Prim and proper art gallery coordinator Elle Walser is no good at seducing men. Heck, she's been throwing hints at her boss for months, but he's completely clueless. Desperate to escape her mother's matchmaking efforts, she comes up with a plan—buy some lingerie and climb into her boss's bed. The plan goes brilliantly until she accidentally seduces a sexy stranger instead. Bad boy nightclub mogul Gabe Schultz just had the best almost-sex of his life. Too bad the smoking hot blonde thought he was his brother and bolted before he could finish what they started. Though her holier-than-thou attitude puts a serious damper on his mood, Gabe's never been one to give up on something he wants. And he wants Elle. Now he just needs her to convince her to give him a chance

Based on 10 years of dedicated research, Dangerous Illusions is a battle cry for the human race to throw off religion in favour of logic and reason. In this committed and passionate book, author Vitaly Malkin - a philanthropist, business man and investor - argues for a radical shift in humanity's thinking about religion; that reason and religion cannot co-exist, and that mankind will only be truly happy if we are able to shake off the illusions of religion in order to live a life more rooted in the present. Dangerous Illusions sets out to explore the irrational demands that religion makes of man and asks the reader to question what benefit these acts offer human beings in this life. Malkin scrutinises topics such as suffering and evil, pleasure and asceticism, sex and celibacy, and circumcision and excision, through the lens of the three major world monotheistic religions - Christianity, Islam and Judaism. In doing so, the book fearlessly refutes our most careless beliefs, encouraging us to be more aware of the dangers religions pose to our society and, even to change our intellectual practices altogether.

Keep your body in tip-top shape with the one diet that all doctors love—and with the speed and convenience of pressure-cooking! The DASH Diet, developed at the National Institutes of Health in the US, is a low-salt, low-sugar, low-fat diet that is good for everyone—but especially for people with heart disease, hypertension, diabetes, or excessive weight. That's a lot of us! Remarkably, nearly one-half of the population has one or more of those health issues. For those who luckily do not, the DASH diet is a terrific way to keep your body in optimum health and to ward off problems down the road. The DASH diet is the diet most often recommended by cardiologists. Until now, there has been no cookbook for tasty and fast DASH meals in the Instant Pot or other electric pressure cooker (or "multi-cooker"). In *Dinner in a DASH*, veteran healthy-cookbook author Nancy S. Hughes delivers 75 recipes that get you from here to a nutritious and delectable dinner in a flash. You'll get all the minerals and proteins you need without an excess of saturated fats, salt, or sugar. These are delicious meals that don't compromise on flavor. From a homey and comforting Marinara Chicken with Parmesan to an adventuresome plate of Shrimp-Stuffed Poblano Peppers, and from an elegant Salmon on Spinach with Tarragon Mustard Sauce to a casual and carefree Flank Steak with Mushrooms, you'll do your body a world of good while enjoying every minute. Each of the recipes comes with complete nutritional data, and the book opens with a wealth of tips and tricks for mastering the Instant Pot and other electric pressure cookers. For fast and easy dinners full of flavor and nutrients, this is an indispensable book.

To ace a job interview, you need to give the right answers—and ask the right questions. *101 Smart Questions to Ask on Your Interview* is for every job candidate who thinks “Do you have any questions for me?” marks the end of an interview. In Ron Fry’s view, it marks the beginning of the last, and perhaps most important, interview phase, one that’s so important that failing to properly prepare for it can undo all your hard work, including providing great answers to tough questions. It’s your moment to shine—to show off the depth and breadth of your research, to remind the interviewer of how perfectly your credentials fit the job description, and to actually ask for the job! Fry shows you how to take charge of the interview process, presenting yourself as the self-managing, versatile, and confident candidate most employers are seeking. He demonstrates how to use the interview process to sell the company on you while obtaining the information necessary to make sure you are sold on them. From what to ask, when to ask it, and the kinds of answers to expect, *101 Smart Questions to Ask on Your Interview* gives all candidates, from first-timers to seasoned pros, the practical information and advice they need to ace entire interviews . . . and get their dream jobs.

In this study Thomas Peattie offers a new account of Mahler's symphonies by considering the composer's reinvention of the genre in light of his career as a conductor and more broadly in terms of his sustained engagement with the musical, theatrical, and aesthetic traditions of the Austrian fin de siècle. Drawing on the ideas of landscape, mobility, and theatricality, Peattie creates a richly interdisciplinary framework that reveals the uniqueness of Mahler's symphonic idiom and its radical attitude toward the presentation and ordering of musical events. The book goes on to identify a fundamental tension between the music's episodic nature and its often-noted narrative impulse and suggests that Mahler's symphonic dramaturgy can be understood as a form of abstract theatre.

"Aleksei Gan's "Constructivism" was the first theoretical treatise of post-revolutionary Russia's emergent Constructivist movement. Published in 1922, this iconoclastic blast of revolutionary zeal was a declaration of war on traditional Bourgeois art. By defining its three core principles: tectonics, faktura & construction, Gan recasts artist and architect as Constructors, no longer fretting about aesthetic or speculative problems in art but focusing instead on the fusion of art with everyday life to create a system of design where "everything will be conceived in a technical and functional way" - a fitting contribution to the great task of building the new communist society Gan, the "Mass Constructor", was a key figure among Russia's post-revolutionary avant-garde, working across theatre, architecture, graphics and cinema. Agitator, publisher, activist and promoter, he was a close friend of Rodchenko and Stepanova and was the foremost theoretician of Moscow's Working Group of Constructivists"--Page [4] of cover.

Discover the man behind the myth: “The only Washington biography you need...Crisply written, admirably concise, and never superficial.”—TheWall Street Journal As editor of the award-winning Library of America collection of George Washington’s writings and a curator of the great man’s original papers, John Rhodehamel has established himself as an authority of our nation’s preeminent founding father and first president. In this book, Rhodehamel examines George Washington as a public figure, arguing that the man—who first achieved fame in his early twenties—is inextricably bound to his mythic status. Solidly grounded in Washington’s papers and exemplary in its brevity, this approachable biography is a superb introduction to the leader whose name has become synonymous with America. “A highly entertaining book...The powdered wig, the silly pants, the poker face staring out from crumpled dollar bills: All serve to separate us from our founding father. Rhodehamel’s urgency of prose restores the connection. He also showcases his experience as the former archivist of Mount Vernon by bringing manuscript sources directly to the reader.”—TheNew York Times Book Review
