Genesis

Adapted from the bestselling adult novel, *The Christmas Sweater: A Picture Book* is the story of a young boy who finds the true meaning of Christmas in the most unlikely of places. Eddie wants a bicycle for Christmas, but his mother knits him a homemade sweater instead. His disappointment is obvious, but a magical journey with his whimsical grandfather makes Eddie realize that the sweater is far more than it seems. He ultimately learns that the greatest gift of all is one that is given with love..

The Five Thousand Year Leap

As a nurse I have been in situations where patients learned very bad news about the state of their health, news that was not received well by them, their families, or even their medical team. When preparing this book, my feelings were much the same as when I was in those situations. The bad news about the health of our nation is, like cancer in a patient's body, communism (also known as "Marxism") has grown in the United States. Like cancer, it started with an unnoticed seed and grew insidiously with little sign or symptom. Now like cancer, communism is on the brink of overwhelming us. Because I know that knowledge of their cancer is essential to my patient's first step towards survival, I believe that knowledge of our communism is essential to the United States of America's first step towards survival. So within this book, I describe: how I learned about the symptoms (The Real Communist Threat Witnessed); the disease (the Introduction and Sections 1, 2, 3 and 4 of the Communist Manifesto); the signs and symptoms (President Obama's Communist Agenda); and the treatment and cure (Constitution versus Communist Manifesto: The War within America). Extremist Socialists, also known as Communists, like Extremist/Radical Islamists believe their ends justify their means (that is: lying, cheating, stealing, and killing).

Agenda 21

Krystal Ball and Saagar Enjeti are co-hosts of Rising at

The Hill TV, one of the fastest growing political shows in America. Theirs is the only book that fuses the populist right and populist left to explain the rise of the Trump and Sanders movements. The authors curate an essential collection of their biting commentary, stunning predictions, media critiques, and reveal their vision for a working class centered politics. No establishment media or political figure goes unscathed. This book reveals the white hot core of The Hill Rising's meteoric rise in the alternative media space. We are living through chaotic, nerve-racking, and occasionally terrifying times, but we hope you will find this book both hopeful and helpful. Nothing has made us more hopeful than our work together on Rising, watching what unfolds, laughing at the absurdities, and joining in our outrage at the often bipartisan rituals of manipulating our fellow citizens and viewing them with contempt. People are often confused by our politics and how much we end up in agreement. Ultimately, we have largely different policy prescriptions and beliefs. However, we do share a central diagnosis of the rot in this country, of how we got to this place, and a deep skepticism of power. It's amazing how far you can get when you start in the same place with a shared understanding of reality. It's a hell of a lot further than the shallow, fake civility politics that the forces of the status-quo say you must embrace-'Keep quiet and hold still while they rip you to shreds.' We take the opposite view. Speak up. Make people uncomfortable. Don't let the "experts" convince you that better isn't possible.

Being George Washington

The Bourne Identity meets Minority Report in this first highly anticipated installment in #1New York Times bestselling author Kim Harrison's sexy new suspense trilogy, featuring a brilliant special task agent at the top of her field and set in a futuristic Detroit.

Agenda 21

This book offers a unique and thought provoking exploration of how property concepts can be substantially reshaped to meet ecological challenges. It takes the discussion beyond its traditional parameters and offers new insights into conceptualizing and justifying property systems, in an age of ecological consequences.

Climate Change Ethics

FUNNY. FRIGHTENING. TRUE. It happens to all of us: You're minding your own business, when some idiot informs you that guns are evil, the Prius will save the planet, or the rich have to finally start paying their fair share of taxes. Just go away! you think to yourself -- but they only become more obnoxious. Your heart rate quickens. You start to sweat. You can't get away. Your only hope is this book. Glenn Beck, author of the #1 New York Times bestsellers *An Inconvenient Book* and *Glenn Beck's Common Sense*, has stumbled upon the secret formula to winning arguments against people with big mouths but small minds: knowing the facts. And this book is full of them. The next time your Idiot Friends tell you how gun control prevents gun violence, you'll tell them all about England's handgun ban (see page 53). When they tell you that we should copy the UK's health-care system, you'll recount the horrifying facts you read on page 244. And the next time an idiot tells you that vegetable prices will skyrocket without illegal workers, you'll stop saying "no, they won't" and you'll start saying, "actually, eliminating all illegal labor will cause us to spend just \$8 a year more on produce." (See page 139.) Idiots can't be identified through voting records, they can be found only by looking for people who hide behind stereotypes, embrace partisanship, and believe that bumper sticker slogans are a substitute for common sense. If you know someone who fits the bill, then *Arguing with Idiots* will help you silence them once

