## **Loose Leaf for International Accounting**

The much anticipated fourth edition of Craig Deegan's Financial Accounting Theory delivers authoritative and completely up to date material with the discussion of both existing theories and newer theories that have surfaced as financial reporting has become more international. This edition includes a new selection of modern 'Accounting Headlines' which provide current examples of organisations and individuals putting accounting theory into practice in both local and global settings. Financial Accounting Theory covers additional topics such as critical perspectives, public sector accounting and fair value. Workflows and processes are presented using enhanced visual charts to help demonstrate how accounting works in practice. Deegan presents the concepts in a clear and straightforward style, while challenging students to think critically about the range of accounting theories. Financial Accounting Theory provides a sound basis for readers contemplating further research and develops habits of analytical reasoning and critical thinking.

In countries such as the UK, the energy used in constructing, occupying and operating buildings represents approximately 50% of greenhouse gas emissions. Pressure to improve the environmental performance of buildings during both construction and occupancy, particularly to reduce carbon emissions from buildings, has become intense. Understandably, legislation and regulation are driving green development and compliance. And this is happening in a wide variety of ways. This review of the law in key jurisdictions for the research community, lawyers, the construction industry and government examines some of the mechanisms in place " from the more traditional building regulation controls to green leases and the law relating to buildings and their natural environment. Members of the CIB TG69 research group on Green Buildings and the Law " review aspects of the law relating to green development in a range of jurisdictions.

## **Applying IFRS Standards**

International GAAP® 2019 is a comprehensive guide to interpreting and implementing International Financial Reporting Standards (IFRS), setting IFRS in a relevant business context and providing insights into how complex practical issues should be resolved in the real world of global financial reporting. This book is an essential tool for anyone applying, auditing, interpreting, regulating, studying or teaching IFRS. Written by EYs financial reporting professionals from around the world, this three-volume guide to reporting under IFRS provides a global perspective on the application of IFRS. Complex technical accounting issues are explained clearly and IFRS is set in a practical context with numerous worked examples and hundreds of illustrations from the published financial reports of major listed companies from around the world. The 2019 edition of International GAAP® has been fully revised and updated in order to:

- Continue to investigate the many implementation issues arising as entities adopt IFRS 9 (Financial Instruments) and IFRS 15 (Revenue from Contracts with Customers).
- Explore the complex implementation issues arising as entities adopt, in

In this, a unique history of the America's postwar intellectual, David Paul Haney outlines the development of sociology as a discipline and why, given its focus of study, it failed to develop into a force in the intellectual currents of the United States. Arguing that sociologists attempted to develop both a science and an instrument for the spread of humanistic concern about society, Haney shows how both attempts failed to connect sociology with larger questions of policy and social progress.

### **Advanced Issues in the Economics of Emerging Markets**

The approach used by Hoyle, Schaefer, and Doupnik in the new edition allows students to think critically about accounting, just as they will do while preparing for the CPA exam and in their future careers. With this text, students gain a well-balanced appreciation of the Accounting profession. As Hoyle 12e introduces them to the field's many aspects, it often focuses on past controversies and present resolutions. The text continues to show the development of financial reporting as a product of intense and considered debate that continues today and into the future. The writing style of the eleven previous editions has been highly praised. Students easily comprehend chapter concepts because of the conversational tone used throughout the book. The authors have made every effort to ensure that the writing style remains engaging, lively, and consistent which has made this

accounting has never been so exciting. Not only is the pace of international business, finance, and investment rapidly increasing, but we are also moving closer than ever before toward a convergence of accounting standards worldwide. Updated and revised to keep pace with these changes, this Sixth Edition of Radebaugh, Gray, and Black's International Accounting and Multinational Enterprises focuses on international business strategies and how accounting applies to these strategies. You'll learn how to use financial and accounting information across borders, and make more informed decisions in an increasingly complex international business environment. The authors also explain the key factors, including cultural differences, that influence accounting standards and practices in different countries, and how those factors impact the harmonization of standards worldwide. New to This Edition: \* New coauthor, Ervin L. Black of Brigham Young University. \* Updated coverage on corporate governance, Sarbanes-Oxley, the Public Company Accounting Oversight Board (PCAOB), and how these forces affect U.S.-based multinationals, as well as companies in other countries. \* Increased coverage of the efforts of the International Accounting Standards Board (IASB) to establish a uniform set of International Financial Reporting Standards (IFRS) worldwide and its interface with different national standard setters, especially the FASB. Special attention is given to the experience of the European Union and Australia in adopting IFRS in 2005. \* A web-based International Accounting Practice Problem, which helps students see how to apply IFRS to a set of transactions. \* Brief, user-
