Silk Threads - Three Tales of Passionate Japan

The BSRIA guide produced in conjunction with the University of Bath, in line with the recent IGT report, looks at why it is necessary to account for the embodied carbon in construction. Its purpose is to provide the construction industry with necessary data and then present the raw data in a way that is readily usable in calculations.

Mother Jones

It's cold and dark and Evelyn is in the morgue. In a drawer. She doesn't know how she got there, and Tammi, the morgue attendant who hustles her out into the night, doesn't have time to answer questions. Evelyn has been robbed of the gift of immortality her absent lover promised her, and plunged instead, alone, into the night-time world of the vampire. In her search for love and belonging Evelyn must contend with a series of lovers who have their own ideas about what being a vampire means, and who she should be. When her vampire lover returns Evelyn soon finds that he is a psychopath, and his obsessive courtship includes torture and murder.

The Tribology Handbook

It was the 'eBay of drugs', a billion dollar empire. Behind it was the FBI's Most Wanted Man, a mysterious crime czar dubbed 'Dread Pirate Roberts'. SILK ROAD lay at the heart of the 'Dark Web' - a parallel internet of porn, guns, assassins and drugs. Lots of drugs. With the click of a button LSD, heroin, meth, coke, any illegal drug imaginable, would wing its way by regular post from any dealer to any user in the world. How was this online drug cartel even possible? And who was the mastermind all its low roads led to? This is the incredible true story of Silk Road's rise and fall, told with unparalleled insight into the main players - including alleged founder and kingpin Dread Pirate Roberts himself - by lawyer and investigative journalist Eileen Ormsby. A stunning crime story with a truth that explodes off the page.

Shanghai Directory of Industry and Commerce

The renowned reference work is a practical guide to the selection and design of the components of machines and to their lubrication. It has been completely revised for this second edition by leading experts in the area.

Antigoddes

In this volume of 15 articles, contributors from a wide range of disciplines present their analyses of Disney movies and Disney music, which are mainstays of popular culture. The power of the Disney brand has heightened the need for academics to question whether Disney's films and music function as a tool of the Western elite that shapes the views of those less empowered. Given its global reach, how the Walt Disney Company handles the role of race, gender, and sexuality in social structural inequality merits serious reflection according to a number of the articles in the volume. On the other hand, other authors argue that Disney productions can help individuals cope with difficult situations or embrace progressive thinking. The different approaches to the assessment of Disney films as cultural artifacts also vary according to the theoretical perspectives guiding the interpretation of both overt and latent symbolic meaning in the movies. The authors of the 15 articles encourage readers to engage with the material, showcasing a variety of views about the good, the bad, and the best way forward.

The Mueller Report: Report on the Investigation into Russian Interference in the 2016 Presidential Election

When M.J. Holliday and the crew of her cable TV show, Ghoul Getters, venture to the haunted ruins of Dunlow Castle in Ireland, drawn by the legend of hidden treasure, they hope the road will rise up to meet them, that the wind will always be at their backs-and that the resident phantom won't push them off a cliff. If they treasure their lives, M.J. and her ghost busters need to get the drop on the menacing phantom

Dry Goods Economist

Azad's debut YA fantasy is set in a city along the Silk Road that is a refuge for those of all faiths, where a young woman is threatened by the war between two clans of powerful djinn.

The protection and preservation of a product, the launch of new products or re-launch of existing products, perception of added-value to products or services, and cost reduction in the supply chain are all objectives of food packaging. Taking into consideration the requirements specific to different products, how can one package successfully meet all of these goals? Food Packaging Technology provides a contemporary overview of food processing and packaging technologies. Covering the wide range of issues you face when developing innovative food packaging, the book includes: Food packaging strategy, design, and development Food biodeterioration and methods of preservation Packaged product quality and shelf life Logistical packaging for food marketing systems Packaging materials and processes The battle rages over which type of container should be used for which application. It is therefore necessary to consider which materials, or combination of materials and processes will best serve the market and enhance brand value. Food Packaging Technology gives you the tools to determine which form of packaging will meet your business goals without compromising the safety of your product.