and for all with the ultimate weapon: the truth.

Glenn Beck's Common Sense

Realizing she will never see her child again, Emmeline decides to escape the Compound with her partner and their baby, hoping to find freedom from the Republic.

The Original Argument

Passover Feast of Unleavened Bread Feast of First Fruits Feast of Pentecost Feast of Trumpets Day of Atonement Feast of Tabernacles The Feasts of Israel, set by God, are not only commemorative in a historical context, but are also prophetic. The first three feasts in the 1st month point to the Messiah's First Coming; the last three feasts in the 7th month, to His Second Coming. The middle feast highlights the Church, in more ways than is generally recognized. Dr. Chuck Missler begins to reveal the rich background of these feasts with many surprises for the Biblical believer, and yet only scratches the surface.

Undermining the U.S. Constitution

A brilliant and chilling dystopia for a new generation in the tradition of Brave New World. ““Explain to us why you wish to enter The Academy.”” Anaximander, a young Academy candidate, is put through a gruelling exam. Her special subject: the life of Adam Forde, her long-dead hero. It’s late in the 21st century and the island Republic has emerged from a ruined,

plague-ridden world, its citizens safe, but not free, and living in complete isolation from outside contact. Approaching planes are gunned down, refugees shot on sight. Until a man named Adam Forde rescued a girl from the sea. "Anaximander, we have asked you to consider why it is you would like to join the Academy. Is your answer ready?" To answer that question, Anaximander must struggle with everything she has ever known about herself and her beloved Republic's history, the nature of being human, of being conscious, and even what it means to have a soul. And when everything has been laid bare, she must confront the Republic's last great secret, her own surprising link to Adam Forde, and the horrifying truth about her world. From the Hardcover edition.

Agenda 21

IN NOVEMBER TRUMP WILL SMASH THE LEFT AND WIN! "We love David Horowitz. He thinks Trump is gonna win in a landslide in November, and he gives

reasons why in the book, and he says Republicans are gonna be singing 'Happy Days Are Here Again' once November comes and the election is over and the votes are counted." — Rush Limbaugh "He is one of the bravest guys. He found the real intent [of the Left] was to control America. He has never, ever sat down. A true national treasure." — Glenn Beck "If you're interested in debating deranged liberals with facts, you won't want to miss this latest book." — Donald Trump, Jr. "BLITZ is a MUST-read for those who want to better understand what is really happening in the 'idea war' for the soul of America." — Governor Mike Huckabee BLITZ reveals the attacks made against Trump have been the most brutal ever mounted against a sitting president of the United States. Blinded by deep-seated hatred of his person and his policies, the left even desperately tried to oust Trump in a failed impeachment bid. Horowitz shows that their very attacks—targeting a man whose mission has been to "Drain the Swamp" and "Make America Great Again" backfired, turning Trump himself into a near martyr while igniting the fervor of his "base." With the 2020 election upon us, New York Times bestselling author David Horowitz chronicles the brutal battles, bitter backlash, and leftwing lies Trump has faced as Democrats repeatedly try to sabotage his presidency. You'll discover the left's terrifying socialist and, in some cases, communist agendas as you've never seen them before. Trump's response? In the meantime, he's going to steamroll this opposition in November using the same playbook he has used to win before. In BLITZ you will find shocking revelations: The 9 biggest dangers to America the left poses—their agenda will blow your mind. Show me

