## **Donny'S Unauthorized Technical Guide to Harley-Davidson, 1936 to Present**

Six years and 75,000 miles ago I bought a Harley and re-entered the world of motorcycles at the age of 55, and I have been having a blast ever since! I also have made every beginner mistake in the book. Wait a minute, what book? There is no beginner mistake book. Well, there is now and I wish I would have had it six years go. I wrote this book so you can cash in on my experiences and save yourself time, money and hassle. Crammed with beginner mistakes, tips, how-to's and resources, it has what every new or re-entry rider needs to know about riding and gear. It's got all of the stuff they didn't tell you about selecting a starter bike, minimizing risk, riding safety, using the 'friction zone', going where you look, buying the right gear the first time and many more basic rider topics. It is easy to read, well organized and laced with a little off-beat humor to make it fun. The single best thing I did when I started riding was to go through the MSF Basic Rider course. The next best thing I could have done would have been buying this book. Reading this book can minimize your learning curve and enable you to start really enjoying your motorcycle today.

Suspension is probably the most misunderstood aspect of motorcycle performance. This book, by America's premier suspension specialist, makes the art and science of suspension tuning accessible to professional and backyard motorcycle mechanics alike. Based on Paul Thede's wildly popular Race Tech Suspension Seminars, this step-by-step guide shows anyone how to make their bike, or their kid's, handle like a pro's. Thede gives a clear account of the three forces of suspension that you must understand to make accurate assessments of your suspension's condition. He outlines testing procedures that will help you gauge how well you're improving your suspension, along with your riding. And, if you're inclined to perfect your bike's handling, he even explains the black art of chassis geometry. Finally, step-by-step photos of suspension disassembly and assembly help you rebuild your forks and shocks for optimum performance. The book even provides detailed troubleshooting guides for dirt, street, and supermoto--promising a solution to virtually any handling problem.

who have motorcycling in our blood remember the first time we saw a Harley-Davidson. Harleys have a way of catching the eye, that extra 'something' that sets them apart as the proudest, baddest, best-built machines around. There's no denying the fact that Harley-Davidsons are more than just motorcycles; since its founding in 1903, the make has become an American icon revered around the globe. In *This Old Harley*, editor Michael Dregni compiles the stories, tall tales, essays, and reminiscences of some of the biking world's most respected characters. Featured here are the words of the late daredevil Evel Knievel, custom bike-builder extraordinaire Arlen Ness, renowned motorcycle journalists Peter Egan and Allan Girdler, and many others--including Harley-Davidson historian Martin Jack Rosenblum and several ordinary folks with a love for Harleys and a good yarn to tell. Fully illustrated with special artwork (including historic and contemporary photos, posters, illustrations, old postcards, and more), this book tells the entire story of our fascination with these incredible bikes. So whether you're still in awe of the first Harley-Davidson you ever saw, still riding and wrenching on Harleys as a diehard fan, or only just dreaming of Harleys for the first time, *This Old Harley* offers a tribute to the bike that stands alone in American motorcycling history, told exclusively by those with Harley in their hearts.

the money. [] When Ms. Strickland answered the door she looked at the stoop and noticed that it had been shoveled. Since they were both holding shovels, the first thing she said in a rhetorical tone was “Did you guys do that? Thank you!” Before they could get a word out, she continued with “I guess you are here to shovel my drive! Or did you do that too and now you want your money?” Without missing a beat, Mel replied, “Yup! Twenty bucks!” In a scolding almost frantic tone she replied with, “Well I’m not paying. I have the lawn service under contract. Not very smart business boys. You can’t just ask people to pay for a service they didn’t request!” Pete just stood there in shock when Mel said, “OK, we’ll put it back.” She paused for a moment with a look of horror on her face until she realized Mel was joking and started laughing. She said “I’m sorry boys, but I’m already committed.” Mel replied, “That’s OK, we understand.” As they were walking toward the next house, they heard Ms. Strickland’s door open and she started yelling, “Boys!? Boys!? Wait!” Mel and Pete exchanged glances wondering what now? “Come back! I changed my mind! You can shovel my drive!” Pete jokingly said to Mel, “It looks like we’re both gonna make \$20 on this drive since our price just doubled!”
