can I make a bit more money, how can I push, push the boundaries. But the point is, you are greedy, you want every little bit of money that you can possibly get because, like I say, that is how you are judged, that is your performance metric" —Tom Hayes, 2013

In the midst of the financial crisis, Tom Hayes and his network of traders and brokers from Wall Street's leading firms set to work engineering the biggest financial conspiracy ever seen. As the rest of the world burned, they came together on secret chat rooms and late night phone calls to hatch an audacious plan to rig Libor, the 'world's most important number' and the basis for \$350 trillion of securities from mortgages to loans to derivatives. Without the persistence of a rag-tag team of investigators from the U.S., they would have got away with it. The Fix by award-winning Bloomberg journalists Liam Vaughan and Gavin Finch, is the inside story of the Libor scandal, told through the journey of the man at the centre of it: a young, scruffy, socially awkward misfit from England whose genius for math and obsessive personality made him

Read Book 100 People Who Are Screwing Up America And AI Franken Is 37 Bernard Goldberg

a trading phenomenon, but ultimately paved the way for his own downfall. Based on hundreds of interviews, and unprecedented access to the traders and brokers involved, and the investigators who caught up with them, *The Fix* provides a rare look into the dark heart of global finance at the start of the 21st Century.

How to Stop Screwing Up

The Optimal Terrain Ten Protocol to Reboot Cellular Health Since the beginning of the twentieth century, cancer rates have increased exponentially--now affecting almost 50 percent of the American population. Conventional treatment continues to rely on chemotherapy, surgery, and radiation to attack cancer cells. Yet research has repeatedly shown that 95 percent of cancer cases are directly linked to diet and lifestyle. *The Metabolic Approach to Cancer* is the book we have been waiting for--it offers an innovative, metabolic-focused nutrition protocol that actually works. Naturopathic, integrative oncologist and cancer survivor Dr. Nasha Winters and nutrition therapist Jess Higgins Kelley have identified the ten key elements of a person's "terrain" (think of it as a topographical map of our body) that are crucial to preventing and managing cancer. Each of the terrain ten elements--including epigenetics, the microbiome, the immune system, toxin exposures, and blood sugar balance--is illuminated as it relates to the cancer process, then given a heavily researched and tested, non-toxic and metabolic, focused nutrition prescription. The metabolic theory of cancer--that

Read Book 100 People Who Are Screwing Up America And AI Franken Is 37 Bernard Goldberg

cancer is fueled by high carbohydrate diets, not "bad" genetics--was introduced by Nobel Prize-laureate and scientist Otto Warburg in 1931. It has been largely disregarded by conventional oncology ever since. But this theory is resurging as a result of research showing incredible clinical outcomes when cancer cells are deprived of their primary fuel source (glucose). The ketogenic diet--which relies on the body's production of ketones as fuel--is the centerpiece of The Metabolic Approach to Cancer. Further, Winters and Kelley explain how to harness the anticancer potential of phytonutrients abundant in low-glycemic plant and animal foods to address the 10 hallmarks of cancer--an approach Western medicine does with drug based therapies. Their optimized, genetically-tuned diet shuns grains, legumes, sugar, genetically modified foods, pesticides, and synthetic ingredients while emphasizing whole, wild, local, organic, fermented, heirloom, and low-glycemic foods and herbs. Other components of their approach include harm-reductive herbal therapies like mistletoe (considered the original immunotherapy and common in European cancer care centers) and cannabinoids (which shrink tumors and increase quality of life, yet are illegal in more than half of the United States). Through addressing the ten root causes of cancer and approaching the disease from a nutrition-focused standpoint, we can slow cancer's endemic spread and live optimized lives.

