A Day No Pigs Would Die

Sydney Taylor Award-winning novel Berlin Boxing Club is loosely inspired by the true story of boxer Max Schmeling's experiences following Kristallnacht. Publishers Weekly called it "a masterful historical novel" in a starred review. Karl Stern has never thought of himself as a Jew; after all, he's never even been in a synagogue. But the bullies at his school in Nazi-era Berlin don't care that Karl's family doesn't practice religion. Demoralized by their attacks against a heritage he doesn't accept as his own, Karl longs to prove his worth. Then Max Schmeling, champion boxer and German hero, makes a deal with Karl's father to give Karl boxing lessons. A skilled cartoonist, Karl has never had an interest in boxing, but now it seems like the perfect chance to reinvent himself. But when Nazi violence against Jews escalates, Karl must take on a new role: family protector. And as Max's fame forces him to associate with Nazi elites, Karl begins to wonder where his hero's sympathies truly lie. Can Karl balance his boxing dreams with his obligation to keep his family out of harm's way? Includes an author's note and sources page detailing the factual inspirations behind the novel.

Jack London (1876-1916) was an American writer and social activist. He grew up in the working class, but became a worldwide celebrity and one of the highest paid authors of his time. He wrote several novels, which are considered classics today, among these 'Call of the Wild', 'Sea Wolf' and 'White Fang'.

Anna of Byzantium

The highly acclaimed first edition of this major work convincingly established Gerald Holton's analysis of the ways scientific ideas evolve. His concept of "themata," induced from case studies with special attention to the work of Einstein, has become one of the chief tools for understanding scientific progress. It is now one of the main approaches in the study of the initiation and acceptance of individual scientific insights. Three principal consequences of this perspective extend beyond the study of the history of science itself. It provides philosophers of science with the kind of raw material on which some of the best work in their field is based. It helps intellectual historians to redefine the place of modern science in contemporary culture by identifying influences on the scientific imagination. And it prompts educators to reexamine the conventional concepts of education in science. In this new edition, Holton has masterfully reshaped the contents and widened the coverage. Significant new material has been added, including a penetrating account of the advent of quantum physics in the United States, and a broad consideration of the integrity of science, as exemplified in the work of Niels Bohr. In addition, a revised introduction and a new postscript provide an updated perspective on the role of themata. The result of this thoroughgoing revision is an indispensable volume for scholars and students of scientific thought and intellectual history.

The day Chrysta Perretti runs away from her crazy parents in Benton, Illinois, she feels she's angry enough to stay on the road forever. But two years later, when the car she's in suddenly breaks down in a small Arkansas town, Chrysta's road fever dies too, and something new is born: something tells her that it's possible to start over and she doesn't have to be alone. In Excelsior Springs, Chrysta comes to learn the power of lasting friendships, for it is because of her newfound friends that she just might survive a dark, unexpected, and dangerous new episode in her life. Crescent Dragonwagon and Pulitzer Prize winner Paul Zindel explore what happens when a thirteen-year-old runaway dares to stop running and learns to face the good - and the bad - in herself.

The Doom Stone

For fans of Joan of Arc and Alexander the Great, comes "a gripping saga of alliances, intrigues, deceits, and treacheries" about Anna Comnena of the Byzantine Empire. Anna Comnena has every reason to feel entitled. She's a princess, her father's firstborn and his chosen successor. Someday she expects to sit on the throne and rule the vast Byzantine Empire. So the birth of a baby brother doesn't perturb her. Nor do the "barbarians" from foreign lands, who think only a son should ascend to power. Anna is as dismissive of them as are her father and his most trusted adviser--his mother, a manipulative woman with whom Anna studies the art of diplomacy. Anna relishes her lessons, proving adept at checkmating opponents in swift moves of mental chess. But as she matures into a young woman, her arrogance and intelligence threaten her grandmother. Anna will be no one's puppet. Almost overnight, Anna sees her dreams of power wrenched from her and bestowed on her little brother. Bitter at the betrayal, Anna waits to avenge herself, and to seize what is rightfully hers. Pygmalion in the Classroom

