On 29th March 2019, CBSE released an updated curriculum for Academic Year 2019-2020 in which it has suggested various changes which will have a bearing on the format of the Final Board Examination Paper for the year 2020. We at Oswaal Books are always proactive to follow the changes proposed by the Board and implement the same as soon as possible to put the students, parents and teachers at ease. The Oswaal Question Banks have been modified and rewritten as per the latest Board guidelines in order to supplement the need of the students and guide them during the entire academic year! As the CBSE remodelled assessment structure is divided in two major parts namely Internal Assessment and year end Board Examinations, Oswaal Question Banks have been designed to assist students to prepare for their multiple assessment as well as the Board examinations with equal ease. Oswaal Question Banks will not only help students with regular studies but will also equip the teachers with the most updated study material for the class. The Question Banks have been designed with a lot of care

and attention to details. As suggested in the syllabus, these Question Banks are completely based on the latest NCERT Textbook. All chapters are arranged 'TOPICWISE' where each topic is explained in detail and covers all typologies of Questions specified by CBSE, with well labelled diagrams and high-quality figures/diagrams for fast learning. Answers from CBSE Marking scheme are highlighted in order to specify the correct method of answering questions for attaining maximum marks. We hope to make Oswaal Question Banks a student's best companion to sail through the entire academic year smoothly. Some of the benefits of studying from Oswaal Question Banks are: 1. Chapterwise/ Topicwise presentation for systematic and methodical study 2. Previous Years' Examination Questions with Marking Scheme & Toppers' Answers for exam-oriented study 3. Remembering, Understanding, Application, Analysing & Evaluation and Creation Based Question based on Bloom's Taxonomy for cognitive skills development 4. Multiple Choice Questions included as per the latest design of the Question Paper issued by CBSE 5. Mind Maps in each chapter for making learning simple. 6. 'Most likely Questions' generated by Oswaal Editorial Board with 100+ years of teaching experience. 7. Suggested videos at the end of each chapter for a Hybrid Learning Experience. 8. Important Question from RD Sharma & RS Agarwal solved 9. All in one book, extremely useful book for Olympiad & IIT Foundation preparation

The past ten years in South Africa has seen many changes in education - the creation of a single department of education; common examinations for all learners in public schools in the country, a new outcomes based education curriculum which was introduced to learners in the general education and training phase since 1998 and will be introduced to the further education and training phase from 2006. To evaluate the success of these changes South African researchers still use the indicator of student achievement. The matriculation examination is the visible, high profile and public performance indicator. Every year parents, learners, teachers, researchers, government officials, policymakers, and the general public get involved in the debate around the matric examination with the most frequently asked questions being - Did the pass rate go up? Are standards dropping? Are the results real or have they been manipulated? How is our education system doing? Are we meeting the development goals? What should

the matriculation examination of the future look like? participants from government (national and provincial),

Adding It Up explores how students in pre-K through 8th grade learn mathematics and recommends how teaching, curricula, and teacher education should change to improve mathematics learning during these critical years. The committee identifies five interdependent components of mathematical proficiency and describes how students develop this proficiency. With examples and illustrations, the book presents a portrait of mathematics learning: Research findings on what children know about numbers by the time they arrive in pre-K and the implications for mathematics instruction. Details on the processes by which students acquire mathematical proficiency with whole numbers, rational numbers, and integers, as

well as beginning algebra, geometry, measurement, and probability and statistics. The committee discusses what is known from research about teaching for mathematics proficiency, focusing on the interactions between teachers and students around educational materials and how teachers develop proficiency in teaching mathematics.
