Praise for Career Distinction "Hands down, this book is the bible on branding for your career!" -- Susan Britton Whitcomb, author of Job Search Magic "As a

professional resume writer and career coach, I have extolled the concept of personal branding for my clients for years. Now, for the first time ever, I have an outstanding resource to recommend--Career Distinction by William Arruda and Kirsten Dixson. This book details the concept of personal branding in a magnificent and easy-to-digest presentation that is a must-buy for every serious job seeker." -- Wendy S. Enelow, CCM, MRW, JCTC, CPRW Executive Director of the Career Masters Institute "Arruda and Dixson are widely respected in the global career coaching community as gurus who not only teach but live the personal branding model, and their expertise and passion show through on every page of this practical, indispensable book. I highly recommend it to all who want to distinguish themselves from the competition." -- L. Michelle Tullier, PhD, Vice President of Right Management and author of The Unofficial Guide to Landing a Job

Guantánamo and American Empire

What does Tony Beshara do that most r'sum' "experts" don't? While the experts write r'sum's all day, Tony-the veteran placement specialist featured regularly on the Dr. Phil show-actually uses them to get people jobs. With Unbeatable R'sum's, Tony dissects and discusses real-life r'sum's for jobs in a wide range of industries from healthcare to banking, construction to technology, administration to sales and marketing, and more. The book shows readers how to build a powerful r'sum', utilize keywords effectively, use gaps and job changes to their

advantage, and pair their r'sum's with concise, dynamic cover letters. He complements his expertise (he has personally placed more than 8,500 professionals) with the results of a survey of more than 3,000 managers, executives, HR specialists, and other hiring authorities about what gets r'sum's read, interviews granted, and jobs offered. Readers will learn:

- * The critical components of well-written r'sum'
- * How to ensure their r'sum' actually gets read by the right people
- * What employers look for, and what turns them off
- * How to customize a r'sum' for a particular job
- * The truth about video r'sum's, job-search websites, and social networking sites like FaceBook, LinkedIn, and MySpace
- * And much more

Unbeatable R'sum's shows job seekers of all types how to present themselves in the best possible light for the best possible position.

The Job Search Solution

The bestselling guide to finding career success and satisfaction through Personality Type is now thoroughly revised, expanded, and updated. *Do What You Are* -- the time-honored classic that has already helped more than a million people find truly satisfying work -- is now updated to include jobs in today's hottest markets, including health services, education, and communications technology. With the global economy's ups and downs, the advent of astonishing new technology, the migration to online work and study, and the ascendancy of mobile communication, so much has changed in the American workplace since this book's fourth edition was published in 2007.

What hasn't changed is the power of Personality Type to help people achieve job satisfaction. This fifth edition is especially useful for millennials and for baby boomers experiencing midlife career switches. The book leads readers step-by-step through the process of determining and verifying Personality Type. Then it identifies occupations that are popular with each Type, provides helpful case studies, and offers a rundown of each Type's work-related strengths and weaknesses. Focusing on each Type's strengths, *Do What You Are* uses workbook exercises to help readers customize their job search, ensuring the best results in the shortest period of time.

Knock 'em Dead - Secrets & Strategies for First-Time Job Seekers

The Tragedy of American Science

What Are Employers Really Looking for? It's Not What You Think. More people than ever are applying for the same few jobs. Surfing job boards and submitting a dozen résumés a day just doesn't work. *The 6 Reasons You'll Get the Job* shows you exactly how to tailor your pitch and stand out from the crowd so that you get hired. Talent alone will not get you the job. The short list of candidates all have the ability to do the work, so what makes the difference? Whether employers know it or not, intuitively they are always looking for a candidate who meets or exceeds each of six qualities: ?Presentation ?Ability ?Dependability ?Motivation ?Attitude ?Network These qualities may

sound familiar, but you'll be surprised at how employers judge them. You'll discover how to promote these six qualities to your advantage so employers take notice. You'll also learn proven strategies for finding jobs in the Hidden Market while your competition is still waiting by the phone. By mastering a few simple, often overlooked techniques, you'll get noticed by the person who has the power to hire you now.