Perfectly evoking the sights and sounds of the summer of 1978 in Brooklyn, Suzanne Corso makes an acclaimed fiction debut with this powerful coming-of-age tale, told from an adult perspective, of family, best friends, first loves, and big dreams waiting to come true. Samantha Bonti is fifteen years old, half Jewish and half Italian, and hesitantly edging toward pure Brooklyn. She lives in Bensonhurst with her mother, Joan, a woman poisoned with cynicism and shackled by addictions; and with her Grandma Ruth, Samantha's loudest and most opinionated source of encouragement. As flawed as they are, they are family. And this is home—a tight-knit community of ancestors and traditions, of controlling mobsters, compliant wives, and charismatic young guys willing to engage in anything illegal to get a shot at playing with the big boys. Yet Samantha has something that even her most simpatico girlfriend, Janice Caputo, doesn't share—a desire to become a writer and to escape their insular, overcrowded little world and the destiny that is

assumed for all of them. Then comes Tony Kroon. He's a gorgeous mobster wannabe, a Bensonhurst Adonis whose seductive charms Samantha finds irresistible—even when she knows she's too smart to fall this deep . . . but Samantha soon finds herself swallowed up by dangerous circumstances that threaten to jeopardize more than her dreams. Grandma Ruth's advice: Samantha had better write herself out of this story and into a new one, fast.

"Eight hundred and fifty-three horrifying things had happened to me by the time I was a teenager. That was when I met my Pigman, whose real name was Nonno Frankie." The year Paul Zindel, his sister, Betty, and their mother lived in the town of Travis, Staten Island, New York, was the most important time of his teenage life. It was the year he and Jennifer Wolupopski were best friends. It was the year of the apple tree, the water-head baby, and Cemetery Hill. And it was the year he met Nonno Frankie Vivona, who became his Pigman. Every word of his story is true. And *The Pigman & Me* has an added bonus--one crucial piece of information: the secret of life, according to the Pigman.

The breakthrough modern sports novel *The Contender* shows readers the true meaning of being a hero. This acclaimed novel by celebrated sportswriter Robert Lipsyte, the recipient of the Margaret A. Edwards Award for lifetime achievement in YA fiction, is the story of a young boxer in Harlem who overcomes hardships and finds hope in the ring on his path to becoming a contender. Alfred Brooks is scared. He's a high-school dropout, and his grocery store job is leading nowhere. His best friend is sinking further and further into drug addiction. Some street kids are after him for something he didn't even do. So Alfred begins going to Donatelli's Gym, a boxing club in Harlem that has trained champions. There he learns it's the effort, not the win, that makes the boxer—that before you can be a champion, you have to be a contender. A Note About A Few Of The Many Different Assignments Included: In the group activity, students work in small groups to discuss several important aspects of the play. Using the information they have acquired so far through individual work and class discussions, students get together to further examine the text and to brainstorm ideas relating to five specific aspects of the play. Also, two lessons are devoted to creating and performing a scene in which Abigail is on trial for being the cause of death for those who died during the witch trials. There are three writing assignments in this unit, each with the purpose of informing, persuading, or expressing personal opinions. The detailed writing assignment sheets guide students through the assignments. The first assignment is to inform: students write a composition based upon their theme topics. The second assignment is to persuade: students are given a choice of letters to write from one character to another, persuading him or her of something (stated in the assignment sheet). The third assignment is to give students a chance to simply express their own opinions: following the unit test, students write a composition explaining who, in their opinion, is responsible for the Salem witch trials.

Americans Move Westward 1800-1850

It has been alleged that few American students can use their knowledge effectively in thinking and reasoning. This study urges teachers to give more attention to student abilities in analyzing, classifying, comparing, formulating hypotheses, and drawing conclusions--that is, thinking skills essential to reasoning processes. Designed to familiarize secondary classroom teachers with one model of instruction for developing students' reasoning abilities, this book gives practical assistance in learning how to use the inductive approach, a teaching approach that actively involves students in the use of their own reasoning while learning content area material. Each chapter of the book includes a section that asks readers to recall experience pertinent to the material in the chapter, a set of questions to answer as the material is read, and a series of activities designed to lead readers through the developmental stages of the learning process. Chapters of the book are: (1) What is the inductive approach? (2) Why use the inductive approach? (3) How to use the inductive approach for concept development; (4) How to use the inductive approach for principle formation; (5) Inductive reasoning in English; (6) Inductive reasoning in mathematics; (7) Inductive reasoning in science; and (8) Inductive reasoning in social studies.