Humans: A Brief History of How We F*cked It All Up

Read Book 100 People Who Are Screwing Up America And AI Franken Is 37 Bernard Goldberg

What do George W. Bush, Wal-Mart, Halliburton, gangsta rap, and SUVs have in common? They're all among the hundred ways in which America is screwing up the world. The country that was responsible for many, if not most, of the twentieth century's most important scientific and technological advancements now demonizes its scientists and thinkers in the twenty-first, while dumbing down its youth with anti-Darwin/pro-"Intelligent Design" propaganda. The longtime paragon of personal freedoms now supports torture and illegal wiretapping—spreading its principles and policies at gunpoint while ruthlessly bombing the world with Big Macs and Mickey Mouse ears. At once serious-minded and satirical, John Tirman's *100 Ways America Is Screwing Up the World* is an insightful, unabashed, entertaining, and distressing look at where we've gone terribly wrong—from the destruction of the environment to the promotion of abhorrent personal health and eating habits to the "wussification" of the free press—an alternately admonishing and amusing call to arms for patriotic Blue America.

A Slobbering Love Affair

You've heard of the "Great Books"? These are their evil opposites. From Machiavelli's *The Prince* to Karl Marx's *The Communist Manifesto* to Alfred Kinsey's *Sexual Behavior in the Human Male*, these "influential" books have led to war, genocide, totalitarian oppression, family breakdown, and disastrous social experiments. And yet these authors' bad ideas are still popular and pervasive--in fact, they

Read Book 100 People Who Are Screwing Up America And AI Franken Is 37 Bernard Goldberg

might influence your own thinking without your realizing it. Here with the antidote is Professor Benjamin Wiker. In his scintillating new book, *10 Books That Screwed Up the World (And 5 Others That Didn't Help)*, he seizes each of these evil books by its malignant heart and exposes it to the light of day.

The 5 Second Rule

A fun and fabulous take on the art of making mistakes. Erik Kessels celebrates imperfection and failure and shows why they are an essential part of the creative process. *Failed it!* celebrates the power of mistakes and shows how they can enrich the creative process. This is part photobook and part guide to loosening up and making mistakes to take the fear out of failure and encourage experimentation. It showcases the best and most hilarious examples of imperfection and failure across a broad range of creative forms, including art, design, photography, architecture and product design, to inspire and encourage creatives to embrace and celebrate their mistakes. We live in an era when everyone is striving for perfection and we have become afraid of failure, which limits our potential. Mistakes help us find new ways of thinking and innovative solutions, and failures can change our perceptions and open up new ways of looking things. This book transforms mistakes from something to be embarrassed about into a cause for celebration. It includes over 150 visual examples drawn from Kessels personal collection of artworks and found photographs, along with tips, quotes, anecdotes and

Read Book 100 People Who Are Screwing Up America And AI Franken Is 37 Bernard Goldberg

wisdom for celebrating with failure. To quote Kessels: 'the ubiquity of Apple + Z, means that we can literally undo any mistake before it has had time to breathe, be considered and — perhaps — evolve into something else: a fascinating, strange, provocative or even original piece of work. This book asks readers to embrace their fuck-ups, learn from them and celebrate their tawdry glory'.

Dying of Whiteness

NOW A HULU ORIGINAL SERIES • NEW YORK TIMES BESTSELLER • “A stunning novel about the transformative power of relationships” (People) from the author of Conversations with Friends, “a master of the literary page-turner” (J. Courtney Sullivan). ONE OF THE TEN BEST NOVELS OF THE DECADE—Entertainment Weekly TEN BEST BOOKS OF THE YEAR—People, Slate, The New York Public Library, Harvard Crimson AND BEST BOOKS OF THE YEAR—The New York Times, The New York Times Book Review, O: The Oprah Magazine, Time, NPR, The Washington Post, Vogue, Esquire, Glamour, Elle, Marie Claire, Vox, The Paris Review, Good Housekeeping, Town & Country Connell and Marianne grew up in the same small town, but the similarities end there. At school, Connell is popular and well liked, while Marianne is a loner. But when the two strike up a conversation—awkward but electrifying—something life changing begins. A year later, they’re both studying at Trinity College in Dublin. Marianne has found her feet in a new social world while Connell hangs at the sidelines, shy and uncertain. Throughout

