### **The Book of Psychic Symbols**

For many of us, feelings of deficiency are right around the corner. It doesn't take much--just hearing of someone else's accomplishments, being criticized, getting into an argument, making a mistake at work--to make us feel that we are not okay. Beginning to understand how our lives have become ensnared in this trance of unworthiness is our first step toward reconnecting with who we really are and what it means to live fully. —from Radical Acceptance “Believing that something is wrong with us is a deep and tenacious suffering,” says Tara Brach at the start of this illuminating book. This suffering emerges in crippling self-judgments and conflicts in our relationships, in addictions and perfectionism, in loneliness and overwork—all the forces that keep our lives constricted and unfulfilled. Radical

Acceptance offers a path to freedom, including the day-to-day practical guidance developed over Dr. Brach's twenty years of work with therapy clients and Buddhist students. Writing with great warmth and clarity, Tara Brach brings her teachings alive through personal stories and case histories, fresh interpretations of Buddhist tales, and guided meditations. Step by step, she leads us to trust our innate goodness, showing how we can develop the balance of clear-sightedness and compassion that is the essence of Radical Acceptance. Radical Acceptance does not mean self-indulgence or passivity. Instead it empowers genuine change: healing fear and shame and helping to build loving, authentic relationships. When we stop being at war with ourselves, we are free to live fully every precious moment of our lives.

Philanthropy in America is a giant undertaking—every year more than \$390 billion is voluntarily given by individuals, foundations, and businesses to a riot of good causes. Donation rates are two to ten times higher in the U.S. than in comparable nations, and privately funded efforts to solve social problems, enrich culture, and strengthen society are among the most significant undertakings in the United States. The Almanac of American Philanthropy was created to serve as the definitive reference on America's distinctive philanthropy. Upon its publication it immediately became the authoritative, yet highly readable, 1,342-page bible of private giving—chronicling the greatest donors in history, the most influential achievements, the essential statistics, and summaries of vital ideas about charitable action. Now there is this new Compact Edition of the Almanac. It offers highlights of the crucial information and fascinating arguments contained in the full-length Almanac, in a condensed format. All updated to 2017!

At a recent literary conference hosted by Villa Gillet and "Le Monde," organizers asked seventy-seven prominent authors from around the world to choose a word that opens the door to their work. Their crystalline musings, collected here for the first time, offer an extraordinary portrait of writing and reading from the perspective of the artist. Organized alphabetically, the anthology is a pleasurable and instructive book for writers, readers, and anyone seeking an intimate

understanding of literature. Through these personal "passwords," authors articulate the function of language, character, plot, and structure, and, in the process, reveal their relationship with the elements of story. Jonathan Lethem discusses the independent life of furniture; A. S. Byatt describes the power of the narrative web; Etgar Keret explains the importance of "balagan," a Hebrew word meaning "total chaos"; Daniel Mendelsohn expounds on the unknowable, or what the author should or should not impart to the reader; Annie Proulx clarifies "terroir," which embodies the complexities of time, place, geography, weather, and climate; and Colum McCann details the benefits of anonymity. Other participants include Rick Moody on adumbrated; Upamanyu Chatterjee on the bildungsroman; Enrique Vila-Matas on discipline; Adam Thirwell on hedonism; Nuruddin Farah on identities; Tariq Ali on laughter; Andre Brink on the heretic; Elif Shafak on the nomad; and PA(c)ter Esterhazy on the power and potential of words, words, words.

A year later, mountain lions start appearing around Maya's home, and they won't go away. Her best friend, Daniel, starts getting negative vibes from certain people and things. An elite forces officer with a dreadful reputation. A bookish paleontologist with a love for mysteries. An ancient stronghold full of secrets that will take both of them to unearthen. Professor Lilah Zirkander (yes, she's related to the famous pilot, and no, she can't get him to autograph your undergarments) is looking forward to a summer in the paleontology lab, researching and cataloging new fossils. But that summer takes an unexpected turn when the king sends her into the Ice Blades to a secret mine where ancient dragon bones have been discovered. Rumor has it that they're cursed and dangerous, but Lilah is more concerned about dealing with the outpost commander, a fierce officer with the temperament of a crabby badger. As punishment for irking the king, Colonel Vann Therrik is overseeing the hardened criminals working in the remote Magroth Crystal Mines. He would like a chance to redeem himself—and escape the loathsome duty station—but nothing is going his way. Cursed fossils have delayed production, miners are trying to escape, and now

