A Perilous Question

READING, WRITING, AND RAISING THE DEAD When Chess Putnam is ordered by an infamous crime boss—who also happens to be her drug dealer—to use her powers as a witch to solve a grisly murder involving dark magic, she knows she must rise to the challenge. Adding to the intensity: Chess's boyfriend, Terrible, doesn't trust her, and Lex, the son of a rival crime lord, is trying to reignite the sparks between him and Chess. Plus there's the little matter of Chess's real job as a ghost hunter for the Church of Real Truth, investigating reports of a haunting at a school in the heart of Downside. Someone seems to be taking a crash course in summoning the dead—and if Chess doesn't watch her back, she may soon be joining their ranks. As Chess is drawn into a shadowy world of twisted secrets and dark violence, it soon becomes clear that she's not going to emerge from its depths without making the ultimate sacrifice. From the Paperback edition.

The Count of Monte Cristo

The chilling truth is that his story could have been mine. The tragedy is that my story could have been his. Two kids named Wes Moore were born blocks apart within a year of each other. Both grew up fatherless in similar Baltimore neighborhoods and had difficult childhoods; both hung out on street corners with their crews; both ran into trouble with the police. How, then, did one grow up to be a Rhodes Scholar, decorated veteran, White House Fellow, and business leader, while the other ended up a convicted murderer serving a life sentence? Wes Moore, the author of this fascinating book, sets out to answer this profound question. In alternating narratives that take readers from heart-wrenching losses to moments of surprising redemption, *The Other Wes Moore* tells the story of a generation of boys trying to find their way in a hostile world. **BONUS:** This edition contains a new afterword and a *The Other Wes Moore* discussion guide. Praise for *The Other Wes Moore* "Moving and inspiring, *The Other Wes Moore* is a story for

our times.”—Alex Kotlowitz, author of *There Are No Children Here* “A tense, compelling story and an inspirational guide for all who care about helping young people.”—Juan Williams, author of *Enough* “This should be required reading for anyone who is trying to understand what is happening to young men in our inner cities.”—Geoffrey Canada, author of *Fist Stick Knife Gun* “The Other Wes Moore gets to the heart of the matter on faith, education, respect, the hard facts of incarceration, and the choices and challenges we all face. It’s educational and inspiring.”—Ben Carson, M.D., author of *Gifted Hands* “Wes Moore is destined to become one of the most powerful and influential leaders of this century. You need only read this book to understand why.”—William S. Cohen, former U.S. senator and secretary of defense “This intriguing narrative is enlightening, encouraging, and empowering. Read these words, absorb their meanings, and create your own plan to act and leave a legacy.”—Tavis Smiley, from the Afterword

Sacrificial Magic

Brecken Kane had been damn good at his job in the military. The experience served him well when he moved into the private sector. Brecken's new security business is booming, and he's settling into civilian life. Little does he know his newest client's request to save his daughter will change everything. Hadley Gresham knows she isn't likely to make it out of the jungle alive. She'd distanced herself from her parents after she learned her dad made his money selling illegal arms. Kidnapped by his competitors, she knows there's little chance he'll be able to save her. Luckily for Hadley, her father hires Brecken. He'd never leave an innocent woman behind, let alone the one he quickly comes to consider his. Brecken might be Hadley's rescuer, but she's the one who saves his soul. Warning: This book has an alpha hero who races to the rescue of the virgin heroine. If you like insta-love and hot sex in the steamy jungle, then this story is for you! Please note: This is the second novella in the *Body & Soul* series, but it can be read as a standalone. Each book in the series features a different couple.

ONE OF THE BEST BOOKS OF THE YEAR: TIME MAGAZINE * GLAMOUR * GOOD HOUSEKEEPING * BOOKPAGE * BOOK RIOT * LIBRARY JOURNAL "A gripping and beautiful book about the power of love in the face of unimaginable loss." --Cheryl Strayed Two-year-old Greta Greene is sitting with her grandmother on a park bench on the Upper West Side of Manhattan when a brick crumbles from a windowsill overhead, falls, and strikes her unconscious. She is immediately rushed to the hospital. Jayson Greene's memoir begins with this event and with the anguish he and his wife, Stacy, confront in the wake of their daughter's trauma and

the hours leading up to her death. But *Once More We Saw Stars* quickly becomes a narrative that is as much about hope and healing as it is about grief and loss. Jayson recognizes, even in the midst of his ordeal, that there will be a life for him beyond it--that if only he can continue moving forward, from one moment to the next, he will survive what seems unsurvivable. With raw honesty, deep emotion, and exquisite tenderness, Jayson Greene captures both the fragility of life and absoluteness of death, and most important of all, the unconquerable power of love. This is an unforgettable memoir of courage and transformation--and a book that will change the way you look at the world.

