The study of language has increasingly become an area of interdisciplinary interest. Not only is it studied by speech specialists and linguists, but by psychologists and neuroscientists as well, particularly in understanding how the brain processes meaning. This book is a comprehensive look at sentence processing as it pertains to the brain, with contributions from individuals in a wide

Although Chitra Divakaruni's poetry has won praise and awards for many years, it is her "luminous, exquisitely crafted prose" (Ms.) that is quickly making her one of the brightest rising stars in the changing face of American literature. Arranged Marriage, her first collection of stories, spent five weeks on the San Francisco Chronicle bestseller list and garnered critical acclaim that would have been extraordinary for even a more established author. For the young girls and women brought to life in these stories, the possibility of change, of starting anew, is both as terrifying and filled with promise as the ocean that separates them from their homes in India. From the story of a young bride whose fairy-tale vision of California is shattered when her husband is murdered and she must face the future on her

This [book] contains a variety of articles on contemporary issues in social and

cultural anthropology. In contrast to the broad range of topics and minimum depth typical of standard textbooks, this anthology provides an opportunity to read firsthand accounts by anthropologists of their own research. The articles have been chosen for the purpose of supplementing the standard textbook in cultural anthropology that is used in introductory classes. -Pref.

Ready, willing and eligible girl and boy's parents "arrange" for an initial meeting. Both the boy and the girl are free to make decisions based on their own personal likes and dislikes. Since there is no dating or courtship involved, decisions are business-like and, hence, there are no emotional feelings that come in the way of tough decisions. It is completely decentralized and fits the 21st century business model.

"What a gorgeous, heartbreaking novel."—Roxane Gay A necessary and exciting addition to both the Sri Lankan-American and LGBTQ canons, SJ Sindu's debut novel offers a moving and sharply rendered exploration of friendship, family, love, and loss. Lucky and her husband, Krishna, are gay. They present an illusion of

marital bliss to their conservative Sri Lankan-American families, while each dates on the side. It's not ideal, but for Lucky, it seems to be working. She goes out dancing, she drinks a bit, she makes ends meet by doing digital art on commission. But when Lucky's grandmother has a nasty fall, Lucky returns to her childhood home and unexpectedly reconnects with her former best friend and first lover, Nisha, who is preparing for her own arranged wedding with a man she's never met. As the connection between the two women is rekindled, Lucky tries to save Nisha from entering a marriage based on a lie. But does Nisha really want to be saved? And after a decade's worth of lying, can Lucky break free of her own circumstances and build a new life? Is she willing to walk away from all that she values about her parents and community to live in a new truth? As Lucky—an outsider no matter what choices she makes—is pushed to the breaking point, *Marriage of a Thousand Lies* offers a vivid exploration of a life lived at a complex intersection of race, sexuality, and nationality. The result is a profoundly American debut novel shot through with humor and loss, a story of love, family, and the truths that define us all.

This book is an extensive and thorough exploration of the ways in which the middle class in India select their spouse. Using the prism of matchmaking, this book critically unpacks the concept of the 'modern' and traces the importance of moralities and values in the making of middle class identities, by bringing to the fore intersections and dynamics of caste, class, gender, and neoliberalism. The author discusses a range of issues: romantic relationships among youth, use of online technology and of professional services like matrimonial agencies and detective agencies, encounters of love and heartbreak, impact of experiences of pain and humiliation on spouse-selection, and the involvement of family in matchmaking. Based on this comprehensive account, she elucidates how the categories of 'love' and 'arranged' marriages fall short of explaining, in its entirety and essence, the contemporary process of spouse-selection in urban India. Though the ethnographic research has been conducted in India, this book is of relevance to social scientists studying matchmaking practices, youth cultures, modernity and the middle class in other societies, particularly in parts of Asia. While being based on thorough scholarship, the book is written in accessible language to appeal to a larger audience.
