International institutional law

An up-to-date collection of important source materials, *International Law: Selected Documents* works as well with the author's own casebook, *International Law, Fifth Edition*, (with co-authors Phillip R. Trimble and Allen S. Weiner), as with any other primary text for this course. In one convenient place, the 2009-2010 Edition features: President Obama's 2009 Executive Orders on Interrogation and Guantanamo
Significant documents that pertain to the conflicts in Afghanistan and Iraq
The latest U.N. documents regarding Sudan, Iran, and North Korea
Relevant U.S. laws, including the 2008 amendments to the Foreign Sovereign Immunities Act
Major treaties and conventions, including highlights of the European Union's Lisbon Treaty
The latest lists of parties to agreements
Important U.N. resolutions
Informative Web sites

Public International Law in a Nutshell

This sixth edition has been completely revised and updated to take account of many new developments. It covers a variety of topics, from diplomatic immunity to human rights, and from recognition of government to war crimes. The author is particularly concerned with the relationship between international law and international politics, and he devotes special attention to such controversial topics as self-determination and the expropriation of foreign-owned property where the conflicting interests and attitudes of different states are most apparent.

International Trade Law

The Law of Journalism and Mass Communication, Sixth Edition, by Robert Trager, Susan Dente Ross, and Amy Reynolds offers a clear and engaging introduction to

media law with comprehensive coverage and analysis of key cases for future journalists and media professionals. You are introduced to key legal issues at the start of each chapter, building your critical thinking skills before progressing to real-world landmark cases that demonstrate how media law is applied today. Contemporary examples, emerging legal topics, international issues, and cutting-edge research all help you to retain and apply principles of media law in practice. The thoroughly revised Sixth Edition has been reorganized and shortened to 12 chapters, streamlining the content and offering instructors more opportunities for classroom activities. This edition also goes beyond the judiciary—including discussions of tweets and public protests, alcohol ads in university newspapers, global data privacy and cybersecurity, libel on the internet, and free speech on college campuses—to show how the law affects the ways mass communication works and how people perceive and receive that work.

Cases and Materials on International Law

Borkowski's Textbook on Roman Law

"[T]he text reflects materials available by 7 July 2003"--Preface.

International Law

The 'Textbook on International Law' provides a concise and accessible exposition of the key areas of international law for the student. This edition has been updated to include new material on the use of force, the International Criminal Court, and terrorism.

International Business Law

Provides information on constitutional and domestic national security law.

The Law of Journalism and Mass Communication

For upper-level undergraduate and MBA students enrolled in an international business law course. August, 5e emphasizes the diversity and similarity of how firms are currently regulated and governed around the world.

Fundamental Perspectives on International Law

Principles of Public International Law

Borkowski's Textbook on Roman Law is the leading textbook in the field of Roman law, and has been written with undergraduate students firmly in mind. The book provides an accessible and highly engaging account of Roman private law and civil procedure, with coverage of all key topics, including the Roman legal system, and the law of persons, property, and obligations. The author sets the law in its social and historical context, and demonstrates the impact of Roman law on our modern

legal systems. For the fifth edition, Paul du Plessis has included references to a wide range of scholarly texts, to ground his judicious account of Roman law firmly in contemporary scholarship. He has also added examples from legal practice, as well as truncated timelines at the start of each chapter to illustrate how the law developed over time. The book contains a wealth of learning features, including chapter summaries, diagrams and maps. A major feature of the book is the inclusion throughout of extracts in translation from the most important sources of Roman law: the Digest and the Institutes of Justinian. Annotated further reading sections at the end of each chapter act as a guide to further enquiry. Online Resource Centre The book is accompanied by an extensive Online Resource Centre, containing the following resources: -Self-test multiple choice questions -Interactive timeline -Biographies of key figures -Glossary of Latin terms -Annotated web links -Original Latin versions of the extracts from the Digest and the Institutes of Justinian -Examples of textual analysis of Roman law texts -Guide to the literature and sources of Roman law

Perspectives on International Relations

The focus of this law school casebook is on constitutional law as it relates to the conduct of foreign relations, primarily with that subfield dealing with the "separation of powers." Foreign relations law refers to the rules, principles, practices and procedures which structure the formation and execution of U.S. foreign policy, including its participation in international law and institutions.

