### **Christian Melodies**

This classic text on transmission line transformers for high frequencies includes new chapters on efficiency, power combiners, mixer transformers, and equal-delay transformers. Sevick explains the basic theory that results in transmission line transformers with higher performance than conventional magnetic flux-coupled transformers.

### **The History of World Theater**

Newly revised and updated, this electrifying guide has been praised by doctors, health experts, and readers who have taken their own self-health challenge. Describing himself as “an ordinary guy who discovered an extraordinary secret,” which he now feels compelled to share with everyone, J. Michael Zenn completely changed his own life when he began a quest to get healthy. With some simple but profound improvements to his diet and everyday habits, Zenn lost fifty pounds and six inches off his waist and—within just a few months—felt and looked younger than he had in two decades. So he quit his job and spent a year reading 200 books and interviewing experts in order to write about the powerful message he calls “the self-health revolution.” In this inspiring book, Zenn reveals:

- The hidden ingredient in our food that makes us fat
- The Tsunami of Diabesity (obesity + diabetes) that threatens our health, our health-care system, and our economy
- Three simple things you can do to get fit and stay thin
- A forgotten remedy that can get rid of your aches and pains
- One thing you can do now to help extend your life
- The little-known reason most people feel tired and run down
- How unhappiness and stress can take years off your life
- The Number 3 killer that nobody wants to talk about
- A cure that your doctor may not know about or can't tell you

Now you can join the revolution of self-health throughout America. Take the 10-day challenge. You'll lose weight, keep it off, feel better, and have more energy than you thought possible.

### **The W6Sai Hf Antenna Handbook**

Snow Camp is supposed to be a week of skiing, snowboarding, hot chocolate, and fun. But when a blizzard strikes, David and his classmates are stuck inside . . . with no TV! They'll have to make their own fun by playing lots of games (and sharing all of the rules!). The storm drags on, and the friends start to wonder if they'll ever be able to leave Snow Camp or see their homes again!

### **Beam Antenna Handbook**

The principal aim in writing this book has been to provide an introduction, barely more, to some aspects of Fourier series and related topics in which a liberal use is made of modern techniques and which guides the reader toward some of the problems of current interest in harmonic analysis generally. The use of modern concepts and techniques is, in fact, as wide spread as is deemed to be compatible with the desire that the book shall be useful to senior undergraduates and beginning graduate students, for whom it may perhaps serve as preparation for Rudin's Harmonic Analysis on Groups and the promised second volume of Hewitt and Ross's Abstract Harmonic Analysis. The emphasis on modern techniques and outlook has affected not only the type of arguments favored, but also to a considerable extent the choice of material. Above all, it has led to a minimal treatment of pointwise convergence and summability: as is argued in Chapter 1, Fourier series are not necessarily seen in their best or most natural role through pointwise-tinted spectacles. Moreover, the famous treatises by Zygmund and by Baryon trigonometric series cover these aspects in great detail, while leaving some gaps in the

presentation of the modern viewpoint; the same is true of the more elementary account given by Tolstov. Likewise, and again for reasons discussed in Chapter 1, trigonometric series in general form no part of the program attempted.

## **Theatre at the Crossroads of Culture**

Western culture has a long and fraught history of cultural appropriation, a history that has particular resonance within performance practice. Patrice Pavis asks what is at stake politically and aesthetically when cultures meet at the crossroads of theatre.? A series of major recent productions are analysed, including Peter Brook's Mahabharata, Cixous/Mnouchkine's Indiande, and Barba's Faust. These focus discussions on translation, appropriation, adaptation, cultural misunderstanding, and theatrical exploration. Never losing sight of the theatrical experience, Pavis confronts problems of colonialism, anthropology, and ethnography. This signals a radical movement away from the director and the word, towards the complex relationship between performance, performer, and spectator. Despite the problematic politics of cultural exchange in the theatre, interculturalism is not a one-sided process. Using the metaphor of the hourglass to discuss the transfer between source and target culture, Pavis asks what happens when the hourglass is turned upside down, when the `foreign' culture speaks for itself.

Sister Chan Khong was born in a village on the Mekong River Delta in 1938. Propelled by her passionate dedication to social change, she began working in the slums of Saigon as a teenager, distributing food, helping the sick, and teaching children. In 1964, she joined Zen master Thich Nhat Hanh in founding the School of Youth for Social Service, which grew to an organization of over 10,000 young people organizing medical, educational, and agricultural facilities in rural Vietnam, and rebuilding villages destroyed by the war. This unique autobiography tells the gripping story of a woman who not only lived but made history, and whose single-minded dedication to humility and courageous integrity can serve as an inspiration for all. Learning true love reflects Sister Chan Khong's spiritual growth against the backdrop of the suffering in her war-torn country, and offers many inspiring examples of how to resolve difficulties and celebrate the joys of a life of service. Chan Khong has for more than three decades worked closely with Thich Nhat Hanh in Vietnam and at his community-in-exile in France, Plum village. -- Publisher description.
