(Book). Charlie Byrd, Herbie Mann, and others brought in bags full of discs from a trip to Brazil in 1961. Stan Getz listened to them and recorded "Desafinado," which stayed for 70 weeks on the Billboard charts. Since then, no one can deny bossa nova's global appeal and influence upon jazz and world music. While celebrating bossa nova's 50-year presence in the United States, we can learn more about the movement's champion, Jobim, through poet and novelist Helena Jobim's Antonio Carlos Jobim: An Illuminated Man . His personal, intellectual, and professional history comes alive. With a vast, intimate, and revealing set of photographs, and an engaging, elegant and unique prose, this is the story of a true 20th-century's genius. Helena Jobim does justice to her brother's poetic voice. The composer of "Waters of March" read, questioned, and re-created the world he lived in not only through mesmerizing melodies, but also through down-to-earth poetry. The biography also reveals Antonio Carlos Jobim's serious ecological concerns. To his 400 songs of inexplicable grace he has added his own epigraph in An Illuminated Man : "Every time a tree is cut down here on Earth, I believe it will grow again somewhere else, in another world. So, when I die, it is to this place that I want to go, where forests live in peace."

Play Piano in a Flash

The most complete method for chromatic improvising over standards! David clearly explains and demonstrates the art of superimposing chords chromatically over "standard" chord changes (using several popular jazz favorites as his vehicles) to play contemporary sounding jazz lines. Includes standard and superimposed harmony for Girl from Ipanema, Donna Lee,

Autumn Leaves, Take the A Train, Satin Doll, Rhythm and Blues Changes, Impressions, India, Loft Dance, and A Love Supreme. The CD contains both verbal instruction and David soloing over the standards using the techniques described in the book. The book contains analysis for each solo and the solos on the CD are transcribed for all C, B-flat, and E-flat instruments! "How to Approach Standards Chromatically is a slightly different kind of play-along. It's packed with transcriptions of Libbman solos which are meant to be studied, as much as played, by students. The scope of this book is a bit dizzying: Libbman's approach is to provide the student with twelve songs and superimposition concepts that progress up the dissonant food chain. The material Libbman draws upon for contrasting chromatic colors include upper structure chords, tritone relationships, ii-V substitutes, "Giant Steps" movement, side slipping, moving chord cycles, purely intervallic thinking, and other advanced concepts. To benefit from this book, you do not need to play along with the CD note-for-note. Rather, use Libbman's detailed written notes to help you recognize and analyze the kinds of lines he plays on each of the superimposed progressions; then try to improvise over the progressions in a similar vein. Alto/Bari players and other instrumentalists can also get in on the action, as each solo and progression are transcribed in concert key, B-flat and E-flat." ---Down Beat Magazine