Individual Responsibility in International Law for Serious Human Rights Violations

When you want sweeping coverage of current foreign policy issues as well as solid treatment of the basic concepts and doctrines of contemporary public international law, this accessible casebook is your best source. Carefully revised for its Third Edition, INTERNATIONAL LAW now features a broader viewpoint within a more concise presentation. This cohesive casebook teaches the current state of the law as well as its prevailing principles. Be sure to examine this modern and effective book before your next course. Carter and Trimble build on their book's recognized strengths: a balanced combination of cases, excerpts, notes, questions, and other materials a distinctively accessible style, with clear organization, relevant cases and problems an effective blend of current issues and materials alongside traditional theories and concepts an examination of the often stressful relationship between international and domestic law, and public and private law a thorough teaching package, complete with a Teacher's Manual and documents supplement INTERNATIONAL LAW, Third Edition, offers a wealth of new material including in-depth discussions on: non-American perspectives international human rights - individual responsibility, war crimes, and individual culpability international environmental agreements - the Kyoto Protocol on global warming the growth of international dispute resolution revised examples, topics, and cases that reflect recent developments

A Modern Introduction to International Law

If you want a solid and fascinating casebook for a survey course in international law, this thorough revision will meet your needs. International Law, Fourth Edition, covers the core topics, basic doctrines, and a broad range of foreign policy issues relevant to contemporary courses. To make their casebook as engaging as it is enlightening, The authors: present current issues and materials alongside traditional theories and concepts offer a balanced combination of cases excerpts, notes, questions, and other disciplinary materials representing a variety of perspectives build from the foundations of international law - such as its sources, The role of state and other entities, and jurisdictions, To the more sophisticated topics, such as state and individual responsibility in such areas as human rights And The use of force keep their presentation accessible, with a clear organization and relevant cases and problems analyze the relationships between international and domestic law, and between public and private law the Fourth Edition keeps pace with a wide range of developments through a new case study in Chapter 1 on the international law and policy implications of the September 11 attacks And The U.S. And world response To The attacks and to terrorism generally, including the situation with Iraq incorporating materials on the implications of September 11 throughout the book, including new doctrines regarding the use of force new cases, including Crosby v. National Foreign Trade Council; Breard v. Greene; Kadic v. Karadzic; Yahoo! Inc. v. La Ligue Contre Le Racisme et L'Antisemitisme; Made in the USA Foundation v. United States; in re LeGrand; and Republic of Congo v. Belgium significant updates To The European Union sections, including the 2000 Nice Treaty And The new Charter of Fundamental Human Rights

Understanding Administrative Law

This reference book encompasses a wide selection of cases, materials and background information on public international law, together with informed commentary. This edition contains full consideration of the impact of events in the former Yugoslavia, the role of the United Nations in peace keeping, and on the use of force. It also contains a rewritten chapter on the Law of the Sea, to reflect changes arising from the 1994 Convention on the Law of the Sea.

Criminal Procedures

International Human Rights examines the ways in which states and other international actors have addressed human rights since the end of World War II. This unique textbook features substantial attention to theory, history, international and regional institutions, and the role of transnational actors in the protection and promotion of human rights. Its purpose is to explore the difficult and contentious politics of human rights, and how those political dimensions have been addressed at the national, regional, and especially international levels. The fifth edition is substantially updated, rewritten, and revised throughout, including updates on multilateral institutions (especially the UN's Universal Periodic Review process and the Human Rights Council's Special Procedures mechanisms), regional systems, human rights in foreign policy (including a specific chapter on U.S. foreign policy), humanitarian intervention and the "responsibility to protect," and (anti)terrorism and human rights. The book also includes a new chapter on the unity (indivisibility) of human rights. Chapters include discussion questions, case studies for in-depth examination of topics (including new case studies on the U.N. Special Procedures,

Myanmar, and Israeli settlements in West-Bank Palestine), and ten "problems" (including new entries on the war in Syria and hierarchies between human rights) tailored to promote classroom discussion.

