### Automotive Heating & Air Conditioning

The Jaguar XJ220 supercar – Jim Randle's 1988 UK Motor Show dream concept with the sensuous shape. Developed and produced from 1989 to 1994 by JaguarSport – the Jaguar/TWR joint venture – as a limited edition 350 car run, it sold in one day for about \$415,000 with a non-returnable deposit of \$80,000, attracting celebrities, speculators and the mega wealthy. Mike Moreton, ace director of impossible projects, who was headhunted for the XJ220 by Tom Walkinshaw, relives the inside story of this fantastic hi-tech car.

The S-type was introduced as an additional model to the Mk II but with the benefit of the independent rear suspension from the Mk 10. It retained some of the character of the Mk II and had ample performance courtesy of the 3.4 or 3.8-litre, six-cylinder XK engine. The 420 was developed directly from the S-type but resembled the Mk 10 at the front and rear. The special version of the 4.2-litre engine gave the model its name. The equivalent Daimler, the Sovereign, bridged the gap between the 2 1/2-litre saloon and the big Majestic Major. This is a book of contemporary road tests, specification and technical data, new model introductions, driver's impressions, long term tests and buying used guide. Models include: 3.4 and 3.8 S-type, 420, 420 automatic.

## **You & Your Jaguar XJS**

James Taylor remembers very well the disappointment among his petrol-head friends when the XJ-S was announced in 1975. It was not a replacement for the legendary E-type; its colours were uninspired; and its interior was drab. All credit, then, to those people at Jaguar who truly believed in the car and, over a period of nearly 20 years, turned the ugly duckling into a swan. From the moment the XJ-S HE arrived in 1981, there seemed to be renewed hope, and from then on, the car went from strength to strength to become the much-admired grand tourer it always should have been. The book contains a timeline of the key events in the history of the XJ-S and an overview of the evolution of the XJ-S from the XJ27 prototype. Packed with details it gives UK showroom prices through the year and sales in the US by year. Of great interest to all motoring and Jaguar enthusiasts, it is superbly illustrated with 192 colour and black & white photos. James Taylor has been writing professionally about road transport since the late 1970s, his primary interest is in those models that made the British motor industry great.