The Iron Cage

In *Love Smart: Find the One You Want -- Fix the One You Got*, bestselling author Dr. Phil tells people who are dissatisfied with their love lives to stop making excuses and start taking action. You deserve a committed relationship, and it is within your control to have the one you want. First, though, you need to determine what you want in a partner, plot your course, and get out there and create velocity in your pursuit of a loving connection. In this book you'll learn to: Present the real you in the most flattering light. You have to stop being your own best kept secret. Peek behind the male curtain. Dr. Phil tells you things about men that they don't necessarily want you to know. How good is your Guy-Q? Master the right moves. Don't fade into the wallpaper; get noticed and get involved. If you are already coupled up then learn how to grow and nurture what you have built. Bag 'em, tag 'em and take 'em home. Learn how to negotiate the relationship you desire and then close the deal. Get out of your relationship rut. The daily grind, money problems, work, etc., can take their toll

on your relationship. Dr. Phil shows you how to assess the state of your union and take your relationship to a deeper level. There are no exceptions: There is somebody for everybody, and everybody deserves a relationship filled with love and excitement. Love Smart: Find the One You Want -- Fix the One You Got offers you the plan to find not just any relationship but the committed, loving, joy-filled relationship you've been waiting for. How to Find Fulfilling Work

THE SCHOOL OF LIFE IS DEDICATED TO EXPLORING LIFE'S BIG QUESTIONS IN HIGHLY-PORTABLE PAPERBACKS, FEATURING FRENCH FLAPS AND DECKLE EDGES, THAT THE NEW YORK TIMES CALLS "DAMNABLY CUTE." WE DON'T HAVE ALL THE ANSWERS, BUT WE WILL DIRECT YOU TOWARDS A VARIETY OF USEFUL IDEAS THAT ARE GUARANTEED TO STIMULATE, PROVOKE, AND CONSOLE. A practical and inspirational guide to examining your career and deciding whether it truly makes you happy—this book will show you the steps it takes to find a job that truly makes you thrive. The desire for fulfilling work is one of the great aspirations of our age. This book reveals explores the competing claims we face for money, status, and meaning in our lives. Drawing on wisdom from a variety of disciplines, cultural thinker Roman Krznaric sets out a practical guide to negotiating the labyrinth of choices, overcoming fear of change, and finding a career in which you thrive. Overturning a century of traditional thought about career change,

Krznaric reveals just what it takes to find life-enhancing work

Unbeatable Resumes

A look at the destructive history of science-for-profit, including its toll on the US pandemic response, by the author of *A People's History of Science*. Despite a facade of brilliant technological advances, American science has led humanity to the brink of interrelated disasters. In *The Tragedy of American Science*, historian of science Clifford D. Conner describes the dual processes by which this history has unfolded since the Second World War, addressing the corporatization and the militarization of science in the US. He examines the role of private profit considerations in determining the direction of scientific inquiry—and the ways those considerations have dangerously undermined the integrity of sciences impacting food, water, air, medicine, and the climate. In addition, he explores the relationship between scientific industries and the US military, discussing the innumerable financial and human scientific resources that have been diverted from other critical areas in order to further military aggrandizement and technological development. While the underlying problems may appear intractable, Conner compellingly argues that replacing the current science-for-profit system with a science-for-human-needs system is not an impossible utopian dream—and the first step to a better future is grappling with the mistakes of the past.

Studying Engineering

This book explores the humanities as an insightful platform for understanding and responding to the military prison at Guantánamo Bay, other manifestations of “Guantánamo,” and the contested place of freedom in American Empire. It presents the work of scholars and writers based in Cuba’s Guantánamo Province and various parts of the US. Its essays, short stories, poetry, and other texts engage the far-reaching meaning and significance of Gitmo by bringing together what happens on the U.S. side of the fence—or “la cerca,” as it is called in Cuba—with perspectives from the outside world. Chapters include critiques of artistic renderings of the Guantánamo region; historical narratives contemplating the significance of freedom; analyses of the ways the base and region inform the Cuban imaginary; and fiction and poetry published for the first time in English. Not simply a critique of imperialism, this volume presents politically engaged commentary that suggests a way forward for a site of global contact and conflict.

