The English Historical Review

During the seventeenth century, in response to political and social upheavals such as the English Civil Wars, women produced writings in both manuscript and print. This volume represents recent scholarship that has uncovered new texts as well as introduced new paradigms to further our understanding of women's literary history during this period.

Journalism in the United States, from 1690-1872

Lists words, grouped by subject, that were in use in different time periods, including prior to 1150, and in increasingly smaller ranges to the present

The Oxford Handbook of Public Policy

A Cyclopedia of Missions

The Oxford Introductions to U.S. Law: Property provides both a bird's eye overview of property law and an introduction to how property law affects larger concerns with individual autonomy, personhood, and economic organization. Written by two authorities on property law, this book gives students of property a coherent account of how property law works, with an emphasis on describing the central issues and policy debates. It is designed for law students who want a short and theoretically integrated treatment of the subject, as well as for lawyers who are interested in the conceptual foundations of the law of property.

The Oxford Introductions to U.S. Law

Provides profiles of 175 career opportunities for the twenty-first century, and includes salary ranges and a personal-preference questionnaire to aid in selection.

The Eighteenth-Century Literature Handbook

The influence of specifically Irish factors, including socio-religious customs, persecution and inadequate clerical resources upon synodal policy are examined and effort made to gauge the objectives of the hierarchical leaders throughout the 17th century, as manifested in their decrees.

The Princeton Review Guide to the Right Career, 1996

The Encyclopaedia Britannica: Aus to Cal

By providing precise and accurate examples placed and scrutinized in their historical context, "Art and Faith in Tridentine Spain (1545-1690)" explains how painting, sculpture, and sacred space were able to convey and accomplish the

dogmatic decisions and the spiritual message of the Council of Trent. Beyond the "Decree on the Holy Images," it is to the letter and to the spirit of all dogmatic Canons that post-Council art refers. From the 1500s to the 1680s Counter-Reformist art became a valuable and effective arm of the Church of Rome.

The Oxford Handbook of Opera

After the strains of Pomp and Circumstance die out and student loans come due, it's time for new grads to assess their talents, select a career path, and plot their strategy for cracking the job market. This guide is designed to help recent college graduates get on the right track, offering a self-assessment test to help define individual potential.

Ireland Since 1690

Catalog of Copyright Entries. Third Series

'The Oxford Handbook of Opera' captures the highly charged dynamic between opera and its audience, bringing the complexities of scholarship and the excitement of performance into the mainstream conversation. Fifty essays address

an extensive range of topics.

The History of British Women's Writing, 1610-1690

This thorough history provides an authoritative account of three centuries of conflict, continuity, and change. Accessible descriptions detail the key events in Ireland's unique history--from the Battle of the Boyne to the turbulent peace process of the last three decades. Objective and highly readable, this is a valuable history for all Irish enthusiasts.

The Fact Checker's Bible

The Oxford Handbooks of Political Science is a ten-volume set of reference books offering authoritative and engaging critical overviews of the state of political science. Each volume focuses on a particular part of the discipline, with volumes on Public Policy, Political Theory, Political Economy, Contextual Political Analysis, Comparative Politics, International Relations, Law and Politics, Political Behavior, Political Institutions, and Political Methodology. The project as a whole is under the General Editorship of Robert E. Goodin, with each volume being edited by a distinguished international group of specialists in their respective fields. The books set out not just to report on the discipline, but to shape it. The series will be an indispensable point of reference for anyone working in political science and adjacent disciplines. Public policy is the business end of political science. It is where theory meets practice in the pursuit of the public good. Political scientists approach public policy in myriad ways. Some approach the policy process descriptively, asking how the need for public intervention comes to be perceived, a policy response formulated, enacted, implemented, and, all too often, subverted,

perverted, altered, or abandoned. Others approach public policy more prescriptively, offering politically-informed suggestions for how normatively valued goals can and should be pursued, either through particular policies or through alternative processes for making policy. Some offer their advice from the Olympian heights of detached academic observers, others as 'engaged scholars' cum advocates, while still others seek to instil more reflective attitudes among policy practitioners themselves toward their own practices. The Oxford Handbook of Public Policy mines all these traditions, using an innovative structure that responds to the very latest scholarship. Its chapters touch upon institutional and historical sources and analytical methods, how policy is made, how it is evaluated and how it is constrained. In these ways, the Handbook shows how the combined wisdom of political science as a whole can be brought to bear on political attempts to improve the human condition.

These days fact-checking can seem like a lost art. The Fact Checker's Bible arrives not a moment too soon: it is the first—and essential—guide to the important but increasingly neglected task of checking facts, whatever their source. We are all overwhelmed with information that claims to be factual, but even the most punctilious researcher, writer, and journalist can sometimes get it wrong, so checking facts has become a more pressing task. Now Sarah Harrison Smith, former New Yorker fact checker and currently head of checking for The New York Times Magazine explains exactly how to: *Reading for accuracy *Determine what to check *Research the facts *Assess sources: people, newspapers and magazines, books, the Internet, etc. *Check quotations *Understand the legal liabilities *Look

out for and avoid the dangers of plagiarism For everyone from students to journalists to editors, the methods and practices outlined in The Fact Checker's Bible provide both a standard and a working manual for how to get the facts right.
