The Internet, Law and Society

Information structure deals with the linguistic forms and techniques that support the integration of what is said into the current informational and attentional state of the addressee. This shows in categories like topic-comment structuring, focus to highlight expressions, marking of givenness and of presupposed information, and ways to indicate that the information provided is restricted. The book relates information structure to theoretical models of

grammar, to computation and modelling and brings together what is known about the expression of information structure in human language with regard to its empirical investigation, its psycholinguistic aspects and the acquisition of information structure. Since the need to integrate what is said into the informational and attentional state of the addressee is central to all human communication, it is not surprising that all natural languages have developed devices to express information structural categories. To illustrate this, the book also provides concrete and theory independent descriptions of the information structural encoding strategies of individual languages of different types . The book can be used as a textbook appropriate for advanced undergraduate and graduate courses; it also provides information for linguists that are not specialists in the field.

A New York Times Editors' Choice and an Oprah's Book Club Summer Reading Pick In this brilliant new collection, Scotiabank Giller Prize and Rogers Writers' Trust Fiction Prize nominee Alix Ohlin skillfully displays the full range of human emotions through the subtly powerful dramas of everyday life. In "You Are What You Like" a young couple finds their life derailed by the arrival of a hard-partying old friend. In "Robbing the Cradle" Lisette does everything she can to give her husband a baby, committing an act of desperation. In "The Idea Man" Beth, a divorcee, falls in love with a man who lies for fun. And in the incredible title story, Kathleen finds herself sitting at the hospital bedside of a man she had planned to divorce, comforted by the woman she went out of her way to hurt. These characters are divorced and beginning to date again, childless and longing for children, married and aching for more. Often unexpected and unsettling, always fascinating, Signs and Wonders showcases a young writer of remarkable range and emotional depth.

Notes of a Russian Sniper

The Internet has changed our social spaces, our political and social realities, our use of language, and the way we communicate, all with breathtaking speed. Almost everyone who deals with the Internet and the new world of cyberspace communication at times feels bewildered, dismayed, or even infuriated. In this clear and helpful book, computer communications scholar Laura J. Gurak takes a close look at the critical issues of online communication and

discusses how to become literate in the new mass medium of our era. In cyberspace, Gurak shows us, literacy means much more than knowing how to read. Cyberliteracy means being able to sort fact from fiction, to detect extremism from reasonable debate, and to identify gender bias, commercialism, imitation, parody, and other aspects of written language that are problematic in online communication. Active reading skills are essential in cyberspace, where hoaxes abound, advertising masquerades as product information, privacy is often compromised, and web pages and e-mail messages distort the truth. Gurak analyzes the new language of the Internet, explaining how to prepare for its discourse and protect oneself from its hazards. This book will appeal to anyone with an interest in the impact of the Internet on the practices of reading and writing and on our culture in general./DIV

Don't Die, Dragonfly

'As a sniper, I've killed more than a few Nazis. I have a passion for observing enemy behaviour. You watch a Nazi officer come out of a bunker, acting all high and mighty, ordering his soldiers every which way, and putting on an air of authority. The officer hasn't got the slightest idea that he only has seconds to live.' Vassili Zaitsev's account of the hell that was Stalingrad is moving and harrowing. This was a battle to the death - fighting street by street, brick by brick, living like rats in a desperate struggle to survive. Here, the rules of war were discarded and a psychological war was being waged. In this environment, the sniper was king - an unseen enemy

who frayed the nerves of brutalised soldiers. Zaitsev volunteered to fight at Stalingrad in 1942. His superiors recognized quickly his talent, and made him a sniper. He adapted his hunting skills to the ruins of the city, watching his prey with nerves of steel. In his first 10 days, Zaitsev killed 40 Germans. He achieved at least 225 kills and the tactics he developed are still being studied. Zaitsev was used a symbol of Russian resistance against the Nazis. His exploits, including a famous 'duel' with a Nazi sniper, remain the stuff of legend. His account is absorbing to anyone interested in World War II and seeing how one person could survive in the most extreme of conditions.

Monochrome | Polychrome (coffee Table Edition)

This collection of critical essays on the fiction of John Fante is the first concerted effort to assess the work, and acknowledge the significance, of one of America's most engaging and original twentieth-century literary talents. Over the span of a half-century - from the early 1930s to the early 1980s - the Italian-American Fante (1909-1983) wrote short stories and novels that drew on his own life from his Catholic childhood in Colorado through his down-and-out days in Los Angeles, to his adventures as a screenwriter in Hollywood. He writes about all these things with gusto, humor, directness, and an honesty tinged with the irony of a true modernist.

The Expression of Information Structure

John Fante, an important figure in the history of the Italian-American novel, is proving to be fascinating to contemporary readers. Richard Collins has caught Fante's spirit from several crucial angles: as an ethnic writer; as a comic novelist; as a serious writer struggling to remain so in Hollywood. Intelligent, balanced, informative, and empathetic, this book combines criticism with scholarship, and biography with history to make what Henry James would have called a perfect 'literary portrait,' for it gives life to an interesting subject.

Everything Is Under Control

Grade 9 Up—Johnson begins this exceptional novel in a lightweight fashion but quickly segues into more serious issues that affect the three young women who make up the Bermudez Triangle. It is the summer before their senior year in Saratoga Springs, NY. At first, organized, serious Nina has trouble adjusting to her leadership workshop at Stanford University. Although she desperately misses Avery and Mel, who are waitresses at a restaurant back home, she quickly falls head over heels for eco-warrior Steve, who has grown up in a commune on the West Coast—so different from Nina's secure middle-class experience. When she returns to New York, she immediately senses that Mel and Avery are keeping secrets and soon discovers that they have become lovers. Rocked to the core, Nina wishes them happiness, but feels excluded and lonely, especially as her long-distance relationship begins to deteriorate. As is typical for teens, the girls obsess ad nauseam over their

romantic relationships. Yet this narrow focus lends authenticity to the narrative, and readers become drawn into the characters' lives as they stumble toward adulthood, fall in and out of love, enlarge their circle of friends, and rethink their values.