Why I Stand

A timely and compelling examination of the Palestinian dilemma, named one of the 100 best books of the year by Publishers Weekly This story of the Palestinian search to establish a state begins in the era of British control over Palestine and stretches between the two world wars and into the present, offering much-needed perspective for anyone

concerned about peace in the Middle East. "Rashid Khalidi is a historian's historian. The Iron Cage is his most accomplished effort to date . . . Magisterial in scope, meticulous in its attention to detail, and decidedly dispassionate in its analysis, The Iron Cage is destined to be a benchmark of its genre." -Joel Schalit, Tikkun "At heart a historical essay, an effort to decide why the Palestinians . . . have failed to achieve an independent state." -Steven Erlanger, New York Times "Khalidi, tackling 'historical amnesia,'brilliantly analyses the structural handicap which hobbled the Palestinians throughout 30 years of British rule . . . Khalidi restores the Palestinians to something more than victims, acknowledging that for all their disadvantages, they have played their role and can (and must) still do so to determine their own fate." -Ian Black, Guardian "Khalidi uses history to provide a clear-eyed view of the region and assess the prospects for peace. He strives successfully for even-handedness." -Anthony Lewis, author of Gideon's Trumpet and Make No Law

Engines of Change

At some point, most people have been caught off guard by tough interview questions. This book helps readers take charge of the situation! In *Acing the Interview*, the employment expert Dr. Phil called "the best of the best" gives job seekers candid advice for answering even the most unexpected questions, including: * You really don't have as much experience as we would like -- why should we hire you? * How many hours in your previous jobs did you have to

work each week to get everything done?* What do you consider most valuable -- a high salary, job recognition, or advancement?The book also arms readers with questions to ask prospective employers that could prevent their making a big job mistake:* What would you say are the worst parts of this job?* What are the major problems facing the company and this department?* Why aren't you promoting from within?Taking readers through the entire process, from the initial interview to evaluating a job offer, and even into salary negotiation, *Acing the Interview* is a no-nonsense, take-no-prisoners guide to interview success.

Resumes For Dummies

For most of the twentieth century, considered opinion in the United States regarding Palestine has favored the inherent right of Jews to exist in the Holy Land. That Palestinians, as a native population, could claim the same right has been largely ignored. Kathleen Christison's controversial new book shows how the endurance of such assumptions, along with America's singular focus on Israel and general ignorance of the Palestinian point of view, has impeded a resolution to the Arab-Israeli conflict. Christison begins with the derogatory images of Arabs purveyed by Western travelers to the Middle East in the nineteenth century, including Mark Twain, who wrote that Palestine's inhabitants were "abject beggars by nature, instinct, and education." She demonstrates other elements that have influenced U.S. policymakers: American religious attitudes toward the Holy Land that

legitimize the Jewish presence; sympathy for Jews derived from the Holocaust; a sense of cultural identity wherein Israelis are "like us" and Arabs distant aliens. She makes a forceful case that decades of negative portrayals of Palestinians have distorted U.S. policy, making it virtually impossible to promote resolutions based on equality and reciprocity between Palestinians and Israelis. Christison also challenges prevalent media images and emphasizes the importance of terminology: Two examples are the designation of who is a "terrorist" and the imposition of place names (which can pass judgment on ownership). Christison's thoughtful book raises a final disturbing question: If a broader frame of reference on the Palestinian-Israeli conflict had been employed, allowing a less warped public discourse, might not years of warfare have been avoided and steps toward peace achieved much earlier?

96 Great Interview Questions to Ask Before You Hire

Bringing together an international forum of experts, this book looks at how museums, libraries and further public cultural institutions respond to the effects of globalisation, mobility and migration across Europe. It puts forward examples of innovative practice and policies that reflect these challenges, looking at issues such as how cultural institutions present themselves to and interact with multicultural audiences, how to support networking across European institutions, and share practice in core activities such as archiving interpreting and exhibiting

artefacts. Academics, practitioners from museums and public institutions and policymakers explore theoretical and practical approaches from a range of different disciplines such as museum and cultural heritage studies, cultural memory studies, social anthropology, sociology of organizations, cultural heritage management and cultural heritage informatics.

