Things That Matter

Ryan Laughlin and his wife, Deborah, have plans to move to a new city, find new jobs, and expand their family. But days before their move, a tragic mystery rips their plans and lives apart. As Ryan wakes one morning and finds that Deborah has inexplicably become a zombie, his life is thrown into a storm of loss and pain, a storm that continually haunts him with one question-if Deborah never came into contact with one of the undead, how did she ever become infected? This is the tale of Ryan's desperate search for the truth, and of his bloody battle to survive against insurmountable odds.

How to Build, Modify & Power Tune Cylinder Heads

These volumes contain the most important works of the great English jurist-politician who set out to codify English common law. In his Reports and his Institutes, Coke set down a view of English law that has had a powerful influence on lawyers, judges, and politicians through the present day.

The Trotula

Modern Control Systems, 12e, is ideal for an introductory undergraduate course in control systems for engineering students. Written to be equally useful for all

engineering disciplines, this text is organized around the concept of control systems theory as it has been developed in the frequency and time domains. It provides coverage of classical control, employing root locus design, frequency and response design using Bode and Nyquist plots. It also covers modern control methods based on state variable models including pole placement design techniques with full-state feedback controllers and full-state observers. Many examples throughout give students ample opportunity to apply the theory to the design and analysis of control systems. Incorporates computer-aided design and analysis using MATLAB and LabVIEW MathScript.

Big Data

2013 GOLD MEDAL WINNER: Reader's Favorite International Book Award for Christian Romance. The Missing Piece by international bestselling author Carol McCormick. "Fresh dialogue, realistic characters, a powerful message. McCormick does a great job creating her characters and portraying the struggles they endure," The Romance Readers Connection How does a man pick up the pieces when his world crashes around him? Misplaced priorities shattered his marriage. Problems almost crushed him. Love motivated him to mend the damage, once he found all the pieces. After only a few months of marriage, Lorraine left Dylan on a wintry night after he'd spent one too many nights out with the guys. Unable to cope with the loss, Dylan escapes the painful feelings by drinking them away. This decision costs him a year-and-a-half of his life after he stops in a little mountain town and ends up in the local jail. When he's released, he returns home in search of a job to get his life and his wife back. The Missing Piece is not only a love story about a man who loves a woman, but is also a love story about a merciful God who loves mankind, even when he falls. The novel is an emotionally-charged journey of hope and redemption with a touch of spunk, a hint of humor, and a few twists along the way.

The Selected Writings and Speeches of Sir Edward Coke

When Empire appeared in 2000, it defined the political and economic challenges of the era of globalization and, thrillingly, found in them possibilities for new and more democratic forms of social organization. Now, with Commonwealth, Michael Hardt and Antonio Negri conclude the trilogy begun with Empire and continued in Multitude, proposing an ethics of freedom for living in our common world and articulating a possible constitution for our common wealth.

Dr. Breeding

Trieste Publishing has a massive catalogue of classic book titles. Our aim is to provide readers with the highest quality reproductions of fiction and non-fiction literature that has stood the test of time. The many thousands of books in our collection have been sourced from libraries and private collections around the world. The titles that Trieste Publishing has chosen to be part of the collection have been scanned to simulate the original. Our readers see the books the same way that their first readers did decades or a hundred or more years ago. Books from that period are often spoiled by imperfections that did not exist in the original.

Imperfections could be in the form of blurred text, photographs, or missing pages. It is highly unlikely that this would occur with one of our books. Our extensive quality control ensures that the readers of Trieste Publishing's books will be delighted with their purchase. Our staff has thoroughly reviewed every page of all the books in the collection, repairing, or if necessary, rejecting titles that are not of the highest quality. This process ensures that the reader of one of Trieste Publishing's titles receives a volume that faithfully reproduces the original, and to the maximum degree possible, gives them the experience of owning the original work. We pride ourselves on not only creating a pathway to an extensive reservoir of books of the finest quality, but also providing value to every one of our readers. Generally, Trieste books are purchased singly - on demand, however they may also be purchased in bulk. Readers interested in bulk purchases are invited to contact us directly to enquire about our tailored bulk rates.