the money: naming the billionaires and fat cats really out to get Trump. How patriotism suddenly became “white nationalism” linking Trump to Hitler and the KKK . The growing secularism of the left and how the hate pushed against Christians will backfire. Why every effort to demonize Trump and his supporters is failing like crazy. Obama’s agenda: how the former president casts a much greater shadow over Trump’s political woes than you ever imagined. The Genius: how Trump’s brilliant strategy has worked and will continue to work, making him president again in 2021! The effort to remove and destroy our duly elected President may be the greatest challenge America has faced since the Civil War, explains Horowitz. For the first time BLITZ exposes the left’s strategy to take down Trump, and how Trump not only beat them at their own game, but how he’s turning the tables on them to achieve a stunning reelection win come November. “An indispensable book—BLITZ— explaining why today’s Democrats are so dangerous and why President Trump is their nemesis.” — Mark R. Levin, New York Times bestselling author of Unfreedom of the Press “BLITZ is the latest must-read from Horowitz: insightful, hard-hitting, controversial, and uncompromising. Ignore him at your peril.” — Peter Schweizer, New York Times bestselling author of Clinton Cash and Profiles in Corruption “This is the book your anti-Trump relatives and friends should read as clear a moral indictment of the anti-Trump left as has been written.” — Dennis Prager, President of PragerU and New York Times bestselling author “Unparalleled insight into the current political climate, how we got here and what it means for 2020 elections.” — Sean

A NEW YORK TIMES BESTSELLER In *Arguing With Socialists*, New York Times bestselling author Glenn Beck arms readers to the teeth with information necessary to debunk the socialist arguments that have once again become popular, and proves that the free market is the only way to go. With his trademark humor, Beck lampoons the resurgence of this bankrupt leftist philosophy with thousands of stories, facts, arguments and easy-to-understand graphics for anyone who is willing to ask the hard questions. He shows that this new shiny socialism is just the same as the old one: a costly and dangerous failure that leaves desperation, poverty, and bodies in its wake.

Miss Subways

The Founding Fathers of the United States of America created the first free people in modern times. They wrote a new kind of Constitution which is now the oldest in existence. They built a new kind of commonwealth designed as a model for the whole human race. They believed it was thoroughly possible

to create a new kind of civilization; giving freedom, equality, and justice to all. The Founders created a new cultural climate that gave wings to the human spirit. They built a free-enterprise culture to encourage industry and prosperity. They gave humanity the needed ingredients for a gigantic 5,000-year leap in which more progress has been made in the past 200 years than all of prior recorded human history. All of this came about because of 28 basic principles the Founders discovered, upon which all free nations must be built in order to succeed. This eBook includes the original index, footnotes, table of contents and page numbering from the printed format, and also new illustrations.

The "21" in Agenda 21 refers to the 21st century.

The People Behind the Patriots

New York Times bestselling author David Duchovny reimagines the Irish mythological figure of Emer in *Miss Subways*, a darkly comic fantasy love story set in New York City. Emer is just a woman living in New York City who takes the subway, buys ice cream from the bodega on the corner, has writerly aspirations, and lives with her boyfriend, Con. But is this life she lives the only path she's on? Taking inspiration from the myth of Emer and Cuchulain and featuring an all-star cast of mythical figures from all over the world, David Duchovny's darkly funny fantasy novel *Miss Subways* is one woman's trippy, mystical journey down parallel tracks of time and love. On the way,

Emer will battle natural and supernatural forces to find her true voice, power, and destiny. A fairy tale of love lost and regained, Miss Subways is also a love letter to the city that enchants us all: New York.

