"This textbook is a collection of chapters on the essential topics in cultural anthropology. Books and Beyond

One of the most beloved and bestselling novels of spiritual adventure ever published, Ishmael has earned a passionate following among readers and critics alike. This special twenty-fifth anniversary edition features a new foreword and afterword by the author, as well as an excerpt from My Ishmael. TEACHER SEEKS PUPIL. Must have an earnest desire to save the world. Apply in person. It was just a three-line ad in the personals section, but it launched the adventure of a lifetime. So begins an utterly unique and captivating novel. In Ishmael, which received the Turner Tomorrow Fellowship for the best work of fiction offering positive solutions to global problems, Daniel Quinn parses humanity's origins and its relationship with nature, in search of an answer to this challenging question: How can we save the world from ourselves?

Praise for Ishmael “As suspenseful, inventive, and socially urgent as any fiction or nonfiction you are likely to read this or any other year.”—The Austin Chronicle “Before we’re halfway through this slim book . . . we’re in [Daniel Quinn’s] grip, we want Ishmael to teach us how to save the planet from ourselves. We want to change our lives.”—The Washington Post “Arthur Koestler, in an essay in which he wondered whether mankind would go the way of the dinosaur, formulated what he called the Dinosaur’s Prayer: ‘Lord, a little more time!’ Ishmael does its bit to answer that prayer and may just possibly have bought us all a little more time.”—Los Angeles Times

Routledge Handbook of Cultural Gerontology

Howard Zehr is the father of Restorative Justice and is known worldwide for his pioneering work in transforming understandings of justice. Here he proposes workable principles and practices for making Restorative Justice possible in this revised and updated edition of his bestselling, seminal book on the movement. (The original edition has sold more than 110,000 copies.) Restorative Justice, with its emphasis on identifying the justice needs of everyone involved in a crime, is a worldwide movement of growing influence that is helping victims and communities heal, while holding criminals accountable for their actions. This is not soft-on-crime, feel-good philosophy, but rather a concrete effort to bring justice and healing to everyone involved in a crime. In *The Little Book of Restorative Justice*, Zehr first explores how restorative justice is different from criminal justice. Then, before letting those appealing observations drift out of reach into theoretical space, Zehr presents Restorative Justice practices. Zehr undertakes a massive and complex subject and puts it in graspable form, without reducing or trivializing it. This resource is also suitable for academic classes and workshops, for conferences and trainings, as well as for the layperson interested in understanding this innovative and influential movement.

Irreverence and the Sacred brings together some of the most cutting edge, interdisciplinary, and international scholars working today in order to debate key issues in the critical and comparative study of religion. The project is inspired in large part by the work of Bruce Lincoln, whose influential and wide-ranging scholarship has consistently posed challenging, provocative, and often-irreverent questions that have really pushed the boundaries of the field of religious studies in

important, sometimes controversial ways. Retracing the history of the discipline of religious studies, Lincoln argues that the field has tended to champion a "validating, feel-good" approach to religion, rather than posing more critical questions about religious claims to authority and their role in history, politics, and social change. A critical approach to the history of religions, he suggests, would focus on the human, temporal, and material aspects of phenomena that are claimed to have a superhuman, eternal, or transcendent status. This volume takes up Lincoln's challenge to "do better," by engaging in critical analyses of four key themes in the study of religion: myth, ritual, gender, and politics. The book also interrogates the "politics of scholarship" itself, critically examining the relations of power and material interests at work in the study as well as the practice of religion. The scholars involved in this project include not only some of the most important figures in the American study of religion--such as Wendy Doniger, Russell McCutcheon, Ivan Strenski, and Lincoln himself--but also European scholars whose work is hugely influential overseas but not as well known in the U.S.--such as Stefan Arvidsson, Claude Calame, Nicolas Meylan, and others.

Ishmael

Growing up in Singapore in the 80s has been challenging. I didn't know much about life or economy. I didn't know what I want to do apart from playing. I know I had to study and get a job. In school we had to write composition about our profession when we grow up. I had never wanted to be a philosopher, let alone writing about social philosophy. It is just that growing up with a single parent is tough. It is tougher when she is uneducated and I had to learn most things by myself. After my National Service, I decided to further studies. That was when I was exposed to philosophy and psychology in the UK. After graduation in 1999 with a degree in Electronics, I came back home to resume my National Service (I disrupt it and had about 2 months left). The life in UK exposed me to something that I did not notice when growing up in Singapore. I find local social scene unsatisfactory. They are Confucians, Muslims, Christians, freethinkers and humanists. Most time, they are preoccupied with how to earn more money. Religion does not give me the fulfillment that it promised. In addition, most were based on Singaporeans' interpretation of the Bible and Buddhism's dharma. Most times, I feel that everything that Singaporeans do has got to do with wealth creation or at least with the expenditure of it. It end up like what Pope Francis referred to as "the cult of money." Organised religion involves more fear-mongering than cultivating an inner grace and peace. Hence this book is about how I relate an ancient thinker's ethics (Aristotle) to the present day. I find Aristotle's ethics to most suit my needs as a man and lover. It does not pretend to be more than what it seek, the golden mean. It does require us to think and explore the values to find balance and achieve wisdom with intellectual and moral virtues. I also find other philosophers (French or not) particularly insightful and thought-provoking. They offer me explanation and exploration on subjects like love, sex, and death. Freudian psychoanalysis are also very penetrating in their findings and insights. Moreover, I needed some contemporary psychological theory, not in-depth psychoanalysis, to back Aristotle's model of ethics (intellectual and moral virtues). Hence the psychological background of my book. I got acquainted with these psychological theories when I was preparing myself to be a financial consultant. I later found out more about them and they became useful in my work and life. Hence I would like to share it with people in Asia so that they can ask the right kind of questions in life in order to learn more about themselves and the social milieu they are living in. Because everyone of us are affected by the social sciences (politics, economics and sociology). This book will, I hope, allow us to understand why we are irrational and how we can make rational changes through reasonings in their life and achieving eudaimonia. My wish is simply to share what I enjoy doing, apart from creating useful ideas to improve the world. Through my book, I hope to make others understand religion, science and philosophy and how they play an increasingly integral part in the Asian century.

Sociology

Asian Americans have long been the subject and object of popular culture in the U.S. The rapid circulation of cultural flashpoints—such as the American obsession with K-pop sensations, Bollywood dance moves, and sriracha hot sauce—have opened up new ways of understanding how the categories of “Asian” and “Asian American” are counterbalanced within global popular culture. Located at the crossroads of these global and national expressions, *Global Asian American Popular Cultures* highlights new approaches to modern culture, with essays that explore everything from music, film, and television to comics, fashion, food, and sports. As new digital technologies and cross-media convergence have expanded exchanges of transnational culture, Asian American popular culture emerges as a crucial site for understanding how communities share information and how the meanings of mainstream culture shift with technologies and newly mobile sensibilities. Asian American popular culture is also at the crux of global and national trends in media studies, collapsing boundaries and acting as a lens to view the ebbs and flows of transnational influences on global and American cultures. Offering new and critical analyses of popular cultures that account for emerging textual fields, global producers, technologies of distribution, and trans-medial circulation, this ground-breaking collection explores the mainstream and the margins of popular culture.