A Text-book of diseases of women

After Zurich (1995), Lisbon (1998), Orlando (2002), Taipei (2005) and Paris (2008), the International Conference on Weigh-In-Motion (ICWIM6) returns to North America to join with the North American Travel Monitoring Exhibition and Conference (NATMEC 2012). International WIM conferences are organized by the International Society for Weigh-In-Motion (ISWIM). The conference addresses the broad range of technical issues related to weighing sensors and systems, weight data management and quality assurance, enforcement, road operation and infrastructure related issues. It provides access to current research and best practices, in an international forum for WIM technology, standards, research, policy and applications. Heavy vehicle mass monitoring, assessment and enforcement are key actions to ensure road safety and fair competition in freight transport, facilitating the inter-modality, and to design and maintain reliable and durable road infrastructures, with a better compliance of weights and dimensions. WIM is becoming part of a global ITS for heavy traffic management, contributing to reduce the environmental impact of freight transport and to a better use of the existing road networks.

The Freedom of the Seas, Or, The Right which Belongs to the Dutch to Take Part in the East Indian Trade

Part of Your World

This study of the curriculum for girls from the beginning of this century brings a fresh perspective to New Zealand educational history. Following the early triumphs of gaining the vote (and the right to qualify for university degrees), progress in women's education was not always straightforward. Social attitudes and provisions for girls at state schools in the first quarter-century established patterns for later generations to inherit and modify. In some areas, such as science and mathematics, inequalities for Maori girls lingered. Using a wide range of resources, Ruth Fry traces the origin and development of the curriculum for girls to 1975, International Women's year. Those who, in 1893, achieved success in their campaign for equal voting rights were also concerned about educational

opportunities for women. NZCER is very pleased to reissue It's different for daughters to celebrate the Centenary of Women's Suffrage in New Zealand.

A New Monetary System and Why You Need It

It is said that the winner writes the history, but it's also true that the loser is free to use fiction to present the case for the defeated. John William Corrington, a noted Southern writer, published *And Wait for the Night*, his first novel, in 1964, near the one hundredth anniversary of the end of the American Civil War. As the novel begins, he describes the fall of Vicksburg, Mississippi to show the agony of the defeat of the Army of the Confederate States by the overwhelming might of the Federal Army. But *And Wait for the Night* is not primarily about the war. It is about Reconstruction, the twelve-year occupation of the Confederate States that followed their defeat. Corrington's dramatic example of this is the occupation of Shreveport, Louisiana, by the arrogant uniformed Yankee conquerors, both white and black, and their plundering civilian companions, the carpetbaggers. During the Civil War, one out of every five Southern families lost a husband, father or son. Under Reconstruction, the surviving Southerners found their Confederate money worthless, their land taken for unpaid taxes, and their civil government replaced by military fiat. And there was one further loss: the communal agreement that a Southerner should live his life with honor. Without any hope of redress by day, the survivors forgot their honor and responded by forming secret societies that waited for the night to take vengeance against their oppressors. Major Edward Malcolm Sentell, a paroled CSA officer, tires to maintain his honor but finds himself despised by his fellow Southerners and helpless to stop the looming conflict between them and the occupying Federal forces.

The Missing Piece

C Programming Success in a Day!