"Fresh off a new season of the evergreen X-Files and a late-blooming music career, the multitalented Duchovny (Bucky F*cking Dent, 2016, etc.) offers a spooky domestic drama that is equal parts Nick Hornby and Neil Gaiman An entertaining, postmodern fairy tale that tests the boundaries of love and fate." - Kirkus Reviews

Arguing with Idiots

#1 bestselling author and popular radio and television host Glenn Beck shines a spotlight on today's culture of violence and provides practical, timely, and fact-based answers to the most commonly heard gun-control arguments. When our founding fathers secured the Constitutional "right of the people to keep and bear arms," they also added the admonition that this right SHALL NOT BE INFRINGED. It is the only time this phrase appears in the Bill of Rights. So why aren't more people listening? History has proven that guns are essential to self-defense and liberty—but tragedy is a powerful force and has led many to believe that guns are the enemy, that the Second Amendment is outdated, and that more restrictions or outright bans on firearms will somehow solve everything. They are wrong. In CONTROL, Glenn Beck presents a passionate, fact-based case for guns that reveals why gun control isn't really about controlling guns at all; it's about controlling us. In doing so, he

takes on and debunks the common myths and outright lies that are often used to vilify guns and demean their owners: The Second Amendment is ABOUT MUSKETS . . . GUN CONTROL WORKS in other countries . . . 40 percent of all guns are sold without BACKGROUND CHECKS . . . More GUNS MEAN more MURDER . . . Mass shootings are becoming more common . . . These awful MASSACRES ARE UNIQUE TO AMERICA . . . No CIVILIAN needs a “weapon of war” like the AR-15 . . . ARMED GUARDS in schools do nothing, just look at Columbine . . . Stop FEARMONGERING, no one is talking about TAKING YOUR GUNS AWAY. Backed by hundreds of sources, this handbook gives everyone who cares about the Second Amendment the indisputable facts they need to reclaim the debate, defeat the fear, and take back their natural rights.

What is loserthink? If you've been on social media lately, or turned on your TV, you may have noticed there are a lot of dumb ideas floating around out there. "We know when history will repeat and when it won't." "We can tell the difference between evidence and coincidences." "The simplest explanation is usually true." "Stay in your channel." Wrong, wrong, dangerous, and wrong! These false beliefs are the result of what Scott Adams, the creator of the Dilbertcomic and a lifelong student of group psychology, calls loserthink. Loserthink is the epidemic of sneaky mental habits trapping its victims in their own bubbles of reality. Even the smartest and

most educated among us can slip into its seductive grasp. If we're not careful, loserthink would have us believe that every Trump supporter is a bigoted racist, addicts should be responsible for fixing the opioid epidemic, any form of gun control is a slippery slope to full confiscation, and that your relationship fell apart simply because you chewed with your mouth open. This book will teach you how to spot and avoid loserthink before it starts to influence you--and will give you scripts to respond when it's being brandished against you, whether by well-intentioned friends, strangers on the internet, or political pundits. You'll learn the best defense against emotionally powerful but vacuous arguments and how to spot the underlying causes of loserthink, like the inability to get ego out of your decisions, thinking with words instead of reasons, failing to imagine alternative explanations, and making too much of coincidences. Using his patented blend of humor and social satire, along with candid examples of falling prey to loserthink from his own past, Adams offers elegant analytical frameworks for clear thinking, evoking the mental models of scientists, economists, entrepreneurs, and artists. Your bubble of reality doesn't have to be a prison. This book will show you how to break free--and, what's more, to be among the most perceptive and respected thinkers in every conversation.

Chasing Liberty

When the government comes for her mother, Emmeline embarks on a plan to save her family and

expose the truth behind the objectives of the United Nations' agenda 21.

When Reality Hits

Climate change is now the biggest challenge faced by humanity worldwide and ethics is the crucial missing component in the debate about what to do about this enormous threat. This book examines why thirty-five years of discussion of human-induced warming has failed to acknowledge fundamental ethical concerns, and subjects climate change's most important policy questions to ethical analysis. This book examines why ethical principles have failed to gain traction in policy formation and recommends specific strategies to ensure that climate change policies are consistent with ethical principles. Because climate change is a global problem that requires a global solution and given that many nations refuse participation due to perceived inequities in proposed international solutions, this book explains why ensuring that nations, sub-national governments, organizations, businesses and individuals acknowledge and respond to their ethical obligations is both an ethical and practical mandate. This book is the first of its kind to go beyond a mere account of relevant ethical questions to offer a pragmatic guide on how to make ethical principles influential in formulating the world's response to climate change. Written by Donald A. Brown, a leading voice in the field, it should be of interest to policy makers, and those studying environmental policy, climate change policy, international relations, environmental ethics and

philosophy.

