A History Teaching Toolbox

Jeremy Paxman's unique portrait of the Victorian age takes readers on an exciting journey through the birth of modern Britain. Using the paintings of the era as a starting point, he tells us stories of urban life, family, faith, industry and empire that helped define the Victorian spirit and imagination. To Paxman, these paintings were the television of their day, and his exploration of Victorian art and society shows how these artists were chronicling a world changing before their eyes. This enthralling history is Paxman at his best - opinionated, informed, witty, surprising - and a glorious reminder of how the Victorians made us who we are today.

Essential Questions

What are "essential questions," and how do they differ from other kinds of questions? What's so great about them? Why should you design and use essential questions in your classroom? Essential questions (EQs) help target standards as you organize curriculum content into coherent units that yield focused and thoughtful learning. In the classroom, EQs are used to stimulate students' discussions and promote a deeper understanding of the content. Whether you are an Understanding by Design (UbD) devotee or are searching for ways to address

standards—local or Common Core State Standards—in an engaging way, Jay McTighe and Grant Wiggins provide practical guidance on how to design, initiate, and embed inquiry-based teaching and learning in your classroom. Offering dozens of examples, the authors explore the usefulness of EQs in all K-12 content areas, including skill-based areas such as math, PE, language instruction, and arts education. As an important element of their backward design approach to designing curriculum, instruction, and assessment, the authors

- *Give a comprehensive explanation of why EQs are so important;
- *Explore seven defining characteristics of EQs;
- *Distinguish between topical and overarching questions and their uses;
- *Outline the rationale for using EQs as the focal point in creating units of study; and
- *Show how to create effective EQs, working from sources including standards, desired understandings, and student misconceptions.

Using essential questions can be challenging—for both teachers and students—and this book provides guidance through practical and proven processes, as well as suggested "response strategies" to encourage student engagement. Finally, you will learn how to create a culture of inquiry so that all members of the educational community—students, teachers, and administrators—benefit from the increased rigor and deepened understanding that emerge when essential questions become a guiding force for learners of all ages.

History for the IB Diploma Paper 2 Authoritarian States (20th

Century)

The British prime minister recounts battles from Midway to Stalingrad, and how the Allies turned the tide of WWII: “Superlative.” —The New York Times The Hinge of Fate is the dramatic account of the Allies’ changing fortunes. In the first half of the book, Winston Churchill describes the fearful period in which the Germans threaten to overwhelm the Red Army, Rommel dominates the war in the desert, and Singapore falls to the Japanese. In the span of just a few months, the Allies begin to turn the tide, achieving decisive victories at Midway and Guadalcanal, and repulsing the Germans at Stalingrad. As confidence builds, the Allies begin to gain ground against the Axis powers. This is the fourth in the six-volume account of World War II told from the unique viewpoint of the man who led his nation in the fight against tyranny. The series is enriched with extensive primary sources, as we are presented with not only Churchill’s retrospective analysis of the war, but also memos, letters, orders, speeches, and telegrams, day-by-day accounts of reactions as the drama intensifies. Throughout these volumes, we listen as strategies and counterstrategies unfold in response to Hitler’s conquest of Europe, planned invasion of England, and assault on Russia, in a mesmerizing account of the crucial decisions made as the fate of the world hangs in the balance. “No memoirs by generals or politicians . . . are in the same class.” —The New York Times