There is one direct link between Alfa Romeo and Ferrari, its name is Enzo Anselmo Ferrari. Born on the 18th of February 1898, he joined Alfa Romeo in the early 1920s to become one of their many race drivers. In the beginning he participated in local events, but thanks to his positive results; later also competed in more prestigious races. Nevertheless, his real talent had been the management. Thanks to this, he founded in '29 the Scuderia Ferrari, which became the official Alfa Romeo racing team. Until 1932 Enzo continued as race driver and after this, he concentrated on being the team manager. In '37 Alfa Romeo reduced his position to sports director, what means practically that his possibility to take decisions had been drastically limited. For Enzo this was not tolerable and as consequence he left the company in '39. Apart from this, the ways of both manufactures still crossed many times, as key employees changed from one company to the other or as both used the same coach-builders to design their fast and elegant creations. Even technology transfer happened up to today. *Alfa Romeo, Ferrari, Art & History* is not just another publication, but tells the history of these two iconic Italian car manufactures, from one of their first creations in 1911 until today. The author uses official die-cast model cars. You will not only find texts and boxes of technical

specifications, but images celebrating the unique design of the vehicles, which reflect their engineers' visions and eras. More than ordinary automobiles, even more than sports cars; both, Alfa Romeo and Ferrari produced design objects for the global pop culture, sometimes reflecting the actual zeitgeist, other times being ahead of it and sometimes even creating the fashion. As each of the more than 370 presented cars is unique, they all have their own story. This is not limited to Alfa Romeo and Ferrari, but also relates to other companies as Fiat, Lancia, Lamborghini, General Motors and Ford. Famous design studios included Pininfarina, Zagato and Bertone. To have a complete picture, besides presenting production cars, the book also includes the racing machines and rare show cars.

Alfa Romeo, Ferrari, Art & History

Now in its Fourth Edition, the Supply Chain and Transportation Dictionary maintains its position as the most comprehensive dictionary in the field. A one-of-a-kind reference, the dictionary remains unmatched in the breadth and scope of its coverage and is the primary reference for professionals working in the areas of supply chain management, transportation, distribution, logistics, material, and purchasing. The Fourth Edition features over 5,000 entries and is noted for its clear, precise, and accurate definitions.

Storming Heaven

Welcome to the world of Fat Colin; a world that consists of all the important things in life such as hating one's mother, desiring the unattainable, diets, and nose pore strips. It seemed uncomplicated, if superficial. Time for a change. He decides to take immediate action regarding his weight and the state of his nonexistent love life. His best mate, the ever cheery and optimistic Fat Tash, has been begging him to do one of those 10k runs. How hard can it be? It's only running. In their naivety, they invited everyone and their granny to watch them cross over the finish line, so failure is not an option. Unfortunately, it seems imminent. In the lead up to the 10k run, life goes on. Fat Tash meets "The One", but Fat Colin can't get over the fact that her new beau is 23 years her senior and sports a moustache. He can't voice his opinion on the matter because she'll respond with her usual raised eyebrows and say something like, "There's a nasty little bitch standing in front of me and I think she goes by the name of Jealousy". He has no cause to be jealous because his own love life has started to take shape. He's admired Mark from afar and a Valentine's Day hoax sees their worlds meet when his affections are returned. He feels ruffled. Why does Mark like him? Mark is gorgeous. Fat Colin is not. What does he want with him? And then there's handsome and mysterious next door neighbour Tom who may or may not have feelings for Fat Colin. Now he will embark on an emotional journey - sometimes touching, often humiliating, and always complicated - that shows the modern day knight has ditched the horse and armour in favour of a Fiat Punto and fake tan, and that life's bendy road is littered with unavoidable potholes. Oh, and don't even get him started on his work colleagues; the eccentric Janet's dissent into madness, Jobbie Bobbie violating the air with her flatulence, gossip-vulture Grace who is trying for a baby and enjoys nothing more than furnishing Fat Colin with all the smutty details, and new recruit Julien who seems determined to sleep with everyone in the office. In a life that is made up of the people around you, your diary can become your very own personal

soap opera. Just ask Fat Colin.

The History of Money for Understanding Economics

Information on routine servicing and repair for the DIY mechanic, with tasks described and photographed in a step-by-step sequence.