Work Reimagined

This book presents the proceedings of an International Conference on Advances in Engineering Structures, Mechanics & Construction, held in Waterloo, Ontario, Canada, May 14-17, 2006. The contents include contains the texts of all three plenary presentations and all seventy-three technical papers by more than 153 authors, presenting the latest advances in engineering structures, mechanics and construction research and practice.

The 6 Reasons You'll Get the Job

We all know the history of science that we learned from grade school textbooks: How Galileo used his telescope to show that the earth was not the center of the universe; how Newton divined gravity from the falling apple; how Einstein unlocked the mysteries of time and space with a simple equation. This history is made up of long periods of ignorance and confusion, punctuated once an age by a brilliant thinker who puts it all together. These few tower over the ordinary mass of people, and in the traditional account, it is to

them that we owe science in its entirety. This belief is wrong. A People's History of Science shows how ordinary people participate in creating science and have done so throughout history. It documents how the development of science has affected ordinary people, and how ordinary people perceived that development. It would be wrong to claim that the formulation of quantum theory or the structure of DNA can be credited directly to artisans or peasants, but if modern science is likened to a skyscraper, then those twentieth-century triumphs are the sophisticated filigrees at its pinnacle that are supported by the massive foundation created by the rest of us.

Be a Startup Superstar

Studying Engineering

The Only Three Questions That Count is the first book to show you how to think about investing for yourself and develop innovative ways to understand and profit from the markets. The only way to consistently beat the markets is by knowing something others don't know. This book will show you how to do just that by using three simple questions. You'll see why CNBC's Mad Money host and money manager James J. Cramer says, "I believe that reading his book may be the single best thing you could do this year to make yourself a better investor. In The Only Three Questions That Count, Ken Fisher challenges the conventional wisdoms of investing, overturns glib

theories with hard facts, and blows up complacent beliefs about money and the markets. Ultimately, he says, the key to successful investing is daring to challenge yourself and whatever you believe to be true. Packed with more than 100 visuals, usable tools, and a glossary, *The Only Three Questions That Count* is an entertaining and educational experience in the markets unlike any other, giving you an opportunity to reap the huge rewards that only the markets can offer.

Encore

A job-hunting manual for teens helps high school and college students zero in on their favorite skills and apply that knowledge to finding their perfect major or job.

Mortgage Loan Processing

Appearance. Performance skills. Confidence. All are winning – and attainable – traits that will help you land the job you want. You can acquire these skills by perusing *Job Interviews For Dummies*. This revised edition incorporates a multitude of updates and covers all the bases in getting employers to say, *You're the one!* Written for all job seekers – new entrants, midlevel people, very experienced individuals, and technical and non-technical job seekers – *Job Interviews For Dummies* is packed with the building blocks of show-stopping interviews. These range from strategies and techniques to sample dialogue and research tips. Interviewing for a

job is kind of like a stage performance, and if you want metaphorical standing ovations, then follow the guidelines offered in these pages. In this book, you'll explore the basics of interviewing, from how to dress to how to answer all sorts of questions – questions about you, your interest in the company, your experience, your education and training, your skills, your age, and questions they shouldn't ask but sometimes do anyway. You'll also uncover information about Practicing for your interview, and why it's so important Recognizing the mind games of job testing Wooing reviewers who give you references Identifying various interviewing scenarios you should expect Answering questions to sell yourself. Understanding the new interviewing technology, such as telephone interviews and video transmissions. On the stress scale, interviewing for a job ranks with making speeches before a vegetable-throwing crowd. Stress is such a big issue that some interviewees take tranquilizers or beta blockers to reduce it. A better way exists: Master the job-interviewing process. Get the winning ways down pat, and you'll have a special kind of insurance the rest of your working days. This guide can help.

