Jack is the universal folk hero and adventurer. Tales of Jack's adventures are as timeless as bedrock but as fresh as dawn in the Appalachian Mountains. Whether besting ogres, outsmarting flatland card sharps, wrestling with ornery witches, or even taking on Old Man Death himself, the plainspoken hero's common sense, goodness and hill-country humor help him come out on top every time. "In a lucid, vibrant voice, Caldecott Medalist Haley recounts stories that originate in the rugged North Carolina Mountain country Haley's use of metaphor, hyperbole and dialect captures the playful spirit of mountain lore. Her emotive, elaborate wood engravings, as well as her afterwords about the stories, the art and language itself, enrich this boyant anthology." -Publishers Weekly Haley's "spirited retellings are salted with backwoods language and illustrated with wood engravings that are full of energy, comedy and magical creatures." -Kirkus Reviews

Weird Tales from Northern Seas

An army of monsters walks among us, hidden in plain sight. They're fast. They're strong. They're unrelenting. And they only want one thing: the gas station at the edge of town. Coming as a surprise to absolutely no one, Jack—night-shift clerk and local crazy person—has found himself neck-deep in the middle of yet another world-ending terror. And this time around, nobody can be trusted. Not that tough-as-nails cop who probably knows a lot more than she's letting on. Not the adorkable new employee who might be something far less innocent than she appears. Not even Jack's best friend/emotional support human, whose mysterious past seems to have finally caught up with him. In this latest installment of the Gas Station saga, Jack's world will change forever. Questions will be answered, and answers will be questioned. Friends become enemies. Strangers become enemies. Frenemies become enemies. (You know what? Jack is going to have a lot of new enemies.) Prepare yourself. Things are about to get weird.

Jack London

A dark, swashbuckling epic fantasy by the author of War of the Black Tower. Black times have come to the kingdom of Felgrad. Once one of the jewels of the Crescent, now the dark powers have turned their gaze upon it, and Giorn Wesrain, son of the baron of Fiarth, has become inextricably drawn into the machinations of the Dark One, along with his beloved Niara, High Priestess of Illiana. The shadow loomed. Two eyes burned from it, devouring and all-consuming. Baleron felt a chill course down his spine. His fingers curled more tightly around the pommel of his sword. And then the ancient evil spoke ... When Baleron's brother is slain in a vicious attack, Baleron learns that the Dark Lord of legend is plotting to overthrow the goodly kingdoms of the Crescent, that fragile bulwark between the soft northern kingdoms and the foul empire of Oslog to the south. If the Crescent falls, so will the world. Hounded by agents of the Enemy, Baleron, the youngest son of the King of Havensrike, the black sheep of the royal family, returns to the capital city of the kingdom. There his father gives him one last assignment to redeem himself in the King's eyes. But disaster strikes, his sister is taken, and the Enemy launches a devastating blow. Baleron learns a shocking secret, that he is tied to an ancient prophecy. The words of the prophecy say that he, Baleron Grothgar, will be the fated champion of the Dark Lord. War of the Black Tower is the story of Baleron's quest to throw off this destiny, save his sister and his kingdom, and defeat the Dark Lord for good. This is the first volume in a sprawling, action-packed series by USA Today and New York Times bestselling author Jack Conner. If you like Terry Goodkind, R. A. Salvatore or J. R. R. The Son of the Wolf

This volume is about North American Märchen, a vernacular art form that is often strangely ignored or misconstrued. At the same time, the vitality and appeal of the genre are evidenced by its persistent presentation as written literature. The essays in this volume reexamine common assumptions about "magic" tales and their tellers, reconsidering the performance, collection, transcription, publication, and interpretation of narratives that continue to live orally—especially in the private realm—as one mechanism of intergenerational communication or as a symbolic expression of worldview. In addition to four interpretive essays, six segments focus on storytellers and their transcribed narratives, accompanied by introductions that place them in context. Some segments compare editing practices or narrative styles; others represent the first publication of contemporary narratives or tales that have long lain in archives, unheard and unavailable. All attest to the skill of the tellers and the artistry of their creations.

a change of conscience and become a member of the 'Fish Patrol', a group dedicated to enforcing the laws created to protect the waters from illegal fishing and other activities. These seven short stories describe the dangerous and often exciting encounters London had with the pirates of San Francisco Bay. Contents include: "White and Yellow", "The King of the Greeks", "A Raid on the Oyster Pirates", "Charley's Coup", "The Siege of the 'Lancashire Queen'", "Demetrios Contos", and "Yellow Handkerchief". The Son of the Wolf

In Jack London's short story "In the Forests of the North," two cultures clash with grave consequences. Explorers discover unmapped territory far in the North, where they encounter an Eskimo settlement as well as a white man who disappeared years before. Upon meeting his 'brothers' again, the white man called John Fairfax is tempted to leave the settlement, where he has been for the last five years but is pulled back by his marriage to the local chief's daughter. Not willing to give up his husband, Fairfax's wife resists him leaving, and a violent fight erupts between the visitors and local people. The short story is one of London's stories inspired by the period the writer spent at the Klondike Gold Rush in the late 19th century and was published in the early 20th century. Jack London (1876-1916) was an American writer and social activist. He grew up in the working class, but became a worldwide celebrity and one of the highest paid authors of his time. He wrote several novels, which are considered classics today, among these 'Call of the Wild', 'Sea Wolf' and 'White Fang'.

In the Forests of the North

This volume of folktales from the Far North of European Russia features seventeen works by five narrators of the Russian tale, all recorded in the twentieth century. The tales, distinguished by their extraordinary length and by the manner in which they were commonly told, appear to have flourished only in the twentieth century and only in Russian Karelia. Although the tales are easily recognized as wondertales, or fairy tales, their treatment of the traditional matter is anything but

usual. In these tales one encounters such topics as regicide, matricide, patricide, fratricide, premarital relations between the sexes and more, all related in the typical manner of the Russian folktale. The narrators were not educated beyond a rudimentary level. All were middle-aged or older, and all were men. Crew members of a fishing or hunting vessel plying the White Sea or lumberjacks or trappers in the vast northern forests, they frequently began the narration of a tale in an evening, then broke off at an appropriate moment and continued at a subsequent gathering. Such tales were thus told serially. Given their length, their thematic and narrative complexity, and their stylistic proficiency, one might even refer to them as orally delivered Russian short stories or novellas.