Fiat Uno Service and Repair Manual

Storming Heaven is the only book which looks at Italian workerist theory and practice, from its origins in the anti-Stalinist left of the 1950s to its heyday twenty years later. It focuses on the theme of workerism, or 'operaismo', which includes the refusal of work, class self-organisation, mass illegality and the extension of revolutionary agency, of which are still practiced today by workers across the world. Emphasising the dynamic nature of class struggle as the distinguishing feature of workerist thought, Storming Heaven reveals how this form of radical politics developed alongside emerging social movements to great effect. It assesses the strengths and limitations of workerism as first developed by Antonio Negri, Mario Tronti, Sergio Bologna and others. This edition includes a new chapter looking at the debates around operaismo and Autonomia since the book originally appeared in 2002, and is updated with a new foreword and afterword.

It's Different for Daughters

Unable to conceive, Julia and Gavin Jones head to Hope Infertility Clinic. The couple is put through a series of embarrassing exams, testing the limit of their libidos. After receiving the results, Mr. Jones is outraged at the fault being his. Having once suffered a fate of infertility himself, Dr. Raymond Breeding has dedicated his life to the world of conception. If anyone can cure the couples' ailment, it's him. However, the closer he examines the female patient, the heavier his heart grows. Removing Gavin from the equation, he decides to cure her with an injection of his own. Warning: This 14,000 word story contains graphic language, erotic situations, medical exam, doctor/patient play, medical instruments, breeding, light bondage, oral sex, straight sex, bareback sex, anal sex, voyeurism, domination, submission, humiliation and is a story for adults (18+)

Philosophy manual: a South-South perspective

Male Roles, Masculinities and Violence

What if Ariel had never defeated Ursula? It's been five years since the infamous

sea witch defeated the little mermaid and took King Triton's life in the process. Ariel is now the voiceless queen of Atlantica, while Ursula runs Prince Eric's kingdom on land. But when Ariel discovers that her father might still be alive, she finds herself returning to a world--and a prince--she never imagined she would see again.

Crowded Yet Desolate

Ecosystems and Human Well-Being

This book is based on an expert group meeting entitled 'Male Roles and Masculinities in the Perspective of a Culture of Peace', which was organised by UNESCO in Oslo, Norway in 1997, the first international discussion of the connections between men and masculinity and peace and war. The group consisted of researchers, activists, policy makers and administrators and the aim of the meeting was to formulate practical suggestions for change. Chapters in the book consist of both regional case studies and social science research on the connections of traditional masculinity and patriarchy to violence and peace building. The Culture of Peace initiatives in this book show how violence is ineffective, and the book contests the views in the socialisation of boy-children that aggressiveness, violence and force are an acceptable means of expression.

And Wait for the Night

In deciding which models to choose for inclusion in this book selected from Fiat's huge inventory, the author concentrated on three criteria - greatness, size and emotion. Where size is an easy parameter to qualify, greatness is more complicated because it is a combination of both the manufacturer's and the public's opinion. A car that is highly regarded by the public may not have been a commercial success and vice versa. A truly great car is one that works well for both parties. Emotion may be considered to be an element of greatness in that the public's 'love' for a car is a fantastic benefit for a manufacturer and must be treasured. Fiat have made the mistake of 'improving' an icon on several occasions only to find that public opinion went against them. Fortunately Fiat has been magnanimous enough to respond by giving the car buying public more of what it wants. As long as they continue to do so then Fiat's reputation as the world's greatest small car manufacturer is set to continue. The author chose the Topolino as the starting point as the car fulfils all the criteria and it was the first Fiat built in the late 1930s to satisfy the Italian public's new-found desire for mobilisation. The old conventions of car production were turned upside down with the arrival of the 600 which revolutionised car production techniques and maximised on passenger space and performance at minimal cost. These principals continued via a succession of models which include the 500, 850, 126, 127 through to more recent models like the Cinquecento and Seicento. Running in parallel with these 'cheeky' Fiats, this book covers a range of slightly larger cars that were built in huge numbers. Though rather staid in appearance, the 1950s Millecento was family transport for millions of Italians covering three decades, four when the Indian-built cars are included. Similarly the 128, Panda and Uno were 'the' Italian small cars of

the '70s, '80s and '90s. Nuova Panda carries the banner to the present day.

