Advanced Structural Mechanics

The bestselling British novel about love, marriage, family, secrets, and how the power of faith can transform lives even in the midst of inconsolable loss After being paralyzed in a rugby accident, twenty-year-old, wheelchair-bound Lenny Barnes feels he has nothing left to live for and is putting his affairs in order before committing suicide. As lively Mazey Day celebrations take place in the Cornish town of Penzance, Lenny summons a parish priest to his home. Father Barnaby Johnson is shocked to discover that he has been called in not to comfort but to deliver last rites. Lenny's death will reverberate not only in Barnaby's life but in the lives of his family and those around them, from Barnaby's wife, Dorothy, to Modest Carlsson, a parishioner and former teacher whose affair with an underage student cost him his job, his marriage, and, quite possibly, his soul. Narrated in a nonlinear style from the characters' shifting perspectives and ages, this spellbinding, exquisitely crafted novel exposes the fault lines in

relationships as it limns the consequences of our actions. The novel that author Patrick Gale describes as “an echo chamber” to his international bestseller *Notes from an Exhibition*, *A Perfectly Good Man* reveals another family in crisis and asks what it truly means to be good. This Richard & Judy Book Club pick is a story of warmth, wisdom, and compassion on crises of faith, the power of prayer, morality, and what it means to be a parent.

Stan Bowles

'I think that Frank Worthington summed my life up quite well when he said, "Stan has spent all of his money on gambling, booze and birds." I responded to that: "Well, at least I didn't waste it!"' Stan Bowles was one of the greatest players of the golden age of English football, the 1970s. But like many of his contemporaries, he was probably as famous for his exploits in the bar or at the race track. Indeed, his chronic addiction to gambling led him to blow upwards of quarter of a million pounds. Packed with irreverent and entertaining anecdotes the book covers the ups and downs of Bowles' career, from his childhood in a prefab in Manchester, his early days at Man City, spent hanging around with the likes of George Best as well as the notorious Quality Street Gang, his heyday at QPR, and the unhappier times at Forest and Leyton Orient. **STAN BOWLES, MY AUTOBIOGRAPHY** is an unflinchingly honest account of a sporting legend.

than 250,000 adherents. Identifying Methodism as America's most significant large-scale popular religious movement of the antebellum period, John H. Wigger reveals what made Methodism so attractive to post-revolutionary America. *Taking Heaven by Storm* shows how Methodism fed into popular religious enthusiasm as well as the social and economic ambitions of the "middling people on the make"--skilled artisans, shopkeepers, small planters, petty merchants--who constituted its core. Wigger describes how the movement expanded its reach and fostered communal intimacy and "intemperate zeal" by means of an efficient system of itinerant and local preachers, class meetings, love feasts, quarterly meetings, and camp meetings. He also examines the important role of African Americans and women in early American Methodism and explains how the movement's willingness to accept impressions, dreams, and visions as evidence of the work and call of God circumvented conventional assumptions about education, social standing, gender, and race. A pivotal text on the role of religion in American life, *Taking Heaven by Storm* shows how the enthusiastic, egalitarian, entrepreneurial, lay-oriented spirit of early American Methodism continues to shape popular religion today.

The Oxford Handbook of Holinshed's Chronicles

The Handbook is an innovative interdisciplinary study of the Chronicles of England, Scotland and Ireland (1577, 1587), commonly known by the name of its early author and editor, Raphael Holinshed. It brings together forty articles by leading specialists in history, literature, religion, and the classics, in the first full investigation of the significance of this greatest of Elizabethan chronicles. David Herbert Donald examines the significance of friendship in Abraham Lincoln's life and the role it played in shaping his career and his presidency. Though Abraham Lincoln had hundreds of acquaintances and dozens of admirers, he had almost no intimate friends. Behind his mask of affability and endless stream of humorous anecdotes, he maintained an inviolate reserve that only a few were ever able to penetrate. Professor Donald's remarkable book offers a fresh way of looking at Abraham Lincoln, both as a man who needed friendship and as a leader who understood the importance of friendship in the management of men. Donald penetrates Lincoln's mysterious reserve to offer a new picture of the president's inner life and to explain his unsurpassed political skills.