Migrating Heritage

Do What You Are

Between 1890 and 1920 over one-third of the peasants of Mount Lebanon left their villages and traveled to the Americas. This book traces the

journeys of these villagers from the ranks of the peasantry into a middle class of their own making. *Inventing Home* delves into the stories of these travels, shedding much needed light on the impact of emigration and immigration in the development of modernity. It focuses on a critical period in the social history of Lebanon--the "long peace" between the uprising of 1860 and the beginning of the French mandate in 1920. The book explores in depth the phenomena of return emigration, the questioning and changing of gender roles, and the rise of the middle class. Exploring new areas in the history of Lebanon, *Inventing Home* asks how new notions of gender, family, and class were articulated and how a local "modernity" was invented in the process. Akram Khater maps the jagged and uncertain paths that the fellahin from Mount Lebanon carved through time and space in their attempt to control their future and their destinies. His study offers a significant contribution to the literature on the Middle East, as well as a new perspective on women and on gender issues in the context of developing modernity in the region.

Powerful Phrases for Successful Interviews

Can't find a job? Maybe you're seeing only half the picture! Half the job market is invisible Are you spending all your time applying to posted job openings—postings that draw hundreds, and in some cases, thousands of applications? No matter how perfect you are for the job, there is always someone else who's a little more qualified, more experienced.

The key to success in the current job market is breaking through to the hidden job market. Over half of all jobs go to someone who did not apply to a posted opening at all. What are they doing and how are they doing it? They're finding new jobs before the posting hits the Internet. Career guru Donald Asher offers proven strategies for finding great opportunities in any industry. With *Cracking the Hidden Job Market* you'll stop wasting time and effort and beat the job-search odds by learning how to:

- find jobs that are never posted anywhere
- get complete strangers to help you find a job
- convince potential employers to give you an interview—even when they're “not hiring”
- find—and land—the new jobs in this, or any, economy

Every page of *Cracking the Hidden Job Market* is packed with no-frills fundamentals to change the way you look for a job, this time—and forever!

The Only Three Questions That Count

Researching New Religious Movements

American Individualism has been the crown jewel of a nation that, based on its Judeo-Christian values, has prioritized God, family, and freedom to out-dream its obstacles. It is the freedom of this individual spirit that is under attack by its adversarial ideology, Marxist Socialism. This destructive ideology has resulted in “killing fields” of bodies, souls, and dreams of billions worldwide. Consistent is the destruction of manhood, womanhood, the family, and every pillar

that supports love of God and country. Why I Stand documents an ideology that uses trust to divide and betray. It was the ideology of the 1910 NAACP (National Association for the Advancement of Colored People) founded by twenty-one White Marxist Socialist, atheist, and eugenicist Democrats. They succeeded within decades to undermine the progress of the most entrepreneurial, patriotic, Christian, educated, family-oriented, and competitive minority in our nation during that era: the Black community. This strategy of trust/betrayal is utilized by many of today's politicians and corporate leaders. It has been the Congressional Black Congress that have voted 100% for every anti-Black policy demanded of them by their White Democratic leadership. It has been the NFL that has prioritized its expansion to 10 international countries over loyalty to its American fans. Its leadership has justified the denigration of its "All American" brand in exchange for a global "World Citizen" brand. "American Individualism is the sole source of progress, granting each individual the chance and stimulation for development of the best with which he has been endowed in heart and mind." - President Herbert Hoover We MUST defend it.

A Shared Future

Love Smart

DISCOVER WHAT YOU'RE HERE TO DO It's the end of work as we know it. Career paths look nothing like they did in the days before phones got smart. We work more hours at more jobs for more years than ever before. So it's vital that we know how to find work that allows us to remain true to who we are in the deepest sense, work that connects us to something larger than ourselves—in short, our “calling.” We all have one, and bestselling authors Richard Leider and David Shapiro can help you uncover yours. Through a unique Calling Card exercise that features a guided exploration of fifty-two “natural preferences” (such as Advancing Ideas, Doing the Numbers, Building Relationships, and Performing Events), Leider and Shapiro give us a new way to uncover our gifts, passions, and values and find work that expresses them. Along the way, they mix in dozens of inspiring true stories about people who have found, or are in the process of finding, their own callings. Uncovering your calling enables you to experience fulfillment in all aspects and phases of

your life. And here's the even better news: you'll never have to work again. When you choose to do what you are called to do, you're always doing what you want to do. Work Reimagined offers an enlightening, effective, and entertaining approach to discovering what you were born to do, no matter your age or stage of life.

