The Watsons Go to Birmingham--1963

'Performance' has become one of the key terms for the new century. But what do we mean by 'performance'? In today's world it can refer to experimental art; productivity in the workplace; and the functionality of technological systems. Do these disparate fields bear any relation to each other? In *Perform or Else* Jon McKenzie asserts that there is a relationship cultural, organisational, and technological performance. In this theoretical tour de force McKenzie demonstrates that all three paradigms operate together to create powerful and contradictory pressures to 'perform or else'. This is an urgent and important intervention in contemporary critical thinking. It will profoundly shape our understanding of twenty-first century structures of power and knowledge.

When You Reach Me

An Orbis Pictus Honor Book for Outstanding Nonfiction 2019
In this important and moving true story of reconciliation after war, beautifully illustrated in watercolor, a Japanese pilot bombs the continental U.S. during WWII—the only enemy ever to do so—and comes back 20 years later to apologize. The devastating attack on Pearl Harbor, Hawaii, drew the United States into World War II in 1941. But few are aware that several months later, the Japanese pilot Nobuo Fujita dropped bombs in the woods outside a small town in coastal Oregon. This is the story of those bombings, and what came after, when Fujita returned to Oregon twenty years later, this time to apologize. This remarkable true story, beautifully illustrated in watercolor, is an important and moving account of reconciliation after war.

Magicttrue magicthe power to change the outcome of events and to reshape the world, is something most of us have wished for at one time or another. We all think it might make the difficulties of every day struggles in a cold and uncaring world easier by some degree. Jericho Germanicus could counsel us on such a misbegotten desire; because he knows at least one thing we do not. Covetous power is coveted, and as part of the bargain of having magic, is dealing with those who would, driven by greed, take it at any price. As our story begins Amber Germanicus, Jericho's granddaughter is about to turn 11 years old, and about to awaken to the magic long bred into their family line. To harbor the family gift so special that that it has been sought by a dark and sinister cult named The Silent Legacy for over a decade, Jericho Germanicus has had to live in hiding raising his granddaughter in secrecy and has had to keep the secret of her magic even from her. When magic becomes a threat to family, there are choices that must be made; there are sacrifices which must be made. To save the life of Amber, Jericho, knowing that the fates must keep an even balance within the universe, knows a life must be demandedJericho chooses to lay down his own. He had devoted many years of research and study into finding a way to keep the Silent Legacy from stealing Amber's giftthe family giftand believes that he has found the only answer in his epic plan of self-sacrifice, but even that depends on the cooperation of Madame Zadia Gray, a carnival sideshow psychic. He has given Amber all of the knowledge he can without exposing the secret of her magic. He has found unlikely allies in Madame Zadia and the members of a carnival sideshow to help him carry out his plan. And he has chosen to bear the price of his own life to see it through. All too soon, and a moment too late, Jericho finds that he has been a pawn of the Silent Legacy all along, because they sought a much bigger prize than just his granddaughterand he has been the vehicle for them to accomplish itin fact he has placed them within reach of commanding all magic yet alive in the secret corners of the worldif he could let his allies know this before he is taken, they might make much better decisionsbut he cannotwhich is perfectly according to the Silent Legacy's plan. As the fates would have it, there are things which are even beyond magicthings that course through the minds and the hearts of everyday man. There are memories of broken paststhere are losses and regrets which lie quietly behind the eyesthere are bonds and trusts which will not be broken because some people have felt the pain of loss before and simply could not bear it again. What the greatest wizard in the world could not weigh the value of, is second nature to those who are named freaks in a carnival side show, shunned of society, scoffed at, and considered less than human by even the least of society. What possibility tomorrow holds has been delivered into the hands of the psychic, a strong man, a dwarf, a dog-faced boy, and the young Amber Germanicus. Each untrained in the arts of magicburdened by past failures and regretsaware that the enemy is much larger and more powerful than he or she could even hope to be. The one thing that all can agree upon is that sideshow families stick together, and that Jericho has bound himself to the family. They must save himor die trying. Set before them is a monumental task with little hope of success, and they quickly know, even as they walk into it, that not everyone will not all come out of this unchangedas a matter of fact not everyone will make it out unscarrednot everyone will make it out alive.

