Heritage gardens create huge management headaches. How does one preserve a garden designed for the enjoyment of the few when the advent of the many grinds it away to nothing? The answer, as presented in Heritage Gardens is a subterfuge: preserve the illusion of the created environment as originally conceived, but adjust it using more durable materials: plants and designs which require less cultivation. Of all the problems facing the heritage industry today, the management of gardens and landscape environment create some of the greatest difficulties. This book seeks to provide some of the answers.

This extensively revised fourteenth edition incorporates the major changes to planning introduced by the 2004 Planning and Compulsory Purchase Act and the government's mission to change the culture of planning. It provides a critical discussion of the system of planning – the institutions involved, the plans and other instruments that are used, the procedures for controlling development and land use change, and the mechanisms for implementing policy and proposals. It reviews current policy for sustainable development, housing and the Sustainable Communities Plan, the Barker Review, urban renewal and regeneration, the renaissance of city and town centres, the countryside, transport, and the heritage. Contemporary arrangements are explained with reference to their historical development, the influence of the European Union, the Labour government and changing social and economic demands for land use change. Detailed consideration is given to: the nature of planning and

its historical evolution policies for managing urban growth and delivering housing sustainable development principles for planning social and economic development of the countryside conserving the heritage changes to the profession and education of planners. Special attention is given to the objective of improving the co-ordination of government policies through the spatial planning approach. The many recent changes to the system are explained in detail, and each chapter ends with notes on further reading, lists of official publications and an extensive bibliography, all of which enhances its reputation as the bible of British Planning.

For over 25 years the bestselling Good Hotel Guide has been acclaimed as the most accurate, honest and insightful hotel guide on the market. Unlike most of its competitors the GHG is 100% independent. The best way to find a good hotel is by personal recommendation. This guide is just that. It has been fairly described as word-of-mouth in print. Unlike any of its competitors, the quality of reporting and writing has become a byword for excellence in the murky field of hotel guides. No other guide manages to combine information with insight, economical reporting with evocative descriptions, delightful bands for the budget conscious with stylish hotels for the comfort conscious. It is annually updated and rewritten with totally accurate entries and information. Every entry must have an individual appeal, as well as offering high customer care and value for money. Whether you are looking for an overnight city stay or a luxurious country break the GHG will save you time and money and deliver the perfect hotel for the occasion.