Acing the Interview

The job market is awash with qualified applicants. Yet employers rarely select based solely on merit. Instead, most hiring decisions are gut-level evaluations made in the first few minutes of an interview. What people say determines who lands a job and who does not. Hiring expert Tony Beshara knows the words that trigger "yes" in the minds of employers-and in his handy new book, he arms candidates with hundreds of ready-to-use responses to even the toughest interview questions. Covering entry-level to executive positions and encompassing all industries, this quick-reference guide propels job seekers through every stage of the process. Readers learn power phrases to:

- * Get their foot in the door *
- * Clearly communicate their skills, strengths, and experience-and why they would be a perfect fit *
- * Make a great impression at the crucial opening and close *
- * Score high on the likability factor *
- * Dispel lingering concerns about work history *
- * Give follow-up emails real impact *
- * Negotiate a strong job offer *

And more After all, when it's time to choose between a candidate who is perfect on paper and one who is persuasive in person, there's no contest. Powerful

Phrases for Successful Interviews gives you the right words to make the difference every time.

The Ten Roads to Riches

Find a job and quickly climb the ranks at a tech startup, even if you're not a techie. Are you underemployed or struggling to find a fulfilling career? Stuck on a low rung of the corporate ladder and don't see a way up anytime soon? You're not alone. Like many recent college grads and people who feel stuck in their corporate jobs, you've probably never considered working for a technology company that's just starting out, especially if you're not a tech whiz. That doesn't matter. Tech startups are desperate for talent and creativity in all kinds of fields from people with leadership skills and new ideas—people like you! If you're looking to turn your general business know-how into a wildly successful career, *Be a Startup Superstar* is your guide. Yes, you can love your work, feel energized by your role, and earn the income of your dreams. Author Steven Mark Kahan left his safe corporate job to join his first tech startup, and since then he has helped seven startup companies sell or go public (meaning early employees usually score big). In this breakthrough book, Steve shows you how to: Look for five key traits when choosing a tech startup Get hired at a tech startup with your existing degree, skills, and experience Develop the leadership attributes and entrepreneurial mindset that can launch you to the top Make better decisions and get better outcomes in the tech startup world and beyond *Be a Startup Superstar* provides the

expert insider guidance you need to ignite your career by joining the tech startup revolution.

Career Distinction

Discover how your net worth can be worth more The Ten Roads to Riches takes an engaging and informative look at some of America's most famous (and infamous) modern-day millionaires (and billionaires) and reveals how they found their fortunes. Surprisingly, the super-wealthy usually get there by taking just one of ten possible roads. And now, so can you! Plenty of books tell you how to be frugal and save, but The Ten Roads to Riches tells you how you can, realistically, get super-rich. Throughout these pages, renowned investment expert and self-made billionaire Ken Fisher highlights amusing anecdotes of individuals who have traveled (or tumbled) down each road, and tells you how to increase your chances of success. Whether it's starting a business, owning real estate, investing wisely, or even marrying very, very well, Fisher will show how some got it right and others got it horribly wrong. Find out the right questions to ask when starting your own business-the richest road of all Learn what Mark Cuban, Rupert Murdoch, and rapper Jay-Z have in common, and how you can emulate them Discover how to avoid high-profile flameouts like the Enron guys and jailed plaintiffs' lawyer Melvyn Weiss Whether you're just beginning to plan your financial future or well on your way, The Ten Roads to Riches can show you how to gain and, more importantly, maintain the wealth you want.

Perceptions of Palestine

Job Interviews For Dummies

A spirited defense of academic freedom in the face of modern-day McCarthyism.