BLITZ

A plan to destroy America, a hundred years in the making, is about to be unleashed . . . can it be stopped? There is a powerful technique called the Overton Window that can shape our lives, our laws, and our future. It works by manipulating public perception so that ideas previously thought of as radical begin to seem acceptable over time. Move the Window and you change the debate. Change the debate and you change the country. For Noah Gardner, a twentysomething public relations executive, it's safe to say that political theory is the furthest thing from his mind. Smart, single, handsome, and insulated from the world's problems by the wealth and power of his father, Noah is far more concerned about the future of his social life than the future of his country. But all of that changes when Noah meets Molly Ross, a woman who is consumed by the knowledge that the America we know is about to be lost forever. She and her group of patriots have vowed to remember the past and fight for the future—but Noah, convinced they're just misguided conspiracy-theorists, isn't interested in lending his considerable skills to their cause. And then the world changes. An unprecedented attack on U.S. soil shakes the country to the core and puts into motion a frightening plan, decades in the making, to transform America and demonize all those who stand in the way. Amidst the chaos, many don't know the difference between conspiracy theory and conspiracy

fact—or, more important, which side to fight for. But for Noah, the choice is clear: Exposing the plan, and revealing the conspirators behind it, is the only way to save both the woman he loves and the individual freedoms he once took for granted. After five back-to-back #1 New York Times bestsellers, national radio and Fox News television host Glenn Beck has delivered a ripped-from-the-headlines thriller that seamlessly weaves together American history, frightening facts about our present condition, and a heart-stopping plot. *The Overton Window* will educate, enlighten, and, most important, entertain—with twists and revelations no one will see coming.

The Eye of Moloch

NEW YORK TIMES BESTSELLER Greg Gutfeld wants to be your new guru, and he hates himself for it. Before Greg Gutfeld was a Fox News star and a New York Times bestselling author, he was a self-help writer for health magazines who had no idea what he was talking about. But now, after years of experience, he finally feels qualified to guide people on the journey of life—call this book punishment for his sins, and a huge reward for you! In *The Plus*, Greg teaches you how to brainwash yourself into better behavior, retaining the pluses in your life and eliminating the minuses. His approach to self-help is simple, and perfect for cynics; it's not about positive thinking in the short term, it's about positive being in the long term. With tough love and more than a little political incorrectness, he delivers sage wisdom such as: -If

you aren't getting happier as you're getting older, you're doing it wrong. -Resist the media's command to expand destructive narratives. -If you're in the same place you were three years ago, wake up. -Don't tweet when drinking. Modern life grows emptier and emptier as society becomes increasingly polarized, and even those who don't subscribe to New Age beliefs are seeking comfort and meaning. In *The Plus*, Greg shows how skeptics too can advance themselves for the betterment of their lives and the healing of their communities.

The Populist's Guide to 2020: A New Right and New Left are Rising

Children often have trouble telling their father how much they love him. Fortunately, this book expresses those emotions for them. This endearing collection of stories about the everyday heroics of the contributors' fathers, and father figures, will show Dad how much he means to his children. From the story of a fly fishing trip that bonded father and daughter to the one that saw a friend's imposing father turn into the contributor's own loving father-figure, this wonderful book brings together tales of heroic dads from all walks of life, and is a great way for his kids to show him how much they care. And it lets dads everywhere know that they don't need to be daring to be heroic—that it can be the little things that mean the most to his kids.

The Holder's Dominion

Glenn Beck celebrates real courage, real honor, and real American heroes in this new nonfiction title about the Founders of the United States.