Read Book 100 People Who Are Screwing Up America And AI Franken Is 37 Bernard Goldberg

their years at university, Marianne and Connell circle one another, straying toward other people and possibilities but always magnetically, irresistibly drawn back together. And as she veers into self-destruction and he begins to search for meaning elsewhere, each must confront how far they are willing to go to save the other. *Normal People* is the story of mutual fascination, friendship and love. It takes us from that first conversation to the years beyond, in the company of two people who try to stay apart but find that they can't. Praise for *Normal People* "[A] novel that demands to be read compulsively, in one sitting."—The Washington Post "Arguably the buzziest novel of the season, Sally Rooney's elegant sophomore effort . . . is a worthy successor to *Conversations with Friends*. Here, again, she unflinchingly explores class dynamics and young love with wit and nuance."—The Wall Street Journal "[Rooney] has been hailed as the first great millennial novelist for her stories of love and late capitalism. . . . [She writes] some of the best dialogue I've read."—The New Yorker

The Code of the Warrior

Raw Deal

A thought-provoking exposé that shows why the tech leaders' vision and their Ayn Rand brand of libertarianism is a dead end for U.S. workers, the middle class, and the national economy

101 People who are Really Screwing America

In 2008, the mainstream media crossed a line. It's not the same old liberal bias we've seen for years; the media deified Obama, making conservatives blasphemers and liberals gullible fools. What did it mean, and what will the consequences be?

Screwing the Rules

NEW YORK TIMES BESTSELLER • When did America give up on fairness? The author of *Fantasyland* tells the epic history of how America decided that big business gets whatever it wants, only the rich get richer, and nothing should ever change—and charts a way back to the future. “The one book everyone must read as we figure out how to rebuild our country.”—Walter Isaacson, author of *Steve Jobs* and *Leonardo da Vinci* During the twentieth century, America managed to make its economic and social systems both more and more fair and more and more prosperous. A huge, secure, and contented middle class emerged. All boats rose together. But then the New Deal gave way to the Raw Deal. Beginning in the early 1970s, by means of a long war conceived of and executed by a confederacy of big business CEOs, the superrich, and right-wing zealots, the rules and norms that made the American middle class possible were undermined and dismantled. The clock was turned back on a century of economic progress, making greed good, workers powerless, and the market all-powerful while weaponizing nostalgia, lifting up an

Read Book 100 People Who Are Screwing Up America And AI Franken Is 37 Bernard Goldberg

oligarchy that served only its own interests, and leaving the huge majority of Americans with dwindling economic prospects and hope. Why and how did America take such a wrong turn? In this deeply researched and brilliantly woven cultural, economic, and political chronicle, Kurt Andersen offers a fresh, provocative, and eye-opening history of America's undoing, naming names, showing receipts, and unsparingly assigning blame—to the radical right in economics and the law, the high priests of high finance, a complacent and complicit Establishment, and liberal “useful idiots,” among whom he includes himself. Only a writer with Andersen's crackling energy, deep insight, and ability to connect disparate dots and see complex systems with clarity could make such a book both intellectually formidable and vastly entertaining. And only a writer of Andersen's vision could reckon with our current high-stakes inflection point, and show the way out of this man-made disaster.

The Screwing of the Average Man

A collection of scholars and teachers of history unpack how computing technologies are transforming the ways that we learn, communicate, and teach.

Crazies to the Left of Me, Wimps to the Right

Turn your home into a Montessori home—and become a more mindful, attentive, and easygoing parent. It's time to change the way we see toddlers. Using the

Read Book 100 People Who Are Screwing Up America And AI Franken Is 37 Bernard Goldberg

principles developed by the educator Dr. Maria Montessori, Simone Davies shows how to turn life with a “terrible two” into a mutually rich and rewarding time of curiosity, learning, respect, and discovery. With hundreds of practical ideas for every aspect of living with a toddler, here are five principles for feeding your child’s natural curiosity, from “Trust in the child” to “Fostering a sense of wonder.” Step-by-step ways to cultivate daily routines with ease, like brushing teeth, toilet-training, dealing with siblings, losing the pacifier. Plus learn how to: Stay composed when your toddler is not and set limits with love and respect—without resorting to bribes or punishment Set up your home and get rid of the chaos Create Montessori activities that are just right for your one-to-three-year-old Raise an inquisitive learner who loves exploring the world around them See the world through your toddler’s eyes and be surprised and delighted by their perspective Be your child’s guide—and truly celebrate every stage

9 Ways We're Screwing Up Our Girls and How We Can Stop

Original. 30,000 first printing.