The Secret Language of Stones

Bodzia is a unique, elite cemetery in Poland from the Late Viking Age. Its peculiarities are defined by the number of rich burials of incomers whose origins were connected with the Slavic, Nomadic Khazarian and Scandinavian milieus.

The wait for The Mueller Report is over. This strikingly designed edition has been prepared by expert typographers – allowing for an optimised, immersive reading experience. "From the moment [the report] was published, two separate news universes took shape. In one, the special counsel's report was presented as a smoking-gun chronicle of high crimes and misdemeanours. In the other, it was heralded as a credibility-shredding blow to the president's opponents."—The Atlantic Make up your own mind. The Mueller Report is a must read political blockbuster.

What's it like being the ant in the ice cream? The characters in this short story collection will show you; experience life as they know it as transplants from across the world into American suburbia. Adapted from real life anecdotes both her own and those of others, Mohana takes us into the world of the South Asian immigrant living the American Dream. Think of her as a cultural translator for those who you may not notice otherwise, living in the margins of our cities. "What are a few inches when you know he will provide for you the rest of your life," her mother would have said, smacking her on the cheek. The sight of his feet, white, broad toes, and clean, short-clipped nails startled her. Americans normally wore their shoes everywhere; they had special shoes to wear inside their houses, shoes specifically for their bedrooms. BABY

Silk Road

The Goddess War begins in Antigoddess, the first installment of the new series by acclaimed author of Anna Dressed in Blood, Kendare Blake. Old Gods never die Or so Athena thought. But then the feathers started sprouting beneath her skin, invading her lungs like a strange cancer, and Hermes showed up with a fever eating away his flesh. So much for living a quiet eternity in perpetual health. Desperately seeking the cause of their slow, miserable deaths, Athena and Hermes travel the world, gathering allies and discovering enemies both new and old. Their search leads them to Cassandra—an ordinary girl who was once an extraordinary prophetess, protected and loved by a god. These days, Cassandra doesn't involve herself in the business of gods—in fact, she doesn't even know they exist. But she could be the key in a war that is only just beginning. Because Hera, the queen of the gods, has aligned herself with other of the ancient Olympians, who are killing off rivals in an attempt to prolong their own lives. But these anti-gods have become corrupted in their desperation to survive, horrific caricatures of their former glory. Athena will need every advantage she can get, because immortals don't just flicker out. Every one of them dies in their own way. Some choke on feathers. Others become monsters. All of them rage against their last breath. The Goddess War is about to begin. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

The Library of Light and Shadow

"An overview of one of the largest and most comprehensive collections of European and non-European archery-related materials in the world. This book presents color photos and descriptions of some 300 items - including bows, arrows, quivers, and thumb rings- that represent traditional archery techniques, practices, and customs from around the world"--Provided by publisher.

NanoArmoring of Enzymes: Rational Design of Polymer-Wrapped Enzymes

Three authors, three erotic romance novellas.

Bound together by a common magical thread, each novella tells a story of romance and passion unlike any other, exploring both paranormal and BDSM themes. Set in a Japan of the mythic past, the paranormal present, and a cyberpunk future, the three novellas showcase the imaginations of three pioneers of sexuality in fiction.

Focusing on women's erotic power and desires, each story features individual quests for love, intimacy and the discovery of far-reaching potential within the central protagonists. From the legendary creatures of traditional Japanese fables to an

atomic age embodiment of existential anxiety and into a cultural paradigm shift, magical silk weaves each generational story into an exploration of romantic cravings.

It is truly unlike anything else. Brought to life by three masters in their fields. For those who don't know them all:

