This inspiring book, *Lawyers, Guns, and Money* by Carol X. Vinzant, recounts the heroic efforts of Tom McDermott, a lawyer and victim of the infamous Colin Ferguson rampage on the Long Island Railroad, to take on the gun industry. He is among the leaders of an innovative and promising strategy to circumvent the NRA's political power and courts constrained by interpretations of the Second Amendment. Through

civil action he hits the gun companies where it hurts most: the bottom line. Making insurance difficult for manufacturers to get, he has helped reduce the number of cheap hand guns, "Saturday Night Specials," often used in crime. This is a riveting account of tragedy turned into action, and how the law can be used to defend victims rather than enrich corporations.

Regulation of Lawyers

The founders of a respected Silicon Valley advisory firm study legendary category-creating companies and reveal a groundbreaking discipline called category design. Winning today isn't about beating the competition at the old game. It's about inventing

a whole new game—defining a new market category, developing it, and dominating it over time. You can't build a legendary company without building a legendary category. If you think that having the best product is all it takes to win, you're going to lose. In this farsighted, pioneering guide, the founders of Silicon Valley advisory firm Play Bigger rely on data analysis and interviews to understand the inner workings of “category kings”— companies such as Amazon, Salesforce, Uber, and IKEA—that give us new ways of living, thinking or doing business, often solving problems we didn't know we had. In Play Bigger, the authors assemble their findings to introduce the new discipline of category design. By applying category design, companies can create new demand where none existed, conditioning customers' brains so they change their expectations and buying habits. While this discipline defines the tech industry, it applies to every kind of industry and even to personal careers. Crossing the Chasm revolutionized how we think about new products in an existing market. The Innovator's Dilemma taught us about disrupting an aging market. Now, Play Bigger is transforming business once again, showing us how to create the market itself.
