### **The United States Catalog; Books in Print January 1, 1912**

This book, through personal stories written every day for a full year, captures the memories of the author's second grandchild as she experiences life in her formative years. Side by side with his granddaughter's personal journey of learning the lessons of life, the author shares his own experiences of relearning these lessons including nostalgic reflections on his

youth. The book tells a personal story of growing love between a granddaughter and her papa.

**The Stationer's Hand-Book; and Guide to the Paper Trade. By a Stationer**

This book is a "MUST READ" for those who are planning to build a horse barn/farm, those who are just dreaming of some day building one, those on a limited budget, those on a limitless budget (because you will still have to give direction to your planners and architects to make sure you wind up with a functional barn/farm, and the one you wanted), those looking to buy an existing farm, those of you boarding, and anyone who rides or is thinking about riding (because the horse's housing and care will contribute to the horse's overall temperament and ability to perform). The author offers hard facts and information from her real life experience building and operating her own horse farm and her more than twenty years of horse ownership and hunter/jumper show competition. Anecdotal stories and "lessons" (epiphanies) are included to emphasize points to help readers avoid making mistakes in their own barn/farm construction projects.