101 Small Rules for a Big Job Search

More than 100,000 copies sold! Every harried interviewer knows the result of throwing out vague questions to potential employees: vague answers and potentially disastrous hiring decisions. Presented in a handy question-and-answer format, *96 Great Interview Questions to Ask Before You Hire* provides readers with the tools they need to elicit honest and complete information from job candidates, plus helpful hints on interpreting the responses. The book gives interviewers everything they need to: identify high-performance job candidates • probe beyond superficial answers • spot “red flags” indicating evasions or untruths • get references to provide real information • negotiate job offers to attract winners. Included in this revised and updated edition are new material on background checks, specific challenges posed by the up-and-coming millennial generation, and ideas for reinventing the employment application to gather more in-depth information than ever before. Packed with insightful questions, this book serves as a ready reference for both managers and human resources professionals alike.

Cracking The Hidden Job Market

A narrative like no other: a cultural history that explores how cars have both propelled and reflected the American experience— from the Model T to the Prius. From the assembly lines of Henry Ford to the open roads of Route 66, from the lore of Jack Kerouac to the sex appeal of the Hot Rod, America's history is a vehicular history—an idea brought brilliantly to life in this major work by Pulitzer Prize-winning journalist Paul Ingrassia. Ingrassia offers a wondrous epic in fifteen automobiles, including the Corvette, the Beetle, and the Chevy Corvair, as well as the personalities and tales behind them: Robert McNamara's unlikely role in Lee Iacocca's Mustang, John Z. DeLorean's Pontiac GTO , Henry Ford's Model T, as well as Honda's Accord, the BMW 3 Series, and the Jeep, among others. Through these cars and these characters, Ingrassia shows how the car has expressed the particularly American tension between the lure of freedom and the obligations of utility. He also takes us through the rise of American manufacturing, the suburbanization of the country, the birth of the hippie and the yuppie, the emancipation of women, and many more fateful episodes and eras, including the car's unintended consequences: trial lawyers, energy crises, and urban sprawl. Narrative history of the highest caliber, Engines of Change is an entirely edifying new way to look at the American story.

Global Corruption Report 2001

First published in 2000. Routledge is an imprint of Taylor & Francis, an informa company.

What Color is Your Parachute? for Teens

New religious movements such as the Moonies, Jehovah's Witnesses and Hare Krishnas are now well established in mainstream cultural consciousness. But responses to these 'cult' groups still tend to be overwhelmingly negative, characterized by the furious reactions that they evoke from majority interests. Modern societies need to learn how best to respond to such movements, and how to interpret their benefits and dangers. *Researching New Religious Movements* provides a cutting-edge analysis of the controversy around new religions in America and Europe today. Drawing on original fieldwork, it explores the battles between the recruiting factions of groups like the Moonies, and the anti-cult movements and Church societies that have mobilized to oppose these. It considers academic and media interventions on both sides, placing special emphasis on the problems of objectivity inherent in the language of 'sects', 'abduction' and 'brainwashing'. Ideal for students, researchers and professionals, this provocative and much-needed book takes the debate over new religious movements to a newly sophisticated level.

Jerusalem 1948

When Dr. Phil's viewers need help turning their job search woes into employment success, he calls in Tony Beshara. One of the most successful placement

professionals in the United States, Beshara knows what works and what doesn't. In *The Job Search Solution*, he outlines the simple yet powerful system that has helped over 100,000 people land jobs they love. Now, in a completely updated second edition, Beshara addresses the major challenges that confront candidates seeking employment today, including advice for readers who have been out of work for a while, were fired from their last job, are looking to change careers, or may be facing discrimination due to age. Featuring interactive exercises, real-life examples, practical Do's and Don'ts, and other essential tools, the new edition reveals how candidates can create a personal brand online, communicate with potential employers via e-mail, and leverage personal stories throughout the interview process. Both practical and empowering, *The Job Search Solution* gives readers the tools they need to get hired in one of the toughest job markets ever.

Inventing Home

Features advice for first-time job seekers on finding employment and building a professional career, addressing such topics as résumé writing, interviewing, negotiating, advancing within a company, and changing jobs.