Under Mount Saint Elias

Loveblood

In this riveting and richly drawn novel from “one of the master storytellers of historical fiction” (New York Times bestselling author Beatriz Williams), a talented young artist flees New York for the South of France after one of her scandalous drawings reveals a dark secret—and triggers a terrible tragedy. In the wake of a dark and brutal World War, the glitz and glamour of 1925 Manhattan shine like a beacon for the high society set, desperate to keep their gaze firmly fixed to the future. But Delphine Duplessi sees more than most. At a time in her career when she could easily be unknown and penniless, like so many of her classmates from L'École des Beaux Arts, in America she has gained notoriety for her stunning “shadow portraits” that frequently expose her subjects’ most scandalous secrets. Most nights Delphine doesn’t mind that her gift has become mere entertainment—a party trick—for the fashionable crowd. Then, on a snowy night in February, in a penthouse high above Fifth Avenue, Delphine’s mystical talent leads to a tragedy between two brothers. Devastated and disconsolate, Delphine renounces her gift and returns to her old life in the south of France where Picasso, Matisse, and the Fitzgeralds are summering. There, Delphine is thrust into recapturing the past. First by her charismatic twin brother and business manager Sebastian who attempts to cajole her back to work and into co-dependence, then by the world famous opera singer Emma Calvé, who is obsessed with the writings of the fourteenth-century alchemist Nicolas Flamel. And finally by her ex-lover Mathieu, who is determined to lure her back into his arms, unaware of the danger that led Delphine to flee Paris for New York five years before. Trapped in an ancient chateau where hidden knowledge lurks in the shadows, Delphine questions everything and everyone she loves the most—her art, her magick, her family, and Mathieu—in an effort to accept them as the gifts they are. Only there can she shed her fear of loving and living with her eyes wide open.

Blue Love

Coloured and Other Stories

First in a new fantasy series from the author of the Novels of the Half-Light City. Entangled in a court ruled by tradition and intrigue, a young witch must come to terms with newfound power and desire—and a choice between loyalty and survival.... The royal witches of Anglion have bowed to tradition for centuries. If a woman of royal blood manifests powers, she is immediately bound by rites of marriage. She will serve her lord by practicing the tamer magics of the earth—ensuring good harvests and predicting the weather. Any magic more dangerous is forbidden. Lady Sophia Kendall, thirty-second in line to the throne, is only days away from finding out if she will be blessed—or perhaps cursed—with magic. When a vicious attack by Anglion’s ancient enemies leaves the kingdom in chaos, Sophia is forced to flee the court. Her protector by happenstance is Lieutenant Cameron Mackenzie, a member of the royal guard, raised all his life to be fiercely loyal to the Crown. Then Sophia’s powers manifest stronger than she ever imagined they would, and Cameron and she are inextricably linked in the process. As a witch unbound by marriage rites, Sophia is not only a threat to the established order of her country, but is also a weapon for those who seek to destroy it. Faced with old secrets and new truths, she must decide if she will fight for her country or succumb to the delicious temptation of power....

Wrapped in Silk

Mother Jones

The Textile American

When her free-spirited mother dies in a tragic accident, sixteen-year-old Alexandria Lee is forced to leave her West Coast home and move in with a wealthy grandmother she's never known in Savannah, Georgia. By birth, Alex is a rightful if unwilling member of the Magnolia League-Savannah's long-standing debutante society. But white gloves and silk gowns are a far cry from the vintage t-shirts and torn jeans shorts she's used to. Alex is the first in decades to question the Magnolia League's intentions, yet even she becomes entangled in their seductive world. The members enjoy youth, beauty and power but at what cost? As Alex discovers a pact between the Magnolias and the Buzzards, a legendary hoodoo family, she discovers secrets—some deadly—hidden beneath the glossy Southern veneer. New York Times bestselling author Katie Crouch's poignant and humorous voice shines in this enchanting and mysterious story about girls growing up in a magical Southern city.

“A” Dictionary of the Chinese Language

A USA TODAY BESTSELLER! A historical novel inspired by true events, Kelli Estes's brilliant and atmospheric debut is a poignant tale of two women determined to do the right thing and the power of our own stories. The smallest items can hold centuries of secrets Inara Erickson is exploring her deceased aunt's island estate when she finds an elaborately stitched piece of fabric hidden in the house. As she peels back layer upon layer of the secrets it holds, Inara's life becomes interwoven with that of Mei Lein, a young Chinese girl mysteriously driven from her home a century before. Through the stories Mei Lein tells in silk, Inara uncovers a tragic truth that will shake her family to its core—and force her to make an impossible choice. A touching and tender book for fans of Marie Benedict, Susanna Kearsley, and Duncan Jepson.

