American Journey

The Significance of the Frontier in American History

This engaging new book introduces American Foreign Policy through the presentation of the most important logics used in contemporary debates, emphasizes the six most important foreign policy logics competing to define U.S. foreign policy, and identifies the five traditions of American political culture. Callahan first develops the concept of foreign policy logic, then places foreign policy arguments in a context of broader issues of U.S. purpose and of the historical development of foreign policy thinking. An objective presentation of ideals and theory allows a deeper understanding of debates, permitting the student to form an independent judgment of U.S. foreign policy.

Domesticity, Imperialism, and Emigration in the Victorian Novel

This volume offers innovative insights into and approaches to the multiple historical intersections between distinct modalities of internationalism and imperialism during the twentieth century, across a range of contexts. Bringing together scholars from diverse theoretical, methodological and geographical

backgrounds, the book explores an array of fundamental actors, institutions and processes that have decisively shaped contemporary history and the present. Among other crucial topics, it considers the expansion in the number and scope of activities of international organizations and its impact on formal and informal imperial polities, as well as the propagation of developmentalist ethos and discourses, relating them to major historical processes such as the growing institutionalization of international scrutiny in the interwar years or, later, the emerging global Cold War.

Britain and American Imperialism, 1898-1900

American Anti-imperialism, 1895-1901

In 1905 President Teddy Roosevelt dispatched Secretary of War William Howard Taft on the largest U.S. diplomatic mission in history to Hawaii, Japan, the Philippines, China, and Korea. Roosevelt's glamorous twenty-one year old daughter Alice served as mistress of the cruise, which included senators and congressmen. On this trip, Taft concluded secret agreements in Roosevelt's name. In 2005, a century later, James Bradley traveled in the wake of Roosevelt's mission and discovered what had transpired in Honolulu, Tokyo, Manila, Beijing and Seoul. In

1905, Roosevelt was bully-confident and made secret agreements that he thought would secure America's westward push into the Pacific. Instead, he lit the long fuse on the Asian firecrackers that would singe America's hands for a century.

The Americans

Soviet Analyst

The Jungle portrays the harsh conditions and exploited lives of immigrants in the United States in Chicago and similar industrialized cities. The book depicts working-class poverty, the lack of social supports, harsh and unpleasant living and working conditions, and a hopelessness among many workers. The primary purpose of the novel in describing the meat industry and its working conditions was to advance socialism in the United States. The main character in the book, Jurgis Rudkus, a Lithuanian immigrant, tries to make ends meet in Chicago. The book begins with his wife Ona and his wedding feast. He and his family live near the stockyards and meatpacking district where many immigrants, who do not know much English, work. He takes a job at Brown's slaughterhouse. Jurgis had thought the US would offer more freedom, but he finds working-conditions harsh. He and his young wife struggle to survive as they fall deeply into debt and become prey to con men.

Published by OpenStax College, U.S. History covers the breadth of the chronological history of the United States and also provides the necessary depth to ensure the course is manageable for instructors and students alike. U.S. History is designed to meet the scope and sequence requirements of most courses. The authors introduce key forces and major developments that together form the American experience, with particular attention paid to considering issues of race, class and gender. The text provides a balanced approach to U.S. history, considering the people, events and ideas that have shaped the United States from both the top down (politics, economics, diplomacy) and bottom up (eyewitness accounts, lived experience).

Contemporary World

Making Sense of World History

Technology Review

Making Sense of World History is a comprehensive and accessible textbook that helps students understand the key themes of world history within a chronological framework stretching from ancient times to the present day. To lend coherence to its narrative, the book employs a set of organizing devices that connect times, places, and/or themes. This narrative is supported by: Flowcharts that show how phenomena within diverse broad themes interact in generating key processes and events in world history. A discussion of the common challenges faced by different types of agent, including rulers, merchants, farmers, and parents, and a comparison of how these challenges were addressed in different times and places. An exhaustive and balanced treatment of themes such as culture, politics, and economy, with an emphasis on interaction. Explicit attention to skill acquisition in organizing information, cultural sensitivity, comparison, visual literacy, integration, interrogating primary sources, and critical thinking. A focus on historical

“episodes” that are carefully related to each other. Through the use of such devices, the book shows the cumulative effect of thematic interactions through time, communicates the many ways in which societies have influenced each other through history, and allows us to compare and contrast how they have reacted to similar challenges. They also allow the reader to transcend historical controversies and can be used to stimulate class discussions and guide student assignments. With a unified authorial voice and offering a narrative from the ancient to the present, this is the go-to textbook for World History courses and students. American Imperialism in the Image of Peer Gynt was first published in 1971. Minnesota Archive Editions uses digital technology to make long-unavailable books once again accessible, and are published unaltered from the original University of Minnesota Press editions. This is the life story of an economic historian whose distinguished career has included nine years of service as a United States government official in various capacities, both military and civilian, around the world. It is a revealing and often disturbing account, evoking in the author's mind, as he reflects on his own experiences and those of other American emissaries abroad, the image of Ibsen's Peer Gynt, who wandered over the earth thinking he was doing good, only to find when he returned home that both his virtues and his sins were so insignificant that his soul was scheduled by the buttonmolder to be cast into limbo in the form of a little lead button. Professor Johnson's book is much more than an autobiography. From the vantage point of his experiences and observations he provides a critical evaluation of American efforts abroad. He discusses cultural factors that have shaped American preconceptions and attitudes over the last half century and attempts to explain why a generation of presumably well-equipped Americans has been singularly incapable of materializing the hopes and aspirations of both the American people and the world community.

The Anti-imperialist

This hugely influential work marked a turning point in US history and culture, arguing that the nation's expansion into the Great West was directly linked to its unique spirit: a rugged individualism forged at the juncture between civilization and wilderness, which – for better or worse – lies at the heart of American identity today. Throughout history, some books have changed the world. They have transformed the way we see ourselves – and each other. They have inspired debate, dissent, war and revolution. They have enlightened, outraged, provoked and comforted. They have enriched lives – and destroyed them. Now Penguin brings you the works of the great thinkers, pioneers, radicals and visionaries whose ideas shook civilization and helped make us who we are.