The Unwitting

Read Book 100 People Who Are Screwing Up America And AI Franken Is 37 Bernard Goldberg

The #1 New York Times bestselling author and firebrand syndicated columnist Michelle Malkin sets her sights on the corrupt businessmen, politicians, and lobbyists flooding our borders and selling out America's best and brightest workers. In *Sold Out*, Michelle Malkin and John Miano name names and expose the lies of those who pretend to champion the middle class, while aiding and abetting massive layoffs of highly skilled American workers in favor of cheap foreign labor. Malkin and Miano will explode some of the most commonly told myths spread in the media like these: Lie #1: America is suffering from an apocalyptic "shortage" of science, technology, engineering, and math workers. Lie #2: US companies cannot function without an unlimited injection of the "highly skilled" and "highly educated" foreign workers, who offer capital and energy that American workers can't match. Lie #3: America's best and brightest talents are protected because employers are required to demonstrate that they've made every effort to hire American citizens before resorting to foreign labor. For too long, open-borders tech billionaires and their political enablers have escaped tough public scrutiny of their means and motives. It's time to trade the whitewash for solvent. American workers deserve better and the public deserves the unvarnished truth.

Going Corporate

A reporter offers a list of people who support policies which emphasize curtailment of the media, expansion of the powers of the executive branch of the

Read Book 100 People Who Are Screwing Up America And AI Franken Is 37 Bernard Goldberg

government, tax breaks for corporations and the wealthy, and reduced protection for civil liberties.

All My Puny Sorrows

In CIA parlance, those who knew were “witting.” Everyone else was among the “unwitting.” On a bright November day in 1963, President Kennedy is shot. That same day, Nell Benjamin receives a phone call with news about her husband, the influential young editor of a literary magazine. As the nation mourns its public loss, Nell has her private grief to reckon with, as well as a revelation about Charlie that turns her understanding of her marriage on its head, along with the world she thought she knew. With the Cold War looming ominously over the lives of American citizens in a battle of the Free World against the Communist powers, the blurry lines between what is true, what is good, and what is right tangle with issues of loyalty and love. As the truths Nell discovers about her beloved husband upend the narrative of her life, she must question her own allegiance: to her career as a journalist, to her country, but most of all to the people she loves. Set in the literary Manhattan of the 1950s, at a journal much like the Paris Review, *The Unwitting* evokes a bygone era of burgeoning sexual awareness and intrigue and an exuberance of ideas that had the power to change the world. Resonant, illuminating, and utterly absorbing, *The Unwitting* is about the lies we tell, the secrets we keep, and the power of love in the face of both. Praise for *The Unwitting* “Much of the fun comes from the literary cameos (think: Mary McCarthy, Richard Wright

Read Book 100 People Who Are Screwing Up America And AI Franken Is 37 Bernard Goldberg