Evelyn's Journal

Highly emotional, erotic, sensitive story of second chances at life, and love. Emma a single mother to seven year old London finds herself separated and on the verge of divorce. She is not looking for love just a happy life and the ability to take care of her daughter. Emma is faced with making the decision to move in order for her to move giving her the ability to support her family. While London is on a visit with her father, Emma visits a college room mate, a publicist in New York City she literally runs into Brody Hines, a British rock star. Emma finds herself attracted to him immediately and does not realize who he is. Left in fates hands the two meet again and he knows he has to have her.

Embodied Carbon

Blue Love Tessa Ross tries to fight her attraction to bad boy Lucas Links. He is hot, arrogant, and has a sexual past that most boys his age could only dream of, (If they even knew they could dream of such things). Lucas, the star quarterback seems to have it all, super star athletic abilities, expensive clothes, cars, and women who literally stop just to watch him walk by. On the outside he appears to have it all. Tessa is a young woman who lives her life always doing what is right to make everyone else happy. She tries desperately to hold herself accountable to the demanding expectations of her family and everyone around her. Is Tessa as innocent as she appears? Is Lucas just a spoiled young man who seems to have what every male, and female wants? A troubled home life exposed. Past flings fight for his attention. While the only girl who Lucas ever dated connives to win him back using the only thing she knew held him to begin with. Does her desperation destroy a love he never knew existed before Tessa? A love bound not by his past or hidden secrets. A love of truth and depth. A love that knew no end regardless of tragic circumstance. Blue Love is not your typical love story. It is a journey through your past or a story of one close to you. It's our story.

The Delineator

Food Packaging Technology

A Harmony Ink Press Young Adult Title Max Appleton and his mother Celia are on the run, hiding from an abusive father and husband who's also a notoriously bad pack leader. When Max hit puberty and it became obvious he'd never make an alpha wolf, his father turned the brunt of his anger toward his inferior son and his beta wolf wife for producing him. Max and Celia find sanctuary in a garden cottage at Holly Court, the sprawling estate where Celia's oldest friend lives with her pack alpha husband, three daughters, and teenaged son Jonah. Jonah Spellman has what seems like the perfect life. His family is close, his dad is respected by their whole pack, and he's been groomed to take over for as long as he can remember. Everything is set, his whole life planned, and Jonah works hard to be exactly what everyone expects. He's under enough pressure without a runaway from a bad pack complicating his life. When two teenaged werewolves from very different worlds meet one snowy January day, both of their worlds get turned inside out. From the moment they meet, nothing will be the same for Jonah or Max ever again.

The Girl Who Wrote in Silk

Chronicle of the Horse

In World War I Paris, Opaline Duplessi, an employee at the famous La Fantasie Russie jewelry store, spends her time making trench watches for soldiers at the front, and mourning jewelry for the mothers, wives, and lovers of those who have fallen. People say that Opaline's creations are magical, a word she would rather not use. But she does have a rare gift, a form of lithomancy that allows her to translate the energy emanating from the stones and receive messages from beyond the grave. In her mind, she is not a mystic, but merely a messenger, giving voice to soldiers who died before they were able to properly express themselves to loved ones. Until one day, one of these fallen soldiers communicates a message directly to her, and Opaline sets off on a journey into the darkest corners of wartime Paris and across the English Channel, where the exiled Romanov dowager empress waits to discover the fate of her family. --

American Agriculturist

Recently another book on insect physiology was published. It was restricted to a few focal points as are many of these new insect physiology books, but there was considerable depth in its specialized point of view. We were discussing the structure of this book and of insect physiology books, in general, when Prof. Remmert asked me ". . . and what about books on spider physiology?" Silence. Then I started to explain "oh yes, there is a congress proceedings volume on this topic and there is a

group with excellent publications on another topic . . . ", but I felt that this answer was weak. One can no longer buy the proceedings volume in a bookshop and to read a series of publications on a given topic one must search in a library for a dozen journals. Why is there not a single book on spider physiology comparable with the many books on insect physiology? Are spiders a scientific ivory tower, far from public interest and commercial importance? I do not think so, although spiders are one of the many "forgotten" animal groups which always grew in the shadow of the insects. There are research groups working on spider physiology, there are fascinating phenomena in this animal group and there are plenty of exciting results. Spiders may have been always underresearched, but research is progressing. In the last few years, new books have been published, e. g.