"Like *A Wrinkle in Time* (Miranda's favorite book), *When You Reach Me* far surpasses the usual whodunit or sci-fi adventure to become an incandescent exploration of 'life, death, and the beauty of it all.'" —The Washington Post This Newbery Medal winner that has been called "smart and mesmerizing," (The New York Times) and "superb" (The Wall Street Journal) will appeal to readers of all types, especially those who are looking for a thought-provoking mystery with a mind-blowing twist. Shortly after a fall-out with her best friend, sixth grader Miranda starts receiving mysterious notes, and she doesn't know what to do. The notes tell her that she must write a letter—a true story, and that she can't share her mission with anyone. It would be easy to ignore the strange messages, except that whoever is leaving them has an uncanny ability to predict the future. If that is the case, then Miranda has a big problem—because the notes tell her that someone is going to die, and she

There is no lake at Camp Green Lake. But there are an awful lot of holes. It doesn't take long for Stanley to realize there's more than character improvement going on at Camp Green Lake. What the Eyes Don't See

A NEW YORK TIMES NOTABLE BOOK • The dramatic story of the Flint water crisis, by a relentless physician who stood up to power. "Stirring . . . [a] blueprint for all those who believe . . . that 'the world . . . should be full of people raising their voices.'"—The New York Times "Revealing, with the gripping intrigue of a Grisham thriller." —O: The Oprah Magazine Here is the inspiring story of how Dr. Mona Hanna-Attisha, alongside a team of researchers, parents, friends, and community leaders, discovered that the children of Flint, Michigan, were being exposed to lead in their tap water—and then battled her own government and a brutal backlash to expose that truth to the world. Paced like a scientific thriller, *What the Eyes Don't See* reveals how misguided austerity policies, broken democracy, and callous bureaucratic indifference placed an entire city at risk. And at the center of the story is Dr. Mona herself—an immigrant, doctor, scientist, and mother whose family's

activist roots inspired her pursuit of justice. What the Eyes Don't See is a riveting account of a shameful disaster that became a tale of hope, the story of a city on the ropes that came together to fight for justice, self-determination, and the right to build a better world for their—and all of our—children. Praise for What the Eyes Don't See “It is one thing to point out a problem. It is another thing altogether to step up and work to fix it. Mona Hanna-Attisha is a true American hero.”—Erin Brockovich “A clarion call to live a life of purpose.”—The Washington Post “Gripping . . . entertaining . . . Her book has power precisely because she takes the events she recounts so personally. . . . Moral outrage present on every page.”—The New York Times Book Review “Personal and emotional. . . She vividly describes the effects of lead poisoning on her young patients. . . . She is at her best when recounting the detective work she undertook after a tip-off about lead levels from a friend. . . . ‘Flint will not be defined by this crisis,’ vows Ms. Hanna-Attisha.”—The Economist “Flint is a public health disaster. But it was Dr. Mona, this caring, tough pediatrician turned detective, who cracked the case.”—Rachel Maddow

Perform or Else

The chilling truth is that his story could have been mine. The tragedy is that my story could have been his. Two kids named Wes Moore were born blocks apart within a year of each other. Both grew up fatherless in similar Baltimore neighborhoods and had difficult childhoods; both hung out on street corners with their crews; both ran into trouble with the police. How, then, did one grow up to be a Rhodes Scholar, decorated veteran, White House Fellow, and business leader, while the other ended up a convicted murderer serving a life sentence? Wes Moore, the author of this fascinating book, sets out to answer this profound question. In alternating narratives that take readers from heart-wrenching losses to moments of surprising redemption, *The Other Wes Moore* tells the story of a generation of boys trying to find their way in a hostile world. **BONUS:** This edition contains a new afterword and a *The Other Wes Moore* discussion guide. Praise for *The Other Wes Moore* “Moving and inspiring, *The Other Wes Moore* is a story for our times.”—Alex Kotlowitz, author of *There Are No Children Here* “A tense, compelling story and an inspirational guide for all who care about helping young people.”—Juan Williams, author of *Enough* “This should be required reading for anyone who is trying to understand what is happening to young men in our inner cities.”—Geoffrey Canada, author of *Fist Stick Knife Gun* “*The Other Wes Moore* gets to the heart of the matter on faith, education, respect, the hard facts of incarceration, and the choices and challenges we all face. It’s educational and inspiring.”—Ben Carson, M.D., author of *Gifted Hands* “Wes Moore is destined to become one of the most powerful and influential leaders of this century. You need only read this book to understand why.”—William S. Cohen, former U.S. senator

and secretary of defense “This intriguing narrative is enlightening, encouraging, and empowering. Read these words, absorb their meanings, and create your own plan to act and leave a legacy.”—Tavis Smiley, from the Afterword