and Robert Lowell), but it's [Ellen Feldman's] haunting portrait of a marriage that make this Cold War novel so resonant for readers of any time period, including our own."—O: The Oprah Magazine "The first notable thing about this book is the narrator's voice: it is snappish, confident, argumentative, literate. I fell for it from the beginning. . . . The Unwitting is vibrant, sassy, informative, a page-turner, absorbing, and swift. I am a woman, so maybe it is a women's book, but I seriously doubt it, and hope that male readers will give it a shot. Surely they too will appreciate the research that went into it. Surely they too will be fascinated by its bold and thorough review of the American twentieth century."—Kelly Cherry, The Los Angeles Review of Books "Compelling enough to take its place with the best of crime fiction, Feldman's language is loving, bright and sharp while her storytelling abilities are unquestionable. . . . The Unwitting cuts us into an interesting time, then ramps things up. . . . Feldman is clearly a writer who is going places, [and] The Unwitting brings that home: it's a terrific book."—January Magazine "A story of love and intrigue during the Cold War, The Unwitting plumbs not only the secrets of spies, but those of the human heart. Moving, witty, and thoroughly intelligent, it is an absorbing and deeply satisfying read."—Kevin Baker, author of The Big Crowd "Unforgettable . . . The Unwitting compelled me from the first page and through every unexpected twist and turn. This look into the dark places in human nature cries out to be read, re-read, and discussed."—Lynn Cullen, author of the national bestseller Mrs. Poe "Through the lens of a passionate, complex marriage, Ellen Feldman brings the Cold War back to life. The Unwitting is a wise and

Read Book 100 People Who Are Screwing Up America And AI Franken Is 37 Bernard Goldberg

irresistible portrait of fascinating people in a tumultuous time.”—Roger Straus III, former managing director, Farrar, Straus and Giroux

Nobody Cares

Former CBS News correspondent Goldberg cites example after example of what he identifies as distorted reporting and asserts that these examples prove the pervasiveness of a liberal bias in the mainstream media. His credibility is diminished by a breathless, scattershot approach and sketchy documentation of examples (many taken out of context); but his points seem to be that attuned citizens will find such examples everywhere they look and that honest journalists should open their eyes. He includes a section of contact information for conservative organizations and think tanks. There is no bibliography. Annotation →2004 Book News, Inc., Portland, OR (booknews.com)

100 People Who Are Screwing Up America

From an "astonishing" writer (Toni Morrison), the savagely funny story of a couple who unexpectedly come into some money in a wealth-obsessed America deranged by Mammon. A bag of money drops out of the sky, literally, into the path of a cash-starved citizen named Graveyard. He carries it home to his wife, Ambience, and they embark on the adventure of their lives, finally able to have everything they've always thought they deserved: cars, guns, games,

Read Book 100 People Who Are Screwing Up America And AI Franken Is 37 Bernard Goldberg

jewels, clothes -- and of course sex, travel, and time with friends and family. There is no limit except their imagination and the hours in the day, and even those seem to be subject to their control. Of course, the owner of the bag is searching for it, and will do whatever is necessary to get it back. And, of course, these new riches change everything -- and nothing at all. Darkly hilarious, *Processed Cheese* is both satire and serious as death. It's a road novel, a family story, and a last-girl-standing thriller of once-in-a-generation vitality and inventiveness. With the clarity of a Swift or a Melville, Wright has created a funhouse-mirror drama that puts all the chips on the table and every bullet in the clip, down to the last breathtaking moment.

Life

A physician reveals how right-wing backlash policies have mortal consequences -- even for the white voters they promise to help. Named one of the most anticipated books of 2019 by *Esquire* and the *Boston Globe*. In the era of Donald Trump, many lower- and middle-class white Americans are drawn to politicians who pledge to make their lives great again. But as *Dying of Whiteness* shows, the policies that result actually place white Americans at ever-greater risk of sickness and death. Physician Jonathan M. Metzl's quest to understand the health implications of "backlash governance" leads him across America's heartland. Interviewing a range of everyday Americans, he examines how racial resentment has fueled pro-gun laws in Missouri, resistance to the

Read Book 100 People Who Are Screwing Up America And AI Franken Is 37 Bernard Goldberg

Affordable Care Act in Tennessee, and cuts to schools and social services in Kansas. And he shows these policies' costs: increasing deaths by gun suicide, falling life expectancies, and rising dropout rates. White Americans, Metzl argues, must reject the racial hierarchies that promise to aid them but in fact lead our nation to demise.