Agenda 21: Into the Shadows

#1 New York Times bestselling author and popular radio and television host Glenn Beck revisits Thomas Paine's *Common Sense*. In any era, great Americans inspire us to reach our full potential. They know with conviction what they believe within themselves. They understand that all actions have consequences. And they find commonsense solutions to the nation's problems. One such American, Thomas Paine, was an ordinary man who changed the course of history by penning *Common Sense*, the concise 1776 masterpiece in which, through extraordinarily straightforward and indisputable arguments, he encouraged his fellow citizens to take control of America's future—and, ultimately, her freedom. Nearly two and a half centuries later, those very freedoms once again hang in the balance. And now, Glenn Beck revisits Paine's powerful treatise with one purpose: to galvanize Americans to see past government's easy solutions, two-party monopoly, and illogical methods and take back our great country.

Death Doesn't Bargain

The values we hold dear, like life, liberty, and the pursuit of happiness form the foundation of who we are as a people and a nation. Our traditions and laws

are based on these values and were originally designed to preserve human dignity. In my opinion, human dignity is as vital to life as the air we breathe and the water we drink. Without it, life perishes. As you will discover in this book, Agenda 21 believes you are a nuisance. Your very existence represents a stumbling block to a master plan that equates human life to a colony of ants, where the rights of the individual and human dignity are defined by servitude, not freedom, and where personal ambition must be expended for the greater good.

Liars

Glenn Beck revisited Thomas Paine's famous pre-Revolutionary War call to action in his #1 New York Times bestseller Glenn Beck's Common Sense. Now he brings his historical acumen and political savvy to this fresh, new interpretation of The Federalist Papers, the 18th-century collection of political essays that defined and shaped our Constitution and laid bare the "original argument" between states' rights and big federal government—a debate as relevant and urgent today as it was at the birth of our nation. Adapting a selection of these essential essays—pseudonymously authored by the now well-documented triumvirate of Alexander Hamilton, James Madison, and John Jay—for a contemporary audience, Glenn Beck has had them reworked into "modern" English so as to be thoroughly accessible to anyone seeking a better understanding of the Founding Fathers' intent and meaning when laying the groundwork of our government. Beck provides his own illuminating

commentary and annotations and, for a number of the essays, has brought together the viewpoints of both liberal and conservative historians and scholars, making this a fair and insightful perspective on the historical works that remain the primary source for interpreting Constitutional law and the rights of American citizens.

It IS About Islam

Radio and television host Glenn Beck has experienced the rollercoaster of life like few others. From the suicide of his mother when he was just thirteen, to his eventual alcoholism, depression, divorce, unemployment, and health scares—Glenn has weathered life’s darkest storms. Any one of those struggles could’ve ruined him, yet Glenn was able to keep moving forward. He saw past the darkness into the light; past his grief and addictions and into what his life could be. The process of finding happiness through personal redemption was not easy, but it left Glenn with a blueprint for how to confront future adversity. Glenn is living proof that these steps—he calls them wonders—don’t just work on paper. They helped transform his life and can they can help to transform yours as well. Glenn Beck and Dr. Keith Ablow—two of the most popular and influential personalities in American media today—have joined forces to present a powerful guide to personal transformation and fulfillment that is as unique as their own unlikely partnership. They are called the “7 Wonders” and they can be used by anyone who has made the decision that they are ready to change their

life. After the television talk show host and the bestselling psychiatrist struck up a fast friendship they realized that their experiences with life's struggles were complementary. What Keith had studied, Glenn had lived. What Keith had counseled patients on for years, Glenn had suffered through for decades. The deeply personal insights they shared brought them to realize that their life stories had seven key principles in common; seven wonders that seemed to be essential ingredients for anyone attempting to transform their life.

My Dad Is My Hero

COURAGE > COWARDS As we approach the most important presidential election in America's history, something has been lost among all of the debates, attack ads, and super- PACs—something that Americans used to hold in very high regard: THE TRUTH. Glenn Beck likes to say that “the truth has no agenda”—but there's another side to that: people who have agendas rarely care about the truth. And, these days, it seems like everyone has an agenda. The media leads with stories that rate over those that matter. Politicians put lobbyists and electability over honesty. Radicals alter history in order to change the future. In Cowards, Glenn Beck exposes the truth about thirteen important issues that have been hijacked by deceit. Whether out of spite, greed, or fear, these are the things that no one seems to be willing to have an honest conversation about. For example: * How our two-party POLITICAL SYSTEM often leaves voters with NO GOOD OPTIONS. * How