Fiat 500 Owner's Workshop Manual

Hatchback & Saloon, inc. Turbo & special/limited editions. Petrol: 2.0 litre (1985cc) & 2.3 litre (2290cc) 4-cyl. Does NOT cover V6.

LCS® Mobile Bearing Knee Arthroplasty

The Trotula was the most influential compendium on women's medicine in medieval Europe. Scholarly debate has long focused on the traditional attribution of the work to the mysterious Trotula, said to have been the first female professor of medicine in eleventh- or twelfth-century Salerno, just south of Naples, then the leading center of medical learning in Europe. Yet as Monica H. Green reveals in her introduction to this first edition of the Latin text since the sixteenth century, and the first English translation of the book ever based upon a medieval form of the text, the Trotula is not a single treatise but an ensemble of three independent works, each by a different author. To varying degrees, these three works reflect the synthesis of indigenous practices of southern Italians with the new theories, practices, and medicinal substances coming out of the Arabic world. Arguing that these texts can be understood only within the intellectual and social context that produced them, Green analyzes them against the background of historical gynecological literature as well as current knowledge about women's lives in twelfth-century southern Italy. She examines the history and composition of the three works and introduces the reader to the medical culture of medieval Salerno from which they emerged. Among her findings is that the second of the three texts, "On the Treatments for Women," does derive from the work of a Salernitan woman healer named Trota. However, the other two texts—"On the Conditions of Women" and "On Women's Cosmetics"—are probably of male authorship, a fact indicating the complex gender relations surrounding the production and use of knowledge about the female body. Through an exhaustive study of the extant manuscripts of the Trotula, Green presents a critical edition of the so-called standardized Trotula ensemble, a composite form of the texts that was produced in the mid-thirteenth century and circulated widely in learned circles. The facing-page complete English translation makes the work accessible to a broad audience of readers interested in medieval history, women's studies, and premodern systems of medical thought and practice.

The Wealth of Networks

The Orbis Pictus of John Amos Comenius

Describes how patterns of information, knowledge, and cultural production are changing. The author shows that the way information and knowledge are made available can either limit or enlarge the ways people create and express themselves. He describes the range of legal and policy choices that confront.

A Treatise on Political Economy

Are you aware that C Programming is one of the most popular and most commonly used programming languages today? Did you know many expert developers have started with learning C in order to become knowledgeable in computer programming? Were you aware that grade schools and high schools have begun implementing C Programming in their curriculum's? Are you wanting a simple way to understand a step by step action to learning C Programming? While skipping all the technical jargon so many learners fear in programming? If you are having doubts learning the language, do not! C is actually easy to learn. Compared to C++, C is much simpler! You do not need to spend years to become a master of this language.

ICWIM6

Was 2008 just a foreshock and something more terrible is awaiting us? What will happen to your job, savings, pension, and the future of your children? Are any investments safe? In this book you will find out why fiat money is a dishonest type of money and why economic theories fail us. How the US government, banks and smart people make money out of thin air. Money bubbles, the flaw in the gold standard. Deeper underlying problems with economic theories will be revealed. Understanding will give you an important edge to protect yourself, your family from the consequences of the coming crisis. But, to get real protection we need a new monetary system that is safe and beneficial for everyone, and for this we need to get politicians into power who think and act differently; today an engineering attitude is essential, simply because people with an engineering attitude know how to make things work. Stakes are high. Time is running out. This book is easy to read. Can you afford not to read it?