110 People who are Screwing Up America-- and AI Franken is #37

Change your dating game to a winning strategy to find the partner you need with no games, no gambits, and no hiding of who you really are, and what you really want from a mate. Laurel House believes that "The Rules" of yester-decades don't apply to today's evolved, headstrong, multifaceted women, who are taking longer to wed, often putting careers first and focusing on love and kids later. *Screwing the Rules* will challenge women to examine their expectations, hopes and dreams, dating strategy, relationship goals- and themselves-in a revised way. *Screwing the Rules* is about being honest about who you are and what makes you happy, then making smart decisions about potential compatibility. Laurel speaks not only from the perspective of a professional relationship coach who has helped countless people, but from firsthand experience. She's admittedly made a lot of mistakes in her past relationships and discusses them candidly. In *Screwing the Rules* Laurel shares the lessons she's learned along the way. Through seven distinct sections, the book takes the reader full circle. First working on yourself and figuring out what you want in

a guy, how to find him, get him, and keep him. It advises when/if/how to let him go, heal, and get out there again. Screwing the Rules is all about helping women bring out their best, most confident, empowered self, and from that point of strength, provide the insight, tools, and direction needed to find their ideal match.

Pastplay

Farrell Hirsch has lived more lives than any dozen of the proverbial rejuvenating cats you've heard about. Not many people can say they've launched multiple national radio networks, worked with the coaching staff of a major league sports team, executive produced star-studded awards shows, been the co-creator of high-tech start up, written a play that played at Lincoln Center, optioned a TV pilot to major production company, and been the CEO of a nationally recognized not-for profit. Hirsch was one of the people who founded The Ovation Awards, LA's answer to The Tonys. Writing, producing, and lining up talent for those shows for seven years brought him into contact with stars like Charlton Heston, Annette Bening, Carol Burnett, Neal Patrick Harris, Stephen Sondheim, Nathan Lane, Danny Glover, Gwyneth Paltrow, Ben Stiller, and hundreds more. And then, for no particular reason, since he hadn't really ever worked in radio, he was hired to launch national radio networks, on SiriusXM. The first of these was taking

on the inimitable task of turning the world's most visual brand, Playboy, into something viable in the world's least visual medium, radio. The endless drudgery of having to spend countless evenings at The Playboy Mansion parties, of recording Bill Cosby, Etta James, Elvis Costello at the Playboy Jazz Festival, having celebrities like Carmen Electra, Donald Trump, Fleetwood Mac come in the studio, hanging at the Super Bowl with Warren Moon and Lil John was exhausting. These are his stories...

A Generation of Sociopaths

Why do warriors fight? What is worth dying for? How should a warrior define words like "nobility," "honor," "courage," or "sacrifice"? What are the duties and obligations of a warrior, and to whom are they owed? What should bring a warrior honor or shame? These and other questions are considered in Shannon French's *The Code of the Warrior*, a book that explores eight warrior codes from around the globe, spanning such traditions as the Homeric, Roman, and Samurai cultures, through to the present day—culminating in a thoughtful analysis of a timely question: Are terrorists warriors?

100 Ways America Is Screwing Up the World

Offers insights and specific action steps to empower girls to reach their full potential.

The Montessori Toddler

An analysis of the four-term president's famous "fear itself" speech evaluates how FDR transformed his office and revitalized American morale throughout the first 100 days of his presidency, in an account that cites the contributions of his family members, advisors, and fellow polio survivors. Reprint. 50,000 first printing.

Excel Hacks

From the bestselling author of *Women Talking*, a "wrenchingly honest, darkly funny novel" (*Entertainment Weekly*). Elf and Yoli are sisters. While on the surface Elfrieda's life is enviable (she's a world-renowned pianist, glamorous, wealthy, and happily married) and Yolandi's a mess (she's divorced and broke, with two teenagers growing up too quickly), they are fiercely close-raised in a Mennonite household and sharing the hardship of Elf's desire to end her life. After Elf's latest attempt, Yoli must quickly determine how to keep her family from falling apart while facing a profound question: what do you do for a loved one who truly wants to die? *All My Puny Sorrows* is a deeply personal story that is as much comedy as it is tragedy, a goodbye grin from the friend who taught you how to live.

