Br> A Man's Grasp Should Exceed His Reach : A Biography of Sociologist Austin Larimore Porterfield by Cain, Leonard D. Terms of use Acknowledging the dangers of writing a biography of a beloved mentor, Cain (emeritus sociology and urban studies, Portland State U. Oregon) strives to report and interpret Porterfield's (1896-1979) accomplishments and his presentation of himself in sharing those accomplishments with his students. He emphasizes Porterfield's roles as founder and first editor of Journal of Health and Social Behavior, as a recruiter of graduate students, and as a pioneer in several fields of sociology. The Optical Journal

Criminology

Comprising fourteen articles by leading international contributors, including some of the most prominent socio-legal and criminological scholars working in the field, this volume is currently the only work available that critically examines W.G. Carson and his crucial influence in the turn towards sociological approaches to criminology and a criminological interest in governance and social control. The 1970s witnessed an epiphany in the sociological understanding of crime in Britain. The correctional perspective, which assumed crimes had inherent or essential qualities that distinguished them from other acts, was superseded by the analysis of how social events came to be defined as so harmful and repugnant as to require criminalization. This shift in perspectives was exemplified in W.G. Carson's work, which combines a Marxist acknowledgement of the imperative for profit with a symbolic interactionist attention to the restraining effect of prestige and status among producers and regulators. This key work is an essential read for postgraduates and researchers studying and researching in the areas of criminology and law.

Papers in Penology

Taking into account both traditional and emerging modes, this comprehensive new Handbook covers all major methodological and statistical issues in designing and analyzing surveys. With contributions from the world's leading survey methodologists and statisticians, this invaluable new resource provides guidance on collecting survey data and creating meaningful results. Featuring examples from a variety of countries, the book reviews such things as how to deal with sample designs, write survey questions, and collect data on the Internet. A thorough review of the procedures associated with multiple modes of collecting sample survey information and applying that combination of methods that fit the situation best is included. The International Handbook of Survey Methodology opens with the foundations of survey design, ranging from sources of error, to ethical issues. This is followed by a section on design that reviews sampling challenges and tips on writing and testing questions for multiple methods. Part three focuses on data collection, from face-to-face interviews, to Internet and interactive voice response, to special challenges involved in mixing these modes within one survey. Analyzing data from both simple and complex surveys is then

explored, as well as procedures for adjusting data. The book concludes with a discussion of maintaining quality. Intended for advanced students and researchers in the behavioral, social, and health sciences, this "must have" resource will appeal to those interested in conducting or using survey data from anywhere in the world, especially those interested in comparing results across countries. The book also serves as a state-of-the-art text for graduate level courses and seminars on survey methodology. A companion website contains additional readings and examples.

Criminology & Penology Abstracts

The focus here is on the production of high quality written work and the essential skills for good writing: understanding assignments, planning essays and clear thinking, grammar and punctuation, appreciation of written style, tackling exam questions. This and the first volume (on orienting oneself as a student; verbal communication; and listening, reading, and note-taking) offer practical help for adults returning to school. Christian Work

Established in 1895 as the first U.S. scholarly journal in its field, AJS remains a leading voice for analysis and research in the social sciences, presenting work on the theory, methods, practice, and history of sociology. AJS also seeks the application of perspectives from other social sciences and publishes papers by psychologists, anthropologists, statisticians, economists, educators, historians, and political scientists.

Public Welfare in Indiana

Criminology Skills covers both criminological study skills and research skills in one volume, giving you the skills you need to succeed in the study of criminology. A three-part structure covers finding source materials, academic skills, study skills, and research methodology, guiding you through a range of skills and methods which you will need to practise and demonstrate in your degree. Topics covered include finding and evaluating criminological resources, referencing and avoiding plagiarism, preparing for exams, planning a research project, data analysis and much more. Criminology Skills first helps you to establish a strong and comprehensive skills foundation before building to a more advanced level, increasing your competence and confidence with which to approach projects. The text is accompanied by an innovative and dynamic Online Resource Centre which includes practical exercises, animated walk-throughs showing how to use online databases, and activities to help test your understanding of ethical considerations and of the differences between quantitative and qualitative research methods.
