A prophetic memoir by the activist who “articulated the intellectual foundations” (The New Yorker) of the civil rights and women’s rights movements. First published posthumously in 1987, Pauli Murray’s *Song in a Weary Throat* was critically lauded, winning the Robert F. Kennedy Book Award and the Lillian Smith Book Award among other distinctions. Yet Murray’s name and extraordinary influence receded from view in the intervening years; now they are once again entering the public discourse. At last, with the republication of this “beautifully crafted” memoir, *Song in a Weary Throat* takes its rightful place among the great civil rights autobiographies of the twentieth century. In a voice that is energetic, wry, and direct, Murray tells of a childhood dramatically altered by the sudden loss of her spirited, hard-working parents. Orphaned at age four, she was sent from Baltimore to segregated Durham, North Carolina, to live with her unflappable Aunt Pauline, who, while strict, was liberal-minded in accepting the tomboy Pauli as “my little boy-girl.” In fact, throughout her life, Murray would struggle with feelings of sexual “in-betweenness”—she tried unsuccessfully to get her doctors to give her testosterone—that today we would recognize as a transgendered identity. We then follow Murray north at the age of seventeen to New York City’s Hunter College, to her embrace of Gandhi’s

Satyagraha—nonviolent resistance—and south again, where she experienced Jim Crow firsthand. An early Freedom Rider, she was arrested in 1940, fifteen years before Rosa Parks' disobedience, for sitting in the whites-only section of a Virginia bus. Murray's activism led to relationships with Thurgood Marshall and Eleanor Roosevelt—who respectfully referred to Murray as a “firebrand”—and propelled her to a Howard University law degree and a lifelong fight against “Jane Crow” sexism. We also read Betty Friedan's enthusiastic response to Murray's call for an NAACP for Women—the origins of NOW. Murray sets these thrilling high-water marks against the backdrop of uncertain finances, chronic fatigue, and tragic losses both private and public, as Patricia Bell-Scott's engaging introduction brings to life. Now, more than thirty years after her death in 1985, Murray—poet, memoirist, lawyer, activist, and Episcopal priest—gains long-deserved recognition through a rediscovered memoir that serves as a “powerful witness” (Brittney Cooper) to a pivotal era in the American twentieth century.

Suspension is probably the most misunderstood aspect of motorcycle performance. This book, by America's premier suspension specialist, makes the art and science of suspension tuning accessible to professional and backyard motorcycle mechanics alike. Based on Paul Thede's wildly popular Race Tech Suspension Seminars, this step-by-step guide shows anyone how to make their bike, or their kid's, handle like a pro's. Thede gives a clear account of the three forces of suspension that you must understand to

make accurate assessments of your suspension's condition. He outlines testing procedures that will help you gauge how well you're improving your suspension, along with your riding. And, if you're inclined to perfect your bike's handling, he even explains the black art of chassis geometry. Finally, step-by-step photos of suspension disassembly and assembly help you rebuild your forks and shocks for optimum performance. The book even provides detailed troubleshooting guides for dirt, street, and supermoto--promising a solution to virtually any handling problem.

Hannah's list: Ghosts are cold to the touch. Being tied up isn't much fun. And danger is a sure-fire prescription for amazing sex! When Hannah Campbell attends a memorial service for the neurosurgeon who

once saved her life, the last thing she expects is a lightning strike that knocks her out cold and blasts her lungs full of the departed's ashes. Things only get weirder when she wakes up to find the deceased standing over her hospital bed, insisting she help him track down the terrorists who blew up his plane. Professor Takeshi Shimodo doesn't know what to believe when smart-mouthed Hannah appears on his doorstep, claiming to be haunted by the ghost of his best friend. Yet she exhibits some extraordinary psychic abilities. And her determination to find justice for the crash victims, in spite of her fragile health, touches his heart. Takeshi's acupressure techniques are meant to calm Hannah's erratic heartbeat, but the longer they are together, the more his magic fingers have the opposite effect. Soon, their passion flares hotter than any lightning strike. But now the terrorist they seek is hunting them. And the FBI is suspicious Hannah knows just a little too much. Without some "spiritual" help, they haven't a ghost of a chance. Warning, this title contains the following: explicit sex, graphic language and violence.

Race Tech's Motorcycle Suspension Bible

Appropriate for any course introducing management information systems from a business perspective. This casebook will serve as an ideal complement to most MIS/CIS textbooks. Designed to demonstrate how

software can support managerial decision-making activities, this casebook features 24 cases (more than another casebook currently on the market) covering a wide range of functional areas throughout the business, including finance/accounting, HR, production, and information systems. The cases are spread across three difficulty levels basic, intermediate, and advanced. They present common managerial issues and problems, and encourage students to actually use their models to make decisions for the cases characters. They require students to apply spreadsheet, database, Web-page development, and/or presentation graphics software, often in an integrated manner. Many of the cases require students to prepare both written and oral presentations on their solutions. Among the topics covered in MIS Cases: Decision Making with Application Software Second Edition: forecasting, inventory decisions, what-if analyses, pricing strategies, billing decisions, and much more.

