Politics and the Life Sciences

Nuclear Activation Techniques in the Life Sciences

Activities for Science Centers, Grade 2

Biochemicals, Reagents & Kits for Life Science Research

Science Framework for California Public Schools

Daily discoveries with science centers! Activities for the Science Center helps students in grade 2 explore concepts in life

science, earth science, and physical science through hands-on experiments. It also explains the scientific principles behind each experiment. This 80-page book aligns with Common Core State Standards, as well as state and national standards, and includes tips for setting up science centers and introducing new concepts, extension activities, and literature lists.

Space Life Sciences

Daily discoveries with science centers! Activities for the Science Center helps students in grade K explore concepts in life science, earth science, and physical science through hands-on experiments. It also explains the scientific principles behind each experiment. This 80-page book aligns with Common Core State Standards, as well as state and national standards, and includes tips for setting up science centers and introducing new concepts, extension activities, and literature lists.

Canadian Books in Print

CTET Practice Workbook Paper 2 – Science/ Maths (10 Solved + 10 Mock papers), English Edition, contains 10 challenging Mock Papers along with 10 Past Solved Papers. The Mock Tests follows the exact pattern as per the latest CTET paper. The book also contains the solution to the past CTET papers of June 2011, Jan & Nov 2012, July 2013, Feb & Sep 2014, Feb & Sep 2015 and Feb & Sep 2016 Papers. The languages covered in the tests are English (1st language) and Hindi (2nd language). Each Practice Set in the book contains sections on Child Development & Pedagogy, English, Hindi, Mathematics and Science. The question papers have been set very diligently so as to give a real-feel of the actual TET. The book is also useful for other State TETs - UPTET, Rajasthan TET, Haryana TET, Bihar TET, Uttarakhand TET etc.

The Origin of Species

Study & Master Life Sciences Grade 10 has been especially developed by an experienced author team for the Curriculum and Assessment Policy Statement (CAPS). This new and easy-to-use course helps learners to master essential content and skills in Life Sciences. The comprehensive Learner's Book includes: * an expanded contents page indicating the CAPS coverage required for each strand * a mind map at the beginning of each module that gives an overview of the contents of that module * activities throughout that help develop learners' science knowledge and skills as well as Formal Assessment tasks to test their learning * a review at the end of each unit that provides for consolidation of learning * case studies that link science to real-life situations and present balanced views on sensitive issues. * 'information' boxes providing interesting additional information and 'Note' boxes that bring important information to the learner's attention

Developing Science, Mathematics, and ICT Education in Sub-Saharan Africa

Current Index to Conference Papers in Life Sciences

Developing Science, Mathematics and ICT (SMICT) in Secondary Education is based on country studies from ten Sub-Saharan African countries: Botswana, Burkina Faso, Ghana, Namibia, Nigeria, Senegal, South Africa, Uganda, Tanzania and Zimbabwe, and a literature review. It reveals a number of huge challenges in SMICT education in sub-Saharan Africa: poorly-resourced schools; large classes; a curriculum hardly relevant to the daily lives of students; a lack of qualified teachers; and inadequate teacher education programs. Through examining country case studies, this paper discusses the lessons for improvement of SMICT in secondary education in Africa.

Life Sciences : Microgravity

Directory of All India Life Sciences and Agricultural Sciences Periodicals

The Origin of Species is a work of scientific literature by Charles Darwin which is considered to be the foundation of evolutionary biology. Darwin's book introduced the scientific theory that populations evolve over the course of generations through a process of natural selection. It presented a body of evidence that the diversity of life arose by common descent through a branching pattern of evolution. Darwin included evidence that he had gathered on the Beagle expedition in the and his subsequent findings from research, correspondence, and experimentation. Darwin's aims were twofold: to show that species had not been separately created, and to show that natural selection had been the chief agent of change.
