From the author of *Come Back to Me* comes a heartwrenching novel about a forbidden romance, a wounded marine, and the girl who's determined to save him. Didi Monroe has waited her whole life for happily ever after. So when charming Zac Ridgemont sweeps her off her feet, Didi believes she might finally have met the one. Until she begins an internship at a military hospital in California. There she meets wounded marine Noel Walker. Frustrated on the outside and broken on the inside, Walker's an irritating patient who refuses any care, keeping his distance from everything and everyone—including Didi. Walker is strictly out of bounds. Didi knows this, respects this, but the more she tries to help Walker the closer the two grow. Soon neither one can ignore the sparks flying between them as their

He doesn't want to hurt Didi, but he doesn't want to push her away either. She makes him feel peaceful. Hopeful, even. Then tragedy hits, shattering both their worlds, and Didi realizes that love isn't as simple as happily ever after. Love isn't easy. It's difficult. Messy. Complicated. Now all Didi has to do is decide if it's worth fighting for.

"I felt like I was walking to the end of a plank precariously hanging over shark-infested water. When I jumped, sharp teeth would rip into me and the cold water would steal my breath away. The monsters would take everything from me, leaving me shivering and naked in the water. The only difference was that tonight I would be pulled from the icy darkness and forced to do it again. There would be no release from death, only pain." Home after her first year of college, Adeline Miller is looking forward to a stress free summer filled with reading, working on her blog, and spending time with friends. But all that changes in an instant when she is witness to something terrible, something she wasn't supposed to see. Beaten, drugged, kidnapped. Adeline Miller is ripped from her innocent and carefree life and thrust into darkness, into a world full of pain and horror. As a sex slave, she is forced to do horrible things, and have horrible things done to her. One of her

Here to Stay (Where Love Begins Book #2)

Even When I'm Gone

God Is Here to Stay offers new insights into one of humankind's most profound questions: Does God exist? During the past ten years, theists and new atheists have argued to prove or disprove God's existence. Examining the pros and cons of each side leads to one overarching conclusion: The existence of God can be neither proven nor disproven with complete certainty, even though both sides draw on modern science to support their views. Drs. Thomas R. McFaul and Al Brunsting approach the question of God's existence from an entirely fresh perspective. They examine scientific knowledge in several areas ranging across the physical sciences and human experience to explain how the universe operates within very narrow and highly structured boundaries. Most importantly, they create an innovative "L-M Confidence Scale" to establish confidence levels, not proofs, on how scientific discoveries impact belief in God. McFaul and Brunsting describe the three stages of scientific evolution. In stage 1, the world's religions developed divergent pre-scientific views. Modern science started with stage 2, during which atheists predicted that science would eventually eradicate religion. In stage 3, the authors show how science, evolution, and belief in God have become increasingly integrated and mutually supportive.

Writing has taken over my life.. in a good way. My thoughts continually are geared towards my next song. Sometimes I get a few lines in my head when I am driving and I have to pull over the car and write them down! No matter where I am, I get the urge to write. I could be talking to a neighbor, or be in the middle of mass at church and a word or phrase will pop into my head and whoa! -a new song is born! More than anything I love, love, love, the peace of mind songwriting allows me to have. Most of my lyrics take me 15 to 30 minutes to write. There was a time when I was writing 6-8 lyrics in a day. Sometimes I would sit there and stare at my pencil

asking why did you stop? I swear at times the pencil kept moving like I wasn't even thinking of what to write. This is my first edition. I hope to continue with future editions as I am still writing new songs everyday. Someday I hope to put my lyrics to my own music and I recently started taking piano lessons. Hey, we all know life is a learning process; a learning curve, we need to experience the turns with the ride! Matt Haig's accessible and life-affirming memoir of his struggle with depression, and how his triumph over the illness taught him to live. From the internationally bestselling author of *How To Stop Time* and *Notes on a Nervous Planet*. "Destined to become a modern classic." —*Entertainment Weekly* Like nearly one in five people, Matt Haig suffers from depression. *Reasons to Stay Alive* is Matt's inspiring account of how, minute by minute and day by day, he overcame the disease with the help of reading, writing, and the love of his parents and his girlfriend (and now-wife), Andrea. And eventually, he learned to appreciate life all the more for it. Everyone's lives are touched by mental illness: if we do not suffer from it ourselves, then we have a friend or loved one who does. Matt's frankness about his experiences is both inspiring to those who feel daunted by depression and illuminating to those who are mystified by it. Above all, his humor and encouragement never let us lose sight of hope. Speaking as his present self to his

former self in the depths of depression, He is adamant that the oldest cliché is the truest—there is light at the end of the tunnel. He teaches us to celebrate the small joys and moments of peace that life brings, and reminds us that there are always reasons to stay alive.
