great questions of the humanities—nature versus nurture, the history and meaning of human variation, the sources of wealth and causes of revolution—but also the major transformations in human history: agriculture, cities, iron, writing, universal religions, global trade, industrialization, popular government, justice, and equality. In each conceptually rich chapter, leading historian Kevin Reilly concentrates on a single important period and theme, sustaining a focused narrative and analytical perspective. Chapter 2, for example, discusses the significance of bronze-age urbanization and the advent of the Iron Age. Chapter 3 examines the meaning and significance of the age of “classical” civilizations. Chapter 4 explains the spread of universal religions and new technologies in the postclassical age of Eurasian integration. But these examples also reveal a range of approaches to world history. The first chapter is an example of current “Big History,” the second of history as technological transformations, the third of comparative history, the fourth the history of connections that dominates, and thus narrows, so many texts. Free of either a confined, limiting focus or a mandatory laundry list of topics, this book begins with our most important questions and searches all of our past for answers. Well-grounded in the latest scholarship, this is not a fill-in-the-blanks text, but world history in a grand humanistic tradition.

Why are so many students intellectually disengaged? Mark Carnes says it is because students are so deeply absorbed in competitive social play. He shows how month-long role-immersion games in the curriculum can channel those competitive impulses into transformative learning experiences, and how bricks-and-mortar colleges can set young minds on fire.

Ancient Civilizations Through the Renaissance

Synopsis High School Memoirs: A Journey in Surrealism is a tear-jerking, hilarious ride for a less-than-ordinary High School student who battles bullies and librarians to become King of the Classroom. Set in a small Catholic High School on the north side of Chicago, author Sean Cusack takes us on a surrealistic journey through four fun-filled years of triumph and tragedy in this unique epic. The journey begins with Sean Cusack entering St. Bernadin High School in August of 1995 as a very young and innocent Freshman student. He focuses on several life changing experiences in his infant days of High School that change him forever. Innocence Lost traces the steps Sean Cusack took that ultimately lead him on a path toward frequent battles with students and the school faculty and Administration. As a Sophomore, The Ride most certainly takes us on a ride through fights, vandalism, and verbal debacles that continued to steer the vengeful ship that Sean Cusack had been building since a Freshman. He now had become the ships Captain as it set sail. The Ride takes us through many strange and mysterious encounters that add more of a surrealist element to this budding melodrama and comedic satire. Sean Cusacks roses bud Junior Year in Forever Remembered, when he becomes a charismatic hero and leader of a rebellious group of students that pillage and plunder the school and faculty in wild and zany antics. Forever Remembered embodies the humorous and more imaginative side of Sean Cusack as the journey through High School becomes more surreal. Senior Year wraps up the trials and tribulations that Sean

Cusack had endured thus far in his High School experience culminating into one person after years of battling the Defunct Administration. He is molded by evil as the rebellious youth becomes totally hellbent on crippling the school. In the end, he loses friends, respect from teachers, but most of all, he loses faith in his cause, yet ends his High School experience with a fantastical and triumphant bow. Sean Cusack proves that not all High School stories are the same in this turbulent and chaotic autobiography. High School Memoirs: A Journey in Surrealism chronicles a strange and unique history that is truly a step above the rest.

Textbooks are symbols of centuries-old education. They're often outdated as soon as they hit students' desks. Acting "by the textbook" implies compliance and a lack of creativity. It's time to ditch those textbooks--and those textbook assumptions about learning. In *Ditch That Textbook*, teacher and blogger Matt Miller encourages educators to throw out meaningless, pedestrian teaching and learning practices. He empowers them to evolve and improve on old, standard, teaching methods. *Ditch That Textbook* is a support system, toolbox, and manifesto to help educators free their teaching and revolutionize their classrooms.

Habeas Corpus in Wartime unearths and presents a comprehensive account of the legal and political history of habeas corpus in wartime in the Anglo-American legal tradition. The book begins by tracing the origins of the habeas privilege in English law, giving special attention to the English Habeas Corpus Act of 1679, which limited the scope of executive detention and used the machinery of the English courts to enforce its terms. It also explores the circumstances that led Parliament to invent the concept of suspension as a tool for setting aside the protections of the Habeas Corpus Act in wartime. Turning to the United States, the book highlights how the English suspension framework greatly influenced the development of early American habeas law before and after the American Revolution and during the Founding period, when the United States Constitution enshrined a habeas privilege in its Suspension Clause. The book then chronicles the story of the habeas privilege and suspension over the course of American history, giving special attention to the Civil War period. The final chapters explore how the challenges posed by modern warfare during the twentieth and twenty-first centuries have placed great strain on the previously well-settled understanding of the role of the habeas privilege and suspension in American constitutional law,

particularly during World War II when the United States government detained tens of thousands of Japanese American citizens and later during the War on Terror. Throughout, the book draws upon a wealth of original and heretofore untapped historical resources to shed light on the purpose and role of the Suspension Clause in the United States Constitution, revealing all along that many of the questions that arise today regarding the scope of executive power to arrest and detain in wartime are not new ones.

Taureans, ever wondered what the Sun-signs tell you about love and life? This unique anthology of poems for love and life relates directly to your Sun-sign, Taurus. If you were born between the 21st of April and the 21st of May, you will relate to many of the themes identified with your sign's characteristics and personality traits. The poems in this collection have been chosen because they reflect a Taurean attitude to life. They appeal to the interests 'ruled' by your sign; the animals, flowers, trees, plants and places celebrated by the poets and associated with the sign of Taurus over three thousand years of traditional astrology. Some have been chosen simply because we believe you will enjoy them, and that they will awaken or re-awaken your love of poetry.