extremists are slowly integrating ISLAMIC LAW into our SOCIETY. * How PROGRESSIVE “religious” leaders like JIM WALLIS are politicizing the Bible. * How the CARTEL VIOLENCE on our border is FAR WORSE than people realize. * How “LIBERTARIAN” has been INTENTIONALLY turned into a DIRTY WORD. * How GEORGE SOROS has amassed enough MONEY and POWER to INFLUENCE entire ECONOMIES. In some cases, the truth is out there, but people simply don’t want to hear it. It’s much easier, and certainly a lot more convenient, to keep our blinders on. After all, as a quote attributed to President James Garfield made clear, “The truth will set you free, but first it will make you miserable.” Miserable or not, the truth can no longer be something we hope for; it must be something we live. When courage prevails, cowards do not—and this book was written to ensure that’s exactly what happens.

Debunking Glenn Beck

THE FACTS. THE FUTURE. THE FIGHT TO FIX AMERICA— BEFORE IT’S TOO LATE. In the words of Harvard economist Niall Ferguson, the United States is “an empire on the edge of chaos.” Why? Glenn Beck thinks the answer is pretty simple: Because we’ve turned our backs on the Constitution. Yes, our country is financially broke, but that’s just a side effect of our broken spirit, our broken faith in government, the broken promises by our leaders, and a broken political system that has centralized power at the expense of individual rights. There is a lot of work ahead, but we can’t move forward until we first

understand how we got here. Starting with the American Revolution, Glenn takes readers on an express train through 234 years of history, culminating with the Great Recession and the bipartisan recklessness of Presidents Bush and Obama. It's the history lesson we all wished we'd had in school. (Did you know, for example, that FDR once made a key New Deal policy decision based on his lucky number?) Along the way, you'll see how everything you thought you knew about the political parties is a lie, how Democrats and Republicans alike used to fight for minimum government and maximum freedom, and how both parties have been taken over by a cancer called "progressivism." By the end, you'll understand why no president, no congress and no court can fix this problem alone. Looking toward them for answers is like looking toward the ocean for drinking water— it looks promising, but the end result is catastrophic. After revealing the trail of lies that brought us here, Broke exposes the truth about what we're really facing. Most people have seen pieces of the puzzle, but very few have ever seen the whole picture—and for very good reason: Our leaders have done everything in their power to hide it. If Americans understood how dire things really are, they would be demanding radical reform right now. Despite the rhetoric, that's not the kind of change our politicians really believe in. Finally, Broke provides the hope that comes with knowing the truth. Once you see what we're really up against, it's much easier to develop a realistic plan. To fix ourselves financially, Glenn argues, we have to fix ourselves first. That means some serious introspection and, ultimately, a series of actions that will unite all Americans around the

concept of shared sacrifice. After all, this generation may not be asked to storm beaches, but we are being asked to do something just as critical to preserving freedom. Packed with great stories from history, chalkboard-style teachable moments, custom illustrations, and Glenn Beck's trademark combination of entertainment and enlightenment, *Broke* makes the case that when you're traveling in the wrong direction, slight course corrections won't cut it—you need to take drastic action. Through a return to individual rights, an uncompromising adherence to the Constitution, and a complete rethinking about the role of government in a free society, Glenn exposes the idea of "transformation" for the progressive smokescreen that it is, and instead builds a compelling case that restoration is the only way forward.

