Journal

The Highway, Street and Airport Manual

Catalog of Copyright Entries

Iron Age

A world list of books in the English language.

Catalog of Copyright Entries, Third Series

The City Record

Popular Science gives our readers the information and tools to improve their technology and their world. The core belief that Popular Science and our readers share: The future is going to be better, and science and technology are the driving forces that will help make it better.

Who Really Made Your Car?

Harmoniously merging the mind and the body, Hsing-I Ch'uan is simultaneously one of the most simple and most complex of the Chinese martial arts. The five forms, based on the Chinese concept of the five elements, provide a toolbox of techniques that the skillful Hsing-I practitioner uses to box with himself, channeling ch'i into spirit and spirit into mindful stillness. From this synthesis of external and internal forces springs new energy and true ability. Engagingly written and amply illustrated with black and white photographs, Robert W. Smith's primer includes the history and meaning of Hsing-I, detailed instruction in the five forms and twelve animal styles, and cogent advice from the masters. First published almost 30

years ago, Hsing-I: Chinese Mind-Body Boxing was among the first books on Hsing-I and remains one of the best.