Principles of Public International Law

This Fifth Edition of Public International Law in a Nutshell is a concise yet accurate summary of the field of public international law, covering its basic sources, actors, and procedures, and key subject matter areas, such as human rights, the law of the sea, international environmental law, the law of war, and U.S. foreign relations law. This edition is fully updated to include recent treaties, institutions, and Supreme Court decisions. The book is intended to be helpful for students, scholars, and practitioners alike.

International Law

"International Trade Law offers comprehensive analysis of international sale transactions through case law, policy documents, legislation, international conventions and rules adopted by international organisations such as the ICC."--

International Law, 2013-2015

International Law

This book offers a carefully tailored overview of the subject, divided into four sections that cover sources and theories, institutions and structures, major themes and a new concluding section on the challenges for law in this area. The third edition is fully updated to include all key developments, in particular issues around torture, terrorism and international criminal law. Designed to guide students through the fundamental texts, author commentary contextualises each extract, while highlighted further reading thought links the materials to academic commentary to provide next steps for student research. Offering a clear text design that distinguishes between materials and author commentary, and including reflective questions throughout to aid understanding, this book is ideal for students seeking to engage with the key issues in the study of International Human Rights.

Cases and Commentary on International Law

The definitive and authoritative international law text, updated to reflect key case law, international practice and treaty developments.

Oppenheim's International Law: United Nations

External controls on administrative agencies : the legislative branch -- External controls on administrative agencies : the executive branch -- The exercise of agency power -- Agency decision-making : the constitutional limitations -- Agency decision-making : choosing rule or order -- Rulemaking.

Administrative Law in the Political Sys

The fifth edition of this widely used textbook combines narrative explanatory sections that set forth the basic law together with cases, treaties, international documents, questions and problems. Epps focuses on the central problems of international law and how it operates and encourages students to work through a number of questions and problems that are presented in a variety of international contexts. The book's coverage is comprehensive, including recent materials and cases on sources, treaties, jurisdiction, immunities, extradition, the law of the sea, environmental law, international courts and tribunals, the status of international entities, human rights, international criminal law, terrorism, and the laws of war. There is also a set of power point slides to accompany the text distributed free to any faculty member who adopts the book for a course. Faculty will find that the questions posed after every case, or other materials, provide a very useful template for getting students to focus on the essential meaning and implications of the cases and materials. The problems are designed to test students' abilities to combine what they have learned throughout a chapter to come up with a comprehensive answer.

Cases and Materials on International Law

International Law is a concise paperback that is an ideal student companion guide to any law school casebook on international law. Clearly written and thoughtfully organized around three key concepts, this text orients students in the basics of international law while providing broad coverage of contemporary public policy issues shaping international relations.

Fundamental Perspectives on International Law

Criminal Procedures: Cases, Statutes, and Executive Materials 2016 Supplement

International Commercial Law

First published in 2002. Routledge is an imprint of Taylor & Francis, an informa company.

Akehurst's Modern Introduction to International Law

Introduces the history and nature of international law, and examines the sources of international law-treatise, custom, general principles, jus cogens, and equity. Also covers important fields of international law: individuals and human rights; recognition and self-determination; war and peace and the United Nations; Antarctica, outer space, the law of the sea, and international environmental laws; and international conflict of laws, foreign sovereign immunity, and act of state.