Why Love Hurts

Book Six, Kane and Lucy find themselves with two cases to investigate: one an apparent murder/suicide and the other a tragic accident - or was it? As they struggle to make sense of the apparently contradictory evidence they discover that neither case is as straightforward as it appears. When the police discover the body of Cynthia Hughes in the kitchen floor and her husband Bob hanged in the garage it seems like an open-and-shut case - but Bob's mistress, Angela, doesn't buy it and she hires Kane and Lucy to find the real killer. Meanwhile Mike Kingsley's son has died after being struck by a train and the police have ruled it an accidental death. But was it? As Kane and Lucy struggle with the two cases simultaneously they discover that they have something in common - neither case is quite what it seems to be; and Kane once more finds himself drawn into the dangerous world of drug traffickers.

Love Under Siege

Since their mother's death, Carter and Sadie have become near strangers. While Sadie has lived with her grandparents in London, her brother has traveled the world with their father, the brilliant Egyptologist, Dr. Julius Kane. One night, Dr. Kane brings the siblings together for a "research experiment" at the British Museum, where he hopes to set things right for his family. Instead, he unleashes the Egyptian god Set, who banishes him to oblivion and forces the children to flee for their lives. From the creator of the hit Percy Jackson series.

Walkable City

From a contributor to *The Cut*, one of *Vogue's* most anticipated books "bravely and honestly" (Busy Philipps) talks about weight loss and sheds a light on *Weight Watchers* founder Jean Nidetch: "a triumphant chronicle" (New York Times). Marisa Meltzer began her first diet at the age of five. Growing up an indoors-loving child in Northern California, she learned from an early age that weight was the one part of her life she could neither change nor even really understand. Fast forward nearly four decades. Marisa, also a contributor to the *New Yorker* and the *New York Times*, comes across an obituary for Jean Nidetch, the Queens, New York housewife who founded *Weight Watchers* in 1963. Weaving Jean's incredible story as weight loss maven and pathbreaking entrepreneur with Marisa's own journey through *Weight Watchers*, she chronicles the deep parallels, and enduring frustrations, in each woman's decades-long efforts to lose weight and keep it off. The result is

funny, unexpected, and unforgettable: a testament to how transformation goes far beyond a number on the scale.

Save Your Soul

Ollie left it all behind: a new home, friends who saw her as something more than a fragile shadow walker and a budding relationship with Kane. It was all in an effort to shield Asher, who should never have been able to escape the Shadowlands. Now her money is gone, her hopes of saving other shadow walkers has slipped through her fingers, and Kane won't speak to her. She's been abducted by leprechauns, who think she committed an unspeakable crime. The vampires want her dead and there's a crawler blowing up End of the Rainbows. Kane might not want to work with her, but he's going to have to because all hell is breaking loose in Boston.

Red Pyramid, The (The Kane Chronicles, Book 1)

A searing chronicle of the life of a young ex-convict and heroin addict in 1960's Harlem, an unsparing portrait of a man who couldn't free himself from the horrors of addiction Blueschild Baby takes place during the summer of 1967—the summer of race riots all across the nation; the Summer of Love in the Haight Ashbury; the summer of Marines dying near Con Thien, across the world in Vietnam—but the novel illuminates the contours of a more private hell: the angry desperation of a heroin addict who returns to his home in Harlem after being in prison. First published in 1970, this frankly autobiographical novel was a revelation, a stunning depiction of a marginal figure, marked literally and figuratively by his drug addiction and navigating a predatory underground of junkies and hustlers—and named George Cain, like his author. Now with a new preface by acclaimed writer Leslie Jamison, this is an unvarnished conjuring of the tyranny of dependence: its desperation, its degradation, its rage and rebellion; the fragile, unsettled, occasional shards of hope it permits; the strange joys of being alive and young and lost and hooked and full of feverish determination anyway.

Cane Fighting

Few of us have been spared the agonies of intimate relationships. They come in many shapes: loving a man or a woman who will not commit to us, being heartbroken when we're abandoned by a lover, engaging in Sisyphean internet searches, coming back lonely from bars, parties, or blind dates, feeling bored in a relationship that is so much less than we had envisaged - these are only some of the ways in which the search for love is a difficult and often painful experience. Despite the widespread and almost collective character of these experiences, our culture insists they are the result of faulty or insufficiently mature psyches. For

many, the Freudian idea that the family designs the pattern of an individual's erotic career has been the main explanation for why and how we fail to find or sustain love. Psychoanalysis and popular psychology have succeeded spectacularly in convincing us that individuals bear responsibility for the misery of their romantic and erotic lives. The purpose of this book is to change our way of thinking about what is wrong in modern relationships. The problem is not dysfunctional childhoods or insufficiently self-aware psyches, but rather the institutional forces shaping how we love. The argument of this book is that the modern romantic experience is shaped by a fundamental transformation in the ecology and architecture of romantic choice. The samples from which men and women choose a partner, the modes of evaluating prospective partners, the very importance of choice and autonomy and what people imagine to be the spectrum of their choices: all these aspects of choice have transformed the very core of the will, how we want a partner, the sense of worth bestowed by relationships, and the organization of desire. This book does to love what Marx did to commodities: it shows that it is shaped by social relations and institutions and that it circulates in a marketplace of unequal actors.

