This book answers all your questions on the basics of inspection and testing with clear reference to the latest legal requirements. Chris Kitcher not only tells you what tests are needed but also describes all of them step-by-step with the help of real-world colour photos. Sample forms show how to verify recorded test results and how to certify and fill in the required documentation. The book is also packed with handy advice on how to avoid and solve common problems encountered on the job. With its focus on the practical side of the actual inspection and testing rather than just the requirements of the regulations, this book is ideal for students, experienced electricians and those working in allied industries on domestic and industrial installations. All the theory required for passing the City & Guilds 2391-10 and 2392-10 Certificates is explained in clear, easy to remember language along with sample questions and scenarios as encountered in the exams. The book will also help prepare students on Part P Competent Person courses, City & Guilds 2330 Level 3 courses, NVQs and apprenticeship programmes for their practical inspection and testing exam. Chris Kitcher has 45 years of experience in the electrical industry. He is an Electrical Installation lecturer at Central Sussex College and an examiner for the City and Guilds 2391 qualification. He has worked for the last 12 years in

This is the second volume of Labour Migration in Asia. This volume describes and makes an assessment of specific initiatives in selected countries of origin to (1) protect migrant workers through the regulation of recruitment and setting of minimum standards in employment contracts; (2) provide support services to migrant workers through pre-departure orientation and a welfare fund, and (3) enhance the development benefits of labour migration through training, skills development and remittances. The articles are written by labour migration specialists and practitioners from the countries concerned and have been commissioned by IOM, the Department for International Development and the Asian Development Bank.

This book explores schools and how they can function as social institutions that advance the interests and life chances of all young people, especially those who are already the most marginalized and at an educational disadvantage. Social justice is a key theme as the book examines the needs of youth, the concept of school culture, school/community relations, socially critical pedagogy, curriculum and leadership and a socially critical approach to work. The Socially Just School is based upon four decades of intensive writing and researching of young lives. This work presents an alternative to the damaging school

reform in which schools are made to serve the interests of the economy, education systems, the military, corporate or national interests. Readers will discover the hallmarks of socially just schools: - They educationally engage young people regardless of class, race, family or neighbourhood location and they engage them around their own educational aspirations. - They regard all young people as being morally entitled to a rewarding and satisfying experience of school, not only those whose backgrounds happen to fit with the values of schools. - They treat young people as having strengths and being 'at promise' rather than being 'at risk' and with 'deficits' or as 'bundles of pathologies' to be remedied or 'fixed'. - They are 'active listeners' to the lives and cultures of their students and communities and they construct learning experiences that are embedded in young lives. This highly readable book will appeal to students and scholars in education and sociology, as well as to teachers and school administrators with an interest in social justice.