International Law

Third edition text exploring international trade and commercial law first published in 1995. This edition has been updated to include the latest changes to the law in

this area. Discusses international sales of goods under domestic law, contracts of sale under the CISG, contracts relating to intellectual property, contracts for carriage by sea, air and land, means of payment in international trade, international banking and finance, marine insurance, aviation insurance and international trade, foreign investment law, the WTO, regional trade organizations, international commercial litigation and conflict of laws, and alternative means of settling international commercial disputes. Includes table of cases, footnotes and index. Author is Barrister of the Supreme Courts of Queensland and Victoria.

International Law

Texts and Materials on International Human Rights

A concise but thorough resource, the guide provides a time-saving reference for the latest case law, and the most recent legislation affecting rulemaking.

International Law

What rules of international law make the individual, even a Head of State, responsible for perpetrating serious human rights violations, such as war crimes, torture or genocide? This question is becoming more critical in our increasingly interdependent world, and the recent invasion of Kuwait and the brutalization of its people by Iraqi leader Saddam Hussein has heated up the debate even further. The author argues that a new rule of international law stipulating individual responsibility for all serious human rights violations is currently emerging. To show how this is coming about, he explores relevant norms in classic laws of war, international humanitarian law and modern international human rights law and surveys patterns in their implementation. He then takes account of codification efforts of the International Law Commission, the changing position of the individual in international law, and other important developments in the context of general international law as an evolving system.

Textbook on International Law

Designed for an undergraduate course in international law, the text may also supplement International Relations, Foreign Policy, International Affairs, World Politics, and Comparative Law courses. A mix of commentary, edited cases, and problems are included. Revisions include three new chapters: International Organizations (Ch. 3), Individuals and Corporations (Ch. 4), and International Environment (Ch. 12). Career Opportunities in International Law is the new Appendix 3. Exhibits graphically illustrating chapter concepts have been added as well as expanded coverage of Sources (Ch. 1), Dispute Resolutions (Ch. 9), and International Business (Ch. 3).

Oxford Textbook of Global Public Health

Emphasizing that administrative law must be understood within the context of the political system, this core text combines a descriptive systems approach with a

social science focus. Author Kenneth F. Warren explains the role of administrative law in shaping, guiding, and restricting the actions of administrative agencies. Providing comprehensive coverage, he examines the field not only from state and federal angles, but also from the varying perspectives of legislators, administrators, and the public. Substantially revised, the fifth edition features approximately one hundred new and current cases that place administrative law in the context of the Obama administration. Each chapter concludes with an edited exemplary case that highlights major themes and helps students understand important points made in the chapter. Using straightforward prose and avoiding unnecessary legal jargon, *Administrative Law in the Political System*, fifth edition provides students with an informed and accessible overview of a difficult subject matter.

International Law

Cases & Materials on International Law is a topical and engaging companion for study, offering broad coverage on public international law and placing disputes directly within the context of contemporary debate. The book contains the essential cases and materials that students need in order to fully understand and analyse the international legal system, drawing on a truly global range of jurisdictions and sources. Expert author commentary and notes place selected extracts within the wider legal framework and explain the complexities of the principles of law to students. The sixth edition includes expanded discussion of developing areas, including UN resolutions on climate change and international environmental law, new material from the International Law Commission, and coverage of major events, such as the annexation of Crimea, the legal context for Scottish independence and the UK's exit from the European Union, and the United Nations Security Council's Resolution on Malaysia Airlines MH17.

National Security Law

Perspectives on International Relations: Power, Institutions, and Ideas shows students new to the field how theories (perspectives) of international affairs—realism, liberalism, constructivism (identity), and critical theory—play a decisive role in explaining every-day debates about world affairs. Why, for example, do politicians and political scientists disagree about the causes of the ongoing conflict in Syria, even though they all have the same facts? Or, why do policymakers disagree about how to deal with North Korea when they are all equally well informed? The new Sixth Edition of this best-seller includes updates on Brexit, the rise of Donald Trump and other populist leaders, and continuing developments for ISIS, Syria, and Russia.

