Flash CS4: The Missing Manual

Each year, Scott Kelby, Editor-in-Chief of Photoshop User magazine and the #1 best-selling Photoshop author, trains literally thousands of photographers on how to retouch portraits using Photoshop through his live seminars, online classes, DVDs, and standing-room only workshops at the Photoshop World Conference & Expo. Now you can learn the same techniques he uses in his own retouching workflow, in the only book of its kind--one written expressly for photographers who do their own retouching. As a pro photographer himself, Scott understands that photographers make their living shooting, not retouching. But, delivering fully retouched images is now expected by clients. That's why Scott put together this amazing resource for teaching photographers the quickest, easiest, and most effective ways to create professional-looking, retouched final images without spending hours grinding away at painstaking, detailed techniques. LEARN HOW THE PROS DO IT It's all here--the step-by-step methods for fixing, enhancing, and

finishing your portraits in Photoshop. Using the techniques in this book, you'll create images that will absolutely wow your clients. You'll learn:

- How to soften skin and still retain detail and texture
- The best tricks for beautifully enhancing eyes, eyebrows, and eyelashes
- How to selectively sharpen portraits without complicated masking
- How to create gorgeous-looking lips
- How to remove blemishes fast and keep the most detail
- The pros' tricks for body sculpting
- How to make your subject's hair look fabulous
- How to give your retouches that natural look that sets them apart

Plus, you get Scott's complete 5-minute, 15-minute, and 30-minute start-to-finish workflows. If you're ready to learn the "tricks of the trade"—the same ones that today's leading pro photographers use to retouch, tuck, tighten, and tone their images for that pro-retouched look—you're holding the book that will do exactly that. It will radically change the way you retouch your portraits from here on out, and give you the best-looking, most natural retouches you've ever done.

Frustrated by the overwhelming nature of Flash? Want to get up to speed with the program fast so you can concentrate on your animation? Need to solve problems quickly to get work done to time and to budget? Then 'How to Cheat in Flash' is for you! This book is different from the rest because it shows you, step by step, how to work from the problem to the solution when creating Flash animations, from the viewpoint of an animator who has been commissioned to create a job and is working to a deadline. It is task orientated; every example shows real life

commercial work. So, it's not so much a case of 'what does this filter/tool/option do?', as 'this is the task I've been set - how do I achieve it?' The solution may involve a variety of tools and techniques; it may take many steps to complete, or only a few. The free CD-Rom includes all the files you need to put your skills into practice as you read, and much more! It's an accessible (conversational in style), practical book and CD package which also provides artistic inspiration, a goldmine of timesaving practical tips, tricks and step-by-step workthroughs. You will wonder how you survived without it.