The Plus

Glenn Beck, #1 bestselling author and radio host, reveals the cold truth behind the ideology of progressivism and how the tenets of this dangerous belief system are eroding the foundation of this country. Politics is no longer about pointing to a shining city on the hill; it's about promising you a shiny new car for your driveway. The candidate who tells the people what they want to hear is usually the one who wins—no matter the truth. Politicians may be sleazy and spineless, but they're not stupid. They see that the way to win is by first telling people everything that is wrong with the world, and then painting a Utopian vision that they'll create right here

on earth, one where no one is ever sick or hungry, jobless, or homeless. All we have to do is surrender our freedom and someone else's wallet and they'll make it happen. And so they continue to lie, and we continue to believe them, and they keep winning elections. The only way to break the cycle is to understand why Americans fall for the deception over and over again. Progressives from both parties exploit us by first pointing out the things we should be afraid of, and then offering us "solutions" to these fears—solutions that always require us to give up our freedoms. In his signature no-holds-barred way, Beck destroys the false promises of Progressivism and asks us: Why do we accept the lies?

The Feasts of Israel

#1 bestselling author and popular radio and television host Glenn Beck considers the hot-button issue of education in the US, exposing the weaknesses of the Common Core school curriculum and examining why liberal solutions fail. Public education is never mentioned in the constitution. Why? Because our founders knew that it was an issue for state and local governments—not the federal one. It's not a coincidence that the more the federal government has inserted itself into public education over the years, the worse our kids have fared. Washington dangles millions of dollars in front of states and then tells them what they have to do to get it. It's backdoor nationalization of education—and it's leading us to ruin. In *Conform*, Glenn Beck presents a well-reasoned, fact-based analysis that proves it's not more money our schools need—it's a complete refocusing of their priorities and a total restructuring of their relationship with the federal government. In the process, he dismantles many of the common myths and talking points that are often heard by those who want to protect the status quo. Critics of the current system are just "teacher bashers"...Teachers' unions put kids firstHomeschooled kids suffer both academically and socially..."local control" is an excuse to protect mediocrity...Common Core is "rigorous" and "state led"...Critics of Common Core are just conspiracy theorists...Elementary school teachers need tenureWe can't reform schools until we eradicate poverty...school choice takes money away from public

schools...Charter schools perform poorly relative to public schools. There is no issue more important to America's future than education. The fact that we've yielded control over it to powerful unions and ideologically driven elitists is inexcusable. We are failing ourselves, our children, and our country. Conform gives parents the facts they need to take back the debate and help usher in a new era of education built around the commonsense principles of choice, freedom, and accountability.

The Drafter

#1 bestselling author and radio host Glenn Beck exposes the real truth behind the roots of Islamic extremism in Muslim teachings in this sharply insightful handbook that debunks commonly held assumptions about Islam and the dream of a renewed caliphate. From the barbarians of ISIS to the terror tactics of Al-Qaeda and its offshoots, to the impending threat of a nuclear Iran, those motivated by extreme fundamentalist Islamic faith have the power to endanger and kill millions. The conflict with them will not end until we face the truth about those who find their inspiration and justification in the religion itself. Drawing on quotes from the Koran and the hadith, as well as from leaders of ISIS, Al Qaeda, and the Muslim Brotherhood, Glenn Beck seeks to expose the true origins of Islamic extremism as well as the deadly theological motivations behind these agencies of destruction. Using the same unique no-holds-barred style from his bestselling books *Control* and *Conform*, Glenn Beck offers straight facts and history about the

fundamental beliefs that inspire so many to kill.

The Overton Window

At the end of the Second World War in 1945, the United Nations (UN) was formed to prevent another World War like the one that had just ended. The following decades brought renewed and fresh life to many, and Canada or America were again "lands of opportunity." Since then, many changes have taken place in technology, the economy, and morality. Extreme ideologies and terrorism are becoming more commonplace. Wars and rumours of wars have Canada and America involved in many conflicts around the world; is the UN failing as a peacekeeper? Have we expected too much from an organization that now cannot even control itself. How long before we lose it all to the "New World Order?"

Behind the Green Mask

The battle lines in this bitter rivalry are as old as civilization itself: On one side, an unlikely band of ordinary Americans ready to make their last stand in defense of self-rule, freedom, and liberty, and on the other, an elite cabal of self-styled tyrants who believe that unlimited power should be wielded only by the chosen few. That group, led by an aging, trillionaire puppet-master named Aaron Doyle, will stop at nothing to destroy the myth that man is capable of ruling himself.