The Reform of Education

Worldwide experience with the Lcs• mobile bearing total knee prosthesis has been unparalleled both in terms of enduring popularity and outstanding long-term clinical results. Buechel and Pappas's design was based on the principles of; restoring anatomical joint function to as near normal as possible, minimising contact stresses to avoid wear and darn age to the bearing surfaces. and finally the idea that constraint should reflect the need for mobility, to avoid shear stresses and loosening of the implant. In 1977, the LCS® knee was implanted by Dr. Frederick Buechel. This was the first mobile bearing, tri-compartmental knee implant. This was also the first to successfully address the key issues of loosening, wear and patello-femoral problems associated with earlier designs. The unique design solution was the creation of a common articulating geometry for the tibia and patella on the distal femoral surface. This resulted in a tibial and patellar articulation that was mobile in nature, but with an identical radius of curvature and conformity. The mobile bearing concept was considered sufficiently novel and unproven that the US FDA (Food & Drug Administration) required that it be validated in an Investigational Device Evaluation (IDE). An FDA IDE study involving 25 US surgeons was initiated in 1981. Validation of the clinical success of the device in this study resulted in FDA approval of the LCS, Knee (for cemented, tri-compartmental use) in 1985.

Kill Jesus

Modern Control Systems

Scenarios are an invaluable tool for analyzing complex systems and understanding possible outcomes. This second volume of the MA series explores the implications of four different approaches for managing ecosystem services in the face of growing human demand for them: The Global Orchestration approach, in which we emphasize equity, economic growth, and public goods, reacting to ecosystem problems when they reach critical stages. Order from Strength, which emphasizes security and economic growth. Adapting Mosaic, which emphasizes proactive management of ecosystems, local adaptation, and flexible governance. TechnoGarden, a globalized approach with an emphasis on green technology and a proactive approach to managing ecosystems. The Scenarios volume will help decision-makers and managers identify development paths that better maintain the resilience of ecosystems, and can reduce the risk of damage to human well-being and the environment.

Cheap Gold and Silver

The Last Parachute

Which of these do you want?- to have extra money to pay your bills?- to find spectacular gifts for your loved ones at ridiculously low prices?- to have lots of beautiful head turning jewelry to wear?- to invest in precious metals for less than the current spot price?- to have extra money to take that vacation you've been dreaming of?- to protect yourself or your family's finances in the event of a serious crisis?- to know more about buying and selling precious metals? So you aren't ripped off.- to know how you are missing deals on precious metals in plain sight?- to make your own decisions and be your own boss?If you have a want or need associated with any of the above questions, then this book might be your answer. Imagine your excitement, when you notice a beautiful thick gold colored necklace lying on a table at an estate sale. You quickly pick it up. It's heavy and looks like gold. However, the only mark on it doesn't indicate gold, so you put it down. Luckily you read this book and remember the lesson on marks, and quickly pick it up again. Jackpot! You bought an 18 K gold necklace for \$2; it's worth \$246 for the gold content value. That's a \$244 profit/savings in less than 5 minutes. Would this put a big smile on your face? This is one of my true stories; check out picture 53 to see it. Make money, save money and invest in precious metals:Is it possible to make money finding gold and silver in your spare time? The answer is yes. If I sold all the items I purchased, I'd average \$24-\$73 per hour. I've been doing this and now it's your turn. I want you to capitalize on the opportunities all around you; trust me they're out there. In addition to making money, I wanted to invest in precious metals without affecting my family's budget. I couldn't imagine taking \$1,600 from my monthly income to buy one gold coin, but I could take \$2 to buy gold jewelry. Does this sound familiar; do you have the same thoughts? Take this educational journey with me and reap your rewards. Capitalizing on these amazing

