Zen Seeing, Zen Drawing

“My book ... details the living hell that was my experience with concussions. The majority of this story was kept from even my closest relationships. It wasn't easy, but it's time to tell it.” – Dale Jr. It was a seemingly minor crash at Michigan International Speedway in June 2016 that ended the day early for Dale Earnhardt Jr. What he didn't know was that it would also end his driving for the year. He'd dealt with concussions before, but concussions are like snowflakes—no two are the same. And recovery can be brutal—and lengthy. As a third-generation driver in a family forever connected to the sport of stock-car racing, how could Dale Earnhardt Jr. sit on the sidelines and watch everyone else take their laps? It was one of the toughest seasons of his life—one that changed him forever. In this gripping narrative from one of professional sports' most beloved figures, Dale Jr. shares stories from his journey: how his career and his injury have transformed him, how he made the decision to retire at the end of the 2017 season after eighteen years behind the wheel, and what lies ahead for him in the next chapter of his life. There's no second-guessing and no regrets from Driver #88. He simply wants to go out on his own terms and make the rest of his life off the racetrack count. Junior says, “I don't want these last races to be just about me but rather the people who made my success possible: my fans, the folks who pack the grandstands rain or shine, my teammates and crew members through the years, industry colleagues, track volunteers, friends, family, sponsors. They've all played a role. I couldn't have done it without them.”

Since its birth as a motorcycle company in 1949, Honda has steadily grown into one of the world's largest automakers and engine manufacturers, as well as one of the most beloved, most profitable, and most consistently innovative multinational corporations. What drives the company that keeps creating and improving award-winning and bestselling models like the Civic, Accord, Odyssey, CR-V, and Pilot? According to Jeffrey Rothfeder, what truly distinguishes Honda from its competitors, especially archrival Toyota, is a deep commitment to a set of unorthodox management tenets. The Honda Way, as insiders call it, is notable for decentralization over corporate control, simplicity over complexity, experimentation over Six Sigma-driven efficiency, and unyielding cynicism toward the status quo and whatever is assumed to be the truth. Those are just a few of the ideas that the company's colorful founder Soichiro Honda embedded in the DNA of his start-up sixty-five years ago. As the first journalist allowed behind Honda's famously private doors, Rothfeder interviewed dozens of executives, engineers, and frontline employees about Honda's management practices and global strategy. He shows how the company developed and maintained its unmatched culture of innovation, resilience, and flexibility--and how it exported that culture to other countries that are strikingly different from Japan, establishing locally controlled operations in each region where it lays down roots.

Hi and Lois was created in 1954 by Mort Walker and Dik Browne. This classic

American comic strip has been entertaining newspaper readers for over five decades. The stars of the feature -- Hi, Lois, Chip, Dot, Trixie, and Dawg Flagston -- provide a warm, loving portrait of a wholesome family with traditional values and modern-day sensibilities. In today's often dysfunctional world, the Flagstons put the "fun" into functional family. Whether it's busy parents juggling jobs and raising a family, a teen coping with self-image, sibling rivalry among the youngsters, or a toddler learning about her place in the world, Hi and Lois has kept pace with mainstream life. The first Hi and Lois Sunday page was released on October 14, 1956. Mort and Dik always looked on these weekly instalments as an opportunity to showcase their best work. To them, a Sunday page was more than just an expanded daily strip. Mort would challenge Dik with ideas that inspired him to create a graphic masterpiece. Childhood fantasies, nostalgia trips, seasonal strolls, summer vacations, and holiday celebrations were among the many recurrent themes explored in these episodes.

A myth-shattering investigation of the true cost of America's passion for finding a better bargain. From the shuttered factories of the Rust Belt to the strip malls of the Sun Belt-and almost everywhere in between-America has been transformed by its relentless fixation on low price. This pervasive yet little-examined obsession with bargains is arguably the most powerful and devastating market force of our time, having fueled an excess of consumerism that blights our landscapes, escalates personal debt, lowers our standard of living, and even skews of our concept of time. Spotlighting the peculiar forces that drove Americans away from quality, durability, and craftsmanship and towards quantity, quantity, and more quantity, Ellen Ruppel Shell traces the rise of the bargain through our current big-box

profusion to expose the astronomically high cost of cheap.