The Metabolic Approach to Cancer

How do you turn a part-time job into the best job someone's ever had? How do you get people to do the dirty work necessary to keep a business running--especially when the work is literally

Read Book 100 People Who Are Screwing Up America And AI Franken Is 37 Bernard Goldberg

dirty--scrubbing toilets and mopping floors? Kristen Hadeed built a cleaning business called Student Maid that college students now clamor to join. But to say that her company's early years were a hot mess is an understatement. With no training or experience in managing a business, she had no idea how to encourage or inspire her team. And how do you get anyone--millennial or otherwise--excited to dust and vacuum? Her first year was a series of almost comic leadership mistakes, from extreme micromanagement to infuriating aloofness. When 75 percent of her team quit on the same day, Hadeed realized she had to change her leadership style if she wanted her business to survive. She set out to give her people a reason to come to work, apart from the paycheck. She figured out how to help them feel trusted, empowered, and valued. And before long her team, and her company, were thriving. If it weren't for the company's policy that requires students to move on when they graduate, many would have stuck around. Instead, they go off to start their own companies and take highly sought-after positions in organizations around the world as a result of their experience at Student Maid. This book follows Hadeed's journey and what she learned along the way, from leading by example, to the importance of mentorship, to fostering accountability, to showing compassion for mistakes. The book blends the exciting story of Student Maid's underdog success with insights that can inspire readers to become leaders in any environment. It proves that no matter how messy things get, we can always find opportunities to make them better. If it can happen in a cleaning company, what's possible for you?

The Defining Moment

"Woodroof's account of using the Twelve Steps of Alcoholics Anonymous to deal with her addictions and stop screwing up her life in other ways, as well. Woodroof creates her own Twelve Steps, a workable guide for anyone wishing to replace a bad habit with a good one, without any reliance on public disclosure or the dogma of religion"--Provided by publisher.

Processed Cheese

A compulsively readable psychological thriller set in New York and at Oxford University in which a group of six students play an elaborate game of dares and consequences with tragic result It was only ever meant to be a game played by six best friends in their first year at Oxford University; a game of consequences, silly forfeits, and childish dares. But then the game changed: The stakes grew higher and the dares more personal and more humiliating, finally evolving into a vicious struggle with unpredictable and tragic results. Now, fourteen years later, the remaining players must meet again for the final round. Who knows better than your best friends what would break you? A gripping psychological thriller partly inspired by the author's own time at Oxford University, *Black Chalk* is perfect for fans of the high tension and expert pacing of *The Secret History* and *The Bellwether Revivals*. Christopher J. Yates' background in puzzle writing and setting can clearly be seen in the plotting of this clever, tricky book that will keep you guessing to the very end.

Drinking, Smoking and Screwing

Speaker and consultant Tim Hurson presents 12 techniques that benefit both the seller and the client. Never Be Closing expands on the principles of Tim Hurson's first book, Think Better, to teach salespeople how to improve their strategy and sell anything to anyone using a simple, repeatable framework. This isn't a book full of mundane tactics for cold-calling or techniques for closing a deal. This is a problem-solving approach that is more beneficial for both the seller and the client. Selling better isn't just a one time thing; it's a way to become a more valuable long-term partner. With their "Productive Selling Model," Hurson and Dunne offer business people a set of 15 tools to pull apart their current techniques, analyze them, and re-assemble them in a dynamic way. The authors include practical advice mixed with helpful anecdotes to build mutually productive relationships between seller and client, including: * The Rashomon Effect, which teaches readers how to bridge the gap between different perspectives. * The Hitchcock Method, which offers readers strategies on developing a script about themselves, their company, and their products. * The Sales Conversation, a three step structure to explore the client's needs, establish credibility, and deliver value. Tim Hurson is the founding partner of Manifest Communications, one of North America's leading social marketing agencies. He launched ThinkX Intellectual Capital in 2004 and is the author of Think Better: An Innovator's Guide to Productive Thinking. Tim Dunne is a consulting partner with ThinkX, KnowInnovation, and New &
