“THE MOST NOTABLE PERSONAL FINANCE WRITING OF 2013 . . . WAS A HANDWRITTEN 4 × 6 INDEX CARD.” —MINNEAPOLIS STAR TRIBUNE TV analysts and money managers would have you believe your finances are enormously complicated, and if you don’t follow their guidance, you’ll end up in the poorhouse. They’re wrong. When University of Chicago professor Harold Pollack interviewed Helaine Olen, an award-winning financial journalist and the author of the bestselling *Pound Foolish*, he made an offhand suggestion: everything you need to know about managing your money could fit on an index card. To prove his point, he grabbed a 4" x 6" card, scribbled down a list of rules, and posted a picture of the card online. The post went viral. Now, Pollack teams up with Olen to explain

why the ten simple rules of the index card outperform more complicated financial strategies. Inside is an easy-to-follow action plan that works in good times and bad, giving you the tools, knowledge, and confidence to seize control of your financial life.

author, actor and commentator A handy crash course in personal finance, Napkin Finance is the groundbreaking guide everyone needs to help them manage their money and feel more secure. Surveys have found that two thirds of Americans can't pass a basic financial literacy test, and nine in ten believe personal finance should become a required high school course. Tina Hay understands the confusion. While attending Harvard Business School, she struggled to keep up with classmates—many of whom came from the banking world—when it came to understanding jargon and numbers-heavy concepts. Tina developed a visual learning strategy using sketches and infographics that helped her succeed in her studies and master even the most complex financial topics. Since then, Tina founded Napkin Finance, a thriving company built on the concept of taking seemingly overwhelming topics—such as budgeting, investments, and retirement accounts—and turning them into simple, skimmable explanations. Now, she's synthesized the most important content into this personal finance handbook. Napkin Finance includes dozens of individual learning modules, on topics ranging from credit scores to paying off student loans to economics and blockchain. The first illustrated guide that makes finance fun and accessible, Napkin Finance can help even the most numbers-phobic reader learn about complex financial topics without dying of boredom.
