My Guide Inside(tm) intermediate curriculum is a series of story-based lessons carefully crafted to teach learners about their natural inner wisdom, or their "guide inside." Based on Three Principles that are foundational to all human experience-Mind, Consciousness, and Thought-as discovered by Sydney Banks, this remarkable resource offers a hopeful, simple way for children, youth, and adults to gain new understanding about how they operate from the inside out. Designed to maximize personal well-being and improve school climate, behavior and learner performance, chapters such as "Discovering My Guide Inside," "Riding the Wave," and "Wheels of Learning Keep on Turning" provide vocabulary building, reflective journaling, and a variety of engaging writing and artistic activities to help draw out children's awareness of their own inner wisdom. In crafting this guide intended for Grades 4-7 but adaptable for all ages, authors Christa Campsall and Jane Tucker pull from their years as educators to design a curriculum, inclusive of all learners, meeting official learning objectives and student competency standards. Children naturally experience their wisdom and show resilience when given a hint about how life works. This program promotes that discovery process and encourages happiness and success in their young lives. www.ed-talks.com for more information.Teen Edition and Primary Edition are forthcoming!

The Singing Teacher's Guide to Transgender Voices is the first comprehensive resource developed for training transgender and nonbinary singers. This text aids in the development of voice pedagogy tailored to the needs of transgender singers, informed by cultural competence, and bolstered by personal narratives of trans and nonbinary singing students. The singing life of a transgender or nonbinary student can be overwhelmingly stressful. Because many of the current systems in place for singing education are so firmly anchored in gender binary systems, transgender and gender nonconforming singers are often forced into groups with which they feel they don't belong. Singers in transition are often afraid to reach out for help because the likelihood of finding a voice teacher who is competent in navigating the social, emotional, physical, and physiological challenges of transition is minimal at best. This text equips teachers with a sympathetic perspective on these unique struggles and with the knowledge and resources needed to guide students to a healthy, joyful, and safe singing life. It challenges professional and academic communities to understand the needs of transgender singers and provide evidence-based voice education and real-world opportunities that are authentic and genuine. The Singing Teacher's Guide to Transgender Voices is the first book of its kind to provide thorough, organized information on the training of trans singers for educators in both the academic and independent teaching realms.

Do you want to Learn how to use Google Classroom and Engage your Students with it? Then keep reading Google describes Google School as "The school mission control," and that could be the best way to think about it. Simply put, it's a forum for teachers and students to connect Google's G Suite resources. This also serves as a multimedia organizer where teachers can hold and exchange class materials with students -- all of them paperless. In there, you can select which features you wish to implement. This simplicity, and its seamless integration with the popular Google tools, is possibly what has made Google Classroom one of today's most commonly used EdTech tools. Google Learning helps teachers to create an online classroom environment where they will be able to access all the information their students need. Documents are stored on Google Drive and editable for applications such as Google Docs, Tickets, etc. But what distinguishes Google Classroom from the standard Google Drive experience is the interface between teacher and student, developed by Google for the way teachers and students think and work. Google Classroom is a free Google created program. The platform helps communicate with teachers and students and can be used to coordinate and manage to learn. Google Classroom is considered an essential paperless teaching aid to help teachers and students collaborate. The software also allows teachers to teach from a distance and can provide much-needed support in the current environment. This is part of the Google Apps for Education series that aims to make paperless learning possible in the Classroom. Teachers are going to be able to monitor each student's progress and return work after it has been graded. The teacher can comment on homework so that the students know what they did wrong so that they can improve. Teachers are also going to be able to create class announcements which students will have the ability to comment on. This book covers The Modern Teacher Pills Of Mindset Benefits Of Google Classroom Difference Between Google Classroom And Others Platforms Getting Started with Google Classroom How To Use Google Classroom? Useful Apps For Google Classroom Student Approach Ideas Tips And Tricks To Get The Most Out Of Google Classroom FAQS About Google Classroom Guidelines & Suggestions for Classroom Management and Instructional Forms And Much More. Google Classroom is a free program for teachers and learners to collaborate. Teachers can create classes online, invite students to attend the class, and create and hand out assignments. Inside the forum, learners and teachers can interact with the assignments, and teachers can track the progress of students. To use this solution, schools can create a free Google Apps for Education account. Google Classroom offers teachers and students special features that are not part of traditional Google Accounts. For example, teachers may use the Formulas tool to add images and answers to questions with multiple choices. The Gmail Inbox app houses Classroom texts, allowing students and teachers to find highlights and main information with ease. By adding subjects to posts, teachers can coordinate their class streams, and students and teachers can search the streams to find different subjects. Google Classroom is perfect for parents too. Teachers can exchange student success summaries with their parents, and the latter can get automatic email summaries of class updates and student assignments. Ready to get started? Click "Buy Now"!

English Language Teacher Preparation in Asia

Textbooks are symbols of centuries-old education. They're often outdated as soon as they hit students' desks. Acting "by the textbook" implies compliance and a lack of creativity. It's time to ditch those textbooks--and those textbook assumptions about learning In Ditch That Textbook, teacher and blogger Matt Miller encourages educators to throw out meaningless, pedestrian teaching and learning practices. He empowers them to evolve and improve on old, standard, teaching methods. Ditch That Textbook is a support system, toolbox, and manifesto to help educators free their teaching and revolutionize their classrooms.