War, Aggression and Self-Defence

The United Nations, whose specialized agencies were the subject of an Appendix to the 1958 edition of Oppenheim's *International Law: Peace*, has expanded beyond all recognition since its founding in 1945. This volume represents a study that is entirely new, but prepared in the way that has become so familiar over succeeding editions of Oppenheim. An authoritative and comprehensive study of the United

Nations' legal practice, this volume covers the formal structures of the UN as it has expanded over the years, and all that this complex organization does. All substantive issues are addressed in separate sections, including among others, the responsibilities of the UN, financing, immunities, human rights, preventing armed conflicts and peacekeeping, and judicial matters. In examining the evolving structures and ever expanding work of the United Nations, this volume follows the long-held tradition of Oppenheim by presenting facts uncoloured by personal opinion, in a succinct text that also offers in the footnotes a wealth of information and ideas to be explored. It is book that, while making all necessary reference to the Charter, the Statute of the International Court of Justice, and other legal instruments, tells of the realities of the legal issues as they arise in the day to day practice of the United Nations. Missions to the UN, Ministries of Foreign Affairs, practitioners of international law, academics, and students will all find this book to be vital in their understanding of the workings of the legal practice of the UN. Research for this publication was made possible by The Balzan Prize, which was awarded to Rosalyn Higgins in 2007 by the International Balzan Foundation.

Basic Documents Supplement to International Law

Yoram Dinstein's influential textbook is an indispensable guide to the legal issues of war and peace, armed attack, self-defence and enforcement measures taken under the aegis of the Security Council. This fifth edition incorporates recent treaties such as the Kampala amendments of the Statute of the International Criminal Court, new case law from the International Court of Justice and other tribunals, and contemporary doctrinal debates. Several new supplementary sections are also included, which take into account recent conflicts around the world, and consideration is given to new resolutions of the Security Council. With many segments having been rewritten to reflect recent State practice, this book remains a wide-ranging and highly readable introduction to the legal issues surrounding war and self-defence.

International Dispute Settlement

In a fairly succinct treatment, FUNDAMENTAL PERSPECTIVES ON INTERNATIONAL LAW provides a unique mix of cases, articles, documents, text, charts, tables, and questions. The key concepts of international law are introduced through thoroughly up-to-date content. Important cases are continually updated on the author's website. The text is complemented by numerous review problems. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

International Law

Updated with an emphasis on current issues, this classic casebook emphasizes developments in international law, with expertly edited cases and problems for class discussion. Cases and Materials on International Law offers a treatment of the subject for introductory and advanced classes and detailed readings and reference materials for those who wish to pursue topics in depth. The fourth edition enriches every chapter with new information on institutions contributing to the sources and

enforcement of international law, including the World Trade Organization, the International Criminal Tribunals for Yugoslavia and Rwanda, the prospective International Criminal Court, and organizations in the fields of law of the sea and arms control. International criminal law now has a chapter of its own, and the casebook gives expanded treatment to human rights, environmental law, and economic law.

A Guide to Federal Agency Rulemaking

Sixth edition of the hugely successful, internationally recognised textbook on global public health and epidemiology, with 3 volumes comprehensively covering the scope, methods, and practice of the discipline.

International Human Rights

A guide to the techniques and institutions used to solve international disputes, how they work and when they are used. This textbook looks at diplomatic (negotiation, mediation, inquiry and conciliation) and legal methods (arbitration, judicial settlement). It uses many, often topical, examples of each method in practice to place the theory of how things should work in the context of real-life situations and to help the reader understand the strengths and weaknesses of different methods when they are used. It also looks at organisations such as the International Court and the United Nations and has been fully updated to include the most recent arbitrations, developments in the WTO and the International Tribunal for the Law of the Sea, as well as case law from the International Court of Justice.