deals not only allows me to make money and invest in precious metals, but I'm able to save money buying gifts for my family, friends and myself. If I spend \$2 on a gold necklace and pendant set that retails for \$100, I saved myself \$98. Now that's the smart way to keep up with the Joneses. Or if I give it away as a gift, no one will know I only spent \$2; they'll think I spent \$100. Read this book and you could save substantial amounts of money too. Filled with killer (not filler) content, including:- ideas on where to search (offline and online),- stories to provide proof, entertainment, and illustrate the lesson being taught,- tips on finding the gold and silver that others miss,- techniques on how to find the precious metals,- hallmarks and hidden marks to look for,- how to get the best price for your items,- how to sell your gold and silver,- warnings to help protect you and your money,- how to test your precious metals,- 88 pictures,- and lots more information (200 pages worth). This book will pay for itself many times over:- IF YOU SAVE \$100 buying a gift (a gold ring) for a friend, or- IF YOU MAKE a profit of \$75 selling a precious metal item, or- IF YOU SAVE \$40 investing in a few ounces of sterling silver, by using one piece of information, then the book paid for itself many times over. You didn't lose a dime and all the information is free to use repeatedly, forever. How can you go wrong with that deal? With the current high spot prices of precious metals, just one necklace, one pendant, or two forks can be worth these types of savings and profits, easily. No, I'm not promising thousands of dollars in 10 minutes, but it's possible. It has happened to me. I paid \$5 for a gold whale pendant that retails for around \$2,000. Read this story in Chapter 4.

Supply Chain and Transportation Dictionary

Money is the key to learning economics. If the monetary system is well understood, it will clarify seemingly impenetrable economic events. The History of Money for Understanding Economics is indeed the indispensable reference to decrypt economics, and it does so in an enthralling way, from antiquity to the present day, with readily accessible language. This book answers questions such as: How did money and banking appear? Why did gold coins vanish after circulating for centuries? What is inflation? What is the IMF? The History of Money for Understanding Economics also explains new interpretations of history that have underscored how monetary changes have catalyzed events from the fall of the Roman Empire to World War II and beyond. Considering such past monetary influences, Lannoye challenges the reader with a monetary innovation to speed up the economy (and finance a green economy).

Commonwealth

The Life of William Wilberforce

What if someone told you that you were the reincarnation of Jesus, and that it was your destiny to save the world from political and economic destruction? Jack Cohen had his whole future before him. Just nineteen years old, he was a gifted athlete, a genius scholar, and a mixed martial arts prodigy, capable of leaving his mark in any number of ways. But his world turns suddenly upside down when a mesmerizing domme, Mary McDonald, enters his life and insists that he is Jesus 2.0

-- and that it is his mission to wage spiritual and political warfare on the establishment of Washington, D.C. Beautiful, clever, yet dangerous, Mary also tells Jack that she was chosen from above to lead him to his mission. Though he tries to resist, Jack finds himself thrust into a journey of sexual, spiritual and political awakening that will forever alter his life and change the course of the world. A blend of Atlas Shrugged, Fifty Shades of Gray and The Shack, mixed together with a megadose of PEDs, Kill Jesus is a wild, page-turning ride that will open your mind to a new way of thinking, while shattering any notions of a pacifist or puritanical Messiah.

Saab 9000 (4-cylinder)

Grotius, Hugo. The Freedom of the Seas or The Right which Belongs to the Dutch to Take Part in the East Indian Trade. Translated with a Revision of the Latin Text of 1633 by Ralph van Deman Magoffin. Edited with an Introductory Note by James Brown Scott. New York: Oxford University Press, 1916. xv, 83pp., paged in duplicate. Reprinted 2001 by The Lawbook Exchange, Ltd. LCCN 2001022509. ISBN 1-58477-182-8. Cloth. \$65. * Translation of Grotius' work, Mare Liberum, with Latin and English on facing pages. In this classic of international maritime law he calls for open rights of all countries and dominions to sail the seas without appropriation by any country, which was undoubtedly an attempt to offset the attempts of Spain, Portugal and England to claim sovereignty of the seas. This controversial viewpoint was opposed by John Selden in defense of the British Empire, in Mare Clausum. Grotius [1583-1645] is known principally for this work and his classic treatise on the law of nations, De Jure Belli.