The Saturday Review of Politics, Literature, Science and Art

We all are faced with daily choices and decisions that impact our time and ultimately our life. It is the small decisions we make day in and day out that determine who we really are. The large decisions may scream for attention yet they are just the result of all the small decisions we have made or avoid making that brought us to that point in life. The decision to make the study of the Bible a part of a person's life is in many ways one of the small choices we make every day. It takes a few minutes of our time. It takes a small amount of commitment. It requires very little real effort and yet it seems so difficult for so many people to include the Word of God in their daily lives. THE STORY UNFOLDS is designed to help the individual as they make a personal journey through the Word of God. Designed as a companion to The Story published by Zonderan. THE STORY UNFOLDS looks at the world from two distinct and important points of views. THE STORY UNFOLDS looks at the world from God's point of view. As the creator and the adult in the garden it examines his role in the development and ultimately the redemption of mankind. The second view is from the perspective of humanity. They often are like disobedient children unwilling to listen but who want everything given to them anyway. In the end their redemption hinges on their willingness to accept God's direction and plans for their lives. The Story Unfolds is a must read for anyone seeking to understand the Bible and the reason God has done so much to reach out to help his creation find their way back to his original plan for them. Each person needs to be able to answer three simple questions that God first asked in the garden to Eve and Adam. THE STORY UNFOLDS will help you discover the answer to these three questions and give you the opportunity to discover the living God who has revealed himself from his word. Bob Highlands III

The American Vision

A leading international security strategist offers a compelling new way to "think about the unthinkable." The cold war ended more than two decades ago, and with its end came a reduction in the threat of nuclear weapons—a luxury that we can no longer indulge. It's not just the threat of Iran getting the bomb or North Korea doing something rash; the whole complexion

of global power politics is changing because of the reemergence of nuclear weapons as a vital element of statecraft and power politics. In short, we have entered the second nuclear age. In this provocative and agenda-setting book, Paul Bracken of Yale University argues that we need to pay renewed attention to nuclear weapons and how their presence will transform the way crises develop and escalate. He draws on his years of experience analyzing defense strategy to make the case that the United States needs to start thinking seriously about these issues once again, especially as new countries acquire nuclear capabilities. He walks us through war-game scenarios that are all too realistic, to show how nuclear weapons are changing the calculus of power politics, and he offers an incisive tour of the Middle East, South Asia, and East Asia to underscore how the United States must not allow itself to be unprepared for managing such crises. Frank in its tone and farsighted in its analysis, *The Second Nuclear Age* is the essential guide to the new rules of international politics.

A 2018 Caldecott Honor Book that Kirkus Reviews calls "a must-read for our times," *A Different Pond* is an unforgettable story about a simple event - a long-ago fishing trip. Graphic novelist Thi Bui and acclaimed poet Bao Phi deliver a powerful, honest glimpse into a relationship between father and son - and between cultures, old and new. As a young boy, Bao and his father awoke early, hours before his father's long workday began, to fish on the shores of a small pond in Minneapolis. Unlike many other anglers, Bao and his father fished for food, not recreation. A successful catch meant a fed family. Between hope-filled casts, Bao's father told him about a different pond in their homeland of Vietnam. Thi Bui's striking, evocative art paired with Phi's expertly crafted prose has earned this powerful picture books six starred reviews and numerous awards.

Fun with Oldies

Ten original essays by advanced scholars and well-published poets address the middle generation of American poets, including the familiar---Robert Lowell, Elizabeth Bishop, Randall Jarrell, and John Berryman---and various important contemporaries: Delmore Schwartz, Theodore Roethke, Robert Hayden, and Lorine Niedecker. This was a famously troubled cohort of writers, for reasons both personal and cultural, and collectively their poems give us powerful, moving insights into American social life in the transforming decades of the 1940s through the 1960s. In addition to having worked during the broad middle of the last century, these poets constitute the center of twentieth-century American poetry in the larger sense, refuting invidious connotations of “middle” as coming after the great moderns and being superseded by a proliferating postmodern experimentation. This middle generation mediates the so-called American century and its prodigious body of poetry, even as it complicates historical and aesthetic categorizations. Taking diverse formal and thematic angles on these poets---biographical-historical, deconstructionist, and more formalist accounts---this book re-examines their between-ness and ambivalence: their various positionings and repositionings in aesthetic, political, and personal matters. The essays study the interplay between these writers and such shifting formations as religious discourse, consumerism, militarism and war, the ideology of America as “nature's nation,” and U.S. race relations and ethnic conflicts. Reading the Middle Generation Anew also shows the legacy of the middle generation, the ways in which their lives and writings continue to be a shaping force in American poetry. This fresh and invigorating collection will be of great interest to literary scholars and poets.