The Social and Economic Origins of Monarchy in Jordan

In China today skyscrapers tower over ancient temples, freeways deliver lines of cars and tour buses to imperial palaces, cinema houses compete with old theaters featuring Peking Opera. The disparity evidenced in the contemporary Chinese cityscape can be traced to the early decades of the twentieth century, when government elites sought to transform cities into a new world that would be at once modern and distinctly Chinese. *Remaking the Chinese City* aims to capture the full diversity of recent Chinese urbanism by examining the modernist transformations of China's cities in the first half of the twentieth century. Collecting in one place some of the

most interesting and exciting new work on Chinese urban history, this volume presents thirteen essays discussing ten Chinese cities: the commercial and industrial center of Shanghai; the old capital, Beijing; the southern coastal city of Canton; the interior's Chengdu; the tourist city of Hangzhou; the utopian "New Capital" built in Manchuria during the Japanese occupation; the treaty port of Tianjin; the Nationalists' capital in Nanjing; and temporary wartime capitals of Wuhan and Chongqing. Unlike past treatments of early twentieth-century China, which characterize the period as one of failure and decay, the contributors to this volume describe an exciting world in constant and fundamental change. During this time, the Chinese city was remade to accommodate parks and police, paved roads and public spaces. Rickshaws, trolleys, and buses allowed the growth of new downtowns. Department stores, theaters, newspapers, and modern advertising nourished a new urban identity. Sanitary regulations and traffic laws were enforced, and modern media and transport permitted unprecedented freedoms. Yet despite their fondness for things Western and modern, early urban planners envisioned cities that would lead the Chinese nation and preserve Chinese tradition. The very desire for modernity led to the construction of a visible and accessible national past and the imagining of a distinctive national future. In their investigation of the national capitals of the period, the essays show how cities were reshaped to represent and serve the nation. To promote tourism, traditions were invented and recycled for the pleasure and edification of new middle-class and foreign consumers of culture. Abundantly illustrated with maps and photographs,

Stand Before Your God

When we meditate, our minds often want to do something other than the meditation instructions we've been taught. When that happens repeatedly, we may feel frustrated to the point of abandoning meditation altogether. Jason Siff invites us to approach meditation in a new way, one that honors the part of us that doesn't want to do the instructions. He teaches us how to become more tolerant of intense emotions, sleepiness, compelling thoughts, fantasies—the whole array of inner experiences that are usually considered hindrances to meditation. The meditation practice he presents in *Unlearning Meditation* is gentle, flexible, permissive, and honest, and it's been wonderfully effective for opening up meditation for people who thought they could never meditate, as well as for injecting a renewed energy for practice into the lives of seasoned practitioners.

A Heart Full of Hope

A Kirkus Reviews Best Nonfiction of 2011 title Jim Dent, the award-winning, New York Times bestselling author of *The Junction Boys*, returns with a powerful Texas story which transcends college football, displaying the courage and determination of one of the game's most valiant players. Freddie Steinmark was an under-sized but scrappy young man when he arrived in Austin as a freshman at the University of Texas in 1967. Despite the pronouncement by many coaches that he was too small to play football at the college level, Freddie was a tenacious competitor who vowed to start every game as a varsity Longhorn. By the start of the 1969 season, Freddie was making his mark on the college gridiron and national stage as UT's star safety, but he'd also developed a crippling pain in his thigh that worried his high school sweetheart, Linda. Despite the increasingly debilitating pain, Freddie continued to play throughout the season, helping the Longhorns to rip through opponents like pulpwood. His final game was for the national championship at the end of 1969, when the Longhorns rallied to beat Arkansas in a legendary game that has become known as "the Game of the Century." Tragically, bone cancer took Freddie off the field when nothing else could. But nothing could extinguish his irrepressible spirit or keep him away from the game. Although his struggle with cancer would be short-lived, Freddie's fight would inspire the nation as well as thousands of cancer victims, earning him a special citation from President Richard Nixon. Today, a photo of Freddie

hangs in the tunnel at Darrell K. Royal-Texas Memorial Stadium, where players touch it before games en route to the field.