Once More We Saw Stars

"A marvel: a memoir that details her awakening as a feminist, an environmentalist, and a citizen of the world. Every single sentence is exquisite." --Maris Kreizman, *Vulture* An electric portrait of the artist as a young woman that asks how a writer finds her voice in a society that prefers women to be silent In *Recollections of My Nonexistence*, Rebecca Solnit describes her formation as a writer and as a feminist in 1980s San Francisco, in an atmosphere of gender violence on the street and throughout society and the exclusion of women from cultural arenas. She tells of being poor, hopeful, and adrift in the city that became her great teacher; of the small apartment that, when she was nineteen, became the home in which she transformed herself; of how punk rock gave form and voice to her own fury and explosive energy. Solnit recounts how she came to recognize the epidemic of violence against women around her, the street harassment that unsettled her, the trauma that changed her, and the authority figures who routinely disdained and disbelieved girls and women, including her. Looking back, she sees all these as consequences of the voicelessness that was and still is the ordinary condition of women, and how she contended with that while becoming a writer and a public voice for women's rights. She explores the forces that liberated her as a person and as a writer--books themselves, the gay men around her who offered other visions of what gender, family, and joy could be, and her eventual arrival in the spacious landscapes and overlooked conflicts of the American West. These influences taught her how to write in the way she has ever since, and gave her a voice that has resonated with and empowered many others.

Three Cups of Tea

Jeff Speck has dedicated his career to determining what makes cities thrive. And he has boiled it down to one key factor: walkability. The very idea of a modern metropolis evokes visions of bustling sidewalks, vital mass transit, and a vibrant, pedestrian-friendly urban core. But in the typical American city, the car is still king, and downtown is a place that's easy to drive to but often not worth arriving at. Making walkability happen is relatively easy and cheap; seeing exactly what needs to be done is the trick. In this essential new book, Speck reveals the invisible workings of the city, how simple decisions have cascading effects, and how we can all make the right choices for our communities. Bursting with sharp observations and real-world examples, giving key insight into what urban planners actually do and how places can and do change, *Walkable City* lays out a practical, necessary, and eminently achievable vision of how to make our normal American cities great again.

Unholy Magic

Cardiovascular disease (CVD), once thought to be confined primarily to industrialized nations, has emerged as a major health threat in developing countries. Cardiovascular disease now accounts for nearly 30 percent of deaths in low and middle income countries each year, and is accompanied by significant economic repercussions. Yet most governments, global health institutions, and development agencies have largely overlooked CVD as they have invested in health in developing countries. Recognizing the gap between the compelling evidence of the global CVD burden and the investment needed to prevent and control CVD, the National Heart, Lung, and Blood Institute (NHLBI) turned to the IOM for advice on how to catalyze change. In this report, the IOM recommends that the NHLBI, development agencies, nongovernmental organizations, and governments work toward two essential goals: creating environments that promote heart healthy lifestyle choices and help reduce the risk of chronic diseases, and building public health infrastructure and health systems with the capacity to implement programs that will effectively detect and reduce risk and manage CVD. To meet these goals, the IOM recommends several steps, including improving cooperation and collaboration; implementing effective and feasible strategies; and informing efforts through research and health surveillance. Without better efforts

They are headed by a ruthless power elite class whose dominance runs unabated due to their control over various police and military forces that have been co-opted by them. All opposition is crushed in their ever expanding shadow. A virtual intelligence super-structure has been set up by these organizations to monitor all, and certain sectors of the population function in the maintenance of the various zones within the closed system. However, as always, pockets of resistance develop as Leonard Kilbane, former black ops super soldier-turned rogue resistance leader, assembles a diverse group of mercenaries who are learning to put their differences aside in order to stand up to the ultra-suppressive, all powerful corporate state. This team has barely begun to take action when the many tentacled organizations strike back with nearly omniscient technological power projection. Sitting atop his lofty perch, shrewd businessman and banker extraordinaire Arlington Grubb, head of the uber-powered monolithic financial juggernaut Leeds-Cantwell is destroying friend and foe alike in his never-ending greed and unquenchable thirst for supremacy. Grubb is in turn watched over by a shadowy entity known only as Helix.
