### Economics for Managers, Global Edition

Global Marketing Management, 8th Edition combines academic rigor, contemporary relevance, and student-friendly readability to review how marketing managers can succeed in the increasingly competitive international business environment. This in-depth yet accessible textbook helps students understand state-of-the-art global marketing practices and recognize how marketing managers work across business functions to achieve overall corporate goals. The author provides relevant historical background and offers logical explanations of current trends based on information from marketing executives and academic researchers around the world. Designed for students majoring in business, this thoroughly updated eighth edition both describes today's multilateral realities and explores the future of marketing in a global context. Building upon four main themes, the text discusses marketing management in light of the drastic changes the global economy has undergone, the explosive growth of information technology and e-commerce, the economic and political forces of globalization, and the various consequences of corporate action such as environmental pollution, substandard food safety, and unsafe work environments. Each chapter contains review and discussion questions to encourage classroom participation and strengthen student learning.

### The Cultural Dimension of Global Business (1-download)

The text is a European adaptation of our current US book: Strategic Market Management, 9th Edition by David Aaker. This new edition is a mainstream text suitable for all business students studying strategy and marketing courses. Strategic Market Management: Global Perspectives is motivated by the strategic challenges created by the dynamic nature of markets. The premise is that all

traditional strategic management tools either do not apply or need to be adapted to a more dynamic context. The unique aspects of the book are its inclusion of: A business strategy definition that includes product/market scope, value proposition, and assets and competences. A structured strategic analysis including a detailed customer, competitor, market, and environmental analysis leading to an understanding of market dynamics that is supported by a summary flow diagram, a set of agendas to help start the process, and a set of planning forms. Concepts of strategic commitment, opportunism, and adaptability and how they can and should be blended together. Bases of a value proposition and strong brands. A strategy without a compelling value proposition will not be market driven or successful. Brand assets that will support a business strategy need to be developed. Creating synergetic marketing with silo organisations defined by products or countries. All organisations have multiple products and markets and creating cooperation and communication instead of competition and isolation is becoming an imperative. A global perspective is an essential aspect of this new edition. This reflects the lived experience of the student reader but also their likely professional challenges. This is achieved by the extensive use of new examples and vignettes.

### **Global Marketing, Global Edition**

For one semester MBA Managerial Economics courses Economics for Managers presents the fundamental ideas of microeconomics and macroeconomics and integrates them from a managerial decision-making perspective in a framework that can be used in a single-semester course. To be competitive in today's business environment, managers must understand how economic forces affect their business and the factors that must be considered when making business decisions. This is the only book that provides business students and MBAs with a thorough and applied understanding of both micro- and macroeconomic concepts in a way non-economics majors can understand. The third edition retains all the same core concepts and straightforward material on micro- and macroeconomics while incorporating new case material and real-world examples that relate to today's managerial student.

Johansson's Global Marketing, 5/e utilizes a three-pronged framework to organize the discussion of how to conduct global business: Foreign Entry, Local Marketing, and Global Management. Johansson seeks to develop the varied skills a marketing manager needs to be successful in each of these tasks. The discussion progresses from how to market an existing product outside of the domestic market to how to

develop a new product for specific local markets and then broadens the scope to discuss marketing and management topics from a global managerial perspective. Legal, regulatory, political, and cultural, issues are discussed as appropriate throughout the text. Excellent examples and cases, many of which are drawn from the authors rich international experience, help students move from concept to application.

### **International Marketing**

Poised at the dawn of the Asian Century, innovation in international marketing continues to cut through the turbulence of our economic climate. This fourth Asia-Pacific edition of International Marketing is thoroughly revised to capture the cutting edge developments in international marketing, while retaining the integrity of Masaaki Kotabe's theoretical underpinning. Undergraduate students using this text as core resource will be equipped with the tools to become an effective international marketing manager. Armed with an understanding of how social media, ethics and sustainability are impacting the Asia-Pacific international marketing mix, students will draw on the interdisciplinary, cross functional approach to gain insight into all aspects of international business operations and the interface they have with marketing. The text provides detailed coverage of international marketing at all levels: from the SME primarily engaged in importing and exporting activities country by country through to larger organisations striving to coordinate their international marketing activities regionally and globally. A key underlying theme of the text is that while it may not be possible for all firms in the Asia-Pacific region to market their goods and services on a truly global scale, all firms that operate in any international marketplace need to understand and be aware of competition from both the local SMEs and the larger MNCs that are increasingly attempting to operate globally. In an increasingly competitive and global market, the fourth Asia-Pacific edition of International Marketing integrates fifteen new and dynamic end-of-chapter case studies to give students the knowledge, context and confidence to be a successful international marketing professional.