Activate the raw power of your subconscious to create the life you've always wanted, using six essential lessons from one of the world's most renowned hypnotherapists in this "nourishing and healing book" (Michael Bernard Beckwith, author of *Spiritual Liberation*). Unsatisfying careers. Volatile, unhealthy relationships. Unfulfilled dreams. Too many of us are living lives that fall short of what we truly desire. But as celebrity hypnotist Kimberly Friedmutter explains in this life-changing book, not only is it possible to design the life of your dreams, but the power to do so already lies within you, in your subconscious mind. The subconscious is the root of your true power and desire; it's your inner child, your authentic self. It is the honest compass that will lead you to a life of happiness, so long as you are able to follow its direction. We all have the power to access it but as we grow up we're taught to stop daydreaming and to follow society's rules, which makes us disconnect from our subconscious, often with tragic results. In *Subconscious Power*, Kimberly guides you through six principles that bring your conscious mind in line with your subconscious desires. She shares practical, three-minute exercises that will help you transform your relationships, find true love, lose weight after years of struggling with the scale, overcome addictions, and achieve new career successes and heights. Featuring inspiring success stories and the practical tools you need to make meaningful change, *Subconscious Power* gives "you a pathway to achieve your goals and dreams in an effective and easily understandable manner. This book will improve your life in ways you never thought of" (David Zelon, producer of *Soul Surfer*).

## Ascension Point

A shaman can serve as a healer, storyteller, and a keeper of wisdom—but most of all, teaches Sandra Ingerman, “Shamans radiate a light that uplifts everybody. In our culture, we tend to focus on methods and forget that the greatest way we can offer healing to the world is to become a vessel of love.” With *Walking in Light*, this renowned teacher offers a complete guide for living in a shamanic way—empowered by purpose, focus, and a deep connection to the spiritual dimensions. “Shamanism remains so relevant because it continues to evolve to meet the needs of the times and culture,” teaches Sandra. Here you are invited to participate in the modern evolution of this ancient and powerful form of spirituality, featuring:

- Foundational practices—lucid instruction on the shamanic journey, ceremonies, and other techniques for accessing the hidden realms of spirit
- Compassionate spirits, allies, and ancestors—how to contact and build a relationship with your power animals and spiritual helpers
- Healing from a shamanic perspective—practices that can integrate with and enhance any healing modality
- Guidance for deepening your connection with the environment and the rhythms of the natural world
- Ways to cultivate a rich inner landscape that empowers your intentions and actions in every aspect of your life, and much more

*Walking in Light* is a comprehensive resource filled with practical techniques, indigenous wisdom, and invaluable guidance for both new and experienced shamanic practitioners. Most importantly, Sandra Ingerman illuminates the

meaning behind the practices—revealing our universe as a place where spirit is the ultimate reality, where our intentions shape our world, and where unseen allies support us on every step of our journey.

### **It's Not Love, It's Just Paris**

Patricia Engel's collection of stories, *Vida*, quickly established her as one of our country's best young writers, winning praise from Junot Díaz, Uzodinma Iweala, Francisco Goldman, and others. Her first novel is a vibrant and wistful narrative about an American girl abroad in Paris, who navigates the intoxicating and treacherous complexities of independence, friendship, and romance. Lita del Cielo, the daughter of two Colombian orphans who arrived in America with nothing and made a fortune with their Latin food empire, has been granted one year to pursue her studies in Paris before returning to work in the family business. She moves into a gently crumbling Left Bank mansion known as "The House of Stars," where a spirited but bedridden Countess Séraphine rents out rooms to young women visiting Paris to work, study, and, unofficially, to find love. Cautious and guarded, Lita keeps a cool distance from the other girls, who seem at once boldly adult and impulsively naïve, who both intimidate and fascinate her. Then Lita meets Cato, and the contours of her world shift. Charming, enigmatic, and weak with illness, Cato is the son of a notorious right-wing politician. As Cato and Lita retreat to their

own world, they soon find it difficult to keep the outside world from closing in on theirs. Ultimately Lita must decide whether to stay in France with Cato or return home to fulfill her immigrant family's dreams for her future. It's Not Love, It's Just Paris is a spellbinding love story, a portrait of a Paris caught between old world grandeur and the international greenblood elite, and an exploration of one woman's journey to distinguish honesty from artifice and lay claim to her own life.

Every day, billions of photographs, news stories, songs, X-rays, TV shows, phone calls, and emails are being scattered around the world as sequences of zeroes and ones: bits. We can't escape this explosion of digital information and few of us want to-the benefits are too seductive. The technology has enabled unprecedented innovation, collaboration, entertainment, and democratic participation. But the same engineering marvels are shattering centuries-old assumptions about privacy, identity, free expression, and personal control as more and more details of our lives are captured as digital data. Can you control who sees all that personal information about you? Can email be truly confidential, when nothing seems to be private? Shouldn't the Internet be censored the way radio and TV are? is it really a federal crime to download music? When you use Google or Yahoo! to search for something, how do they decide which sites to show you? Do you still have free speech in the digital world? Do you have a voice in shaping government or corporate policies about any of this? Blown to Bits offers provocative answers to these questions and tells intriguing real-life stories. This book is a wake-up call To The human consequences of the digital explosion.