Bad Boys of Summer

With vivid photography and insightful commentary, this travel pictorial shines a light on the Buddhist art and architecture of Borobudur. The glorious ninth-century Buddhist stupa of Borobudur—the largest Buddhist monument in the world—stands in the midst of the lush Kedu Plain of Central Java in Indonesia, where it is visited annually by over a million people. Borobudur contains more than a thousand exquisitely carved relief panels extending along its many terraces for a total distance of more than a kilometer. These are arranged so as to take the visitor on a spiritual journey to enlightenment, and one ascends the monument past scenes depicting the world of desire, the life story of Buddha, and the heroic deeds of other enlightened beings—finally arriving at the great circular terraces at the top of the structure that symbolizes the formless world of pure knowledge and perfection.

Borobudur

When former British police officer Michael Layton took a police posting on the sun-kissed island of Cyprus, he was looking forward to 'long sandy beaches, blue skies and equally blue seas, sleepy villages, cold beers, and good food'. He found all of those things, but also discovered something sinister: a culture of football violence that exceeded anything he had seen even in the darkest days of the UK game. He was experienced in combating soccer hooliganism but what he discovered in the coming years also shook him to the core. Supporters of the so-called 'Big Five' clubs, APOEL, Apollon, AEL, Omonia and Anorthosis, were locked in a series of bitter and enduring rivalries that routinely led to mayhem on match days. Often with radically opposed political affiliations, gangs launched attack after attack on each other, seemingly oblivious to the consequences. Mass brawls, knifings and, most disturbing of all, a number of bomb attacks led to countless injuries and even death. No-one was safe, with players, match officials and police all being routinely targeted. Layton, who led the successful Operation Red Card into Birmingham City hooligans in the late 1980s and was awarded the Queen's Police Medal, has now written the first-ever historical account of this extraordinary phenomenon. From first-hand knowledge and research, he traces the history of the problem in the Republic of Cyprus, highlighting

the most startling incidents, and proposes a series of counter-measures to eradicate the gangs and their thuggery.

Which Rights Should be Universal?

Drawing from his extensive business management experience, Pradip Chand turns traditional wisdom on its head when he proposes that Brand Loyalty is inversely proportional to the income and education levels of the 'knowledge consumer'. He examines how and why brands become strategic assets, traces the evolution of the knowledge consumer and what can companies do to protect equity of the brands they have nurtured over the decades. A new approach to building a Brand Loyalty that gives marketers a competitive edge in today's high-tech, high-stake

brand-hostile environment. The book combines the knowledge with engaging real life case studies and proven examples.

A Requiem for a Brand

294 pages, 130 black & white illustrations, size 5.5 x 8.5 inches. In 1963, Temple Press UK published a revised and expanded 4th UK edition of 'Tuning for Speed' and, in 1965, they published a reprint of that 1963 edition. Both the 1963 and the 1965 publications are identical in content and contain 294 pages, a significant increase from the previous 208 page 1960 printing. With a total of 294 pages, the revised and expanded 4th UK edition is the most comprehensive of all of the 'Tuning for Speed' editions ever published. Earlier editions only stretched to 208 pages and later editions shrunk to 260 pages (or less) as what was thought to be 'dated information' was deleted from the contents. This 'dated information' is considered valuable today by those enthusiasts interested in vintage motorcycle tuning and modification. Consequently, this makes the revised 4th UK publication the most complete and desirable edition. Therefore, it is our pleasure to offer this reprint of the Floyd Clymer 'Revised 4th UK Edition or Second American Edition of 'Tuning for Speed' to motorcycle enthusiasts worldwide. 'Tuning for Speed' was originally published in 1948 and continuously reprinted and updated in order to keep pace with the constantly evolving range of British motorcycles and engines. While the primary focus of this publication is on 1965 and prior British

motorcycles, the theory and engineering it contains is still applicable to the current crop of high revving imports. 'Tuning for Speed' is considered by many knowledgeable motorcycle enthusiasts to be one of the best books ever written on how to improve, modify and fine tune a motorcycle engine and it is often referred to as one of the 'top 10' classic motorcycle books. The Floyd Clymer association with this publication dates back to the early 1960's when he purchased the United States Publishing rights for 'Tuning for Speed' from Temple Press in the UK and, in 1967, Clymer published the 1st American edition of that title. However, by 1967, the Clymer publication had been preceded by 8 printings of the UK edition and was incorrectly identified by Clymer as a 9th edition. In fact, the 1967 Clymer publication is actually a reprint of the less desirable 208 page 1960 UK edition. However, in 1963, the 4th UK edition was revised and expanded to 294 pages (with a second identical re-print in 1965). Therefore, this 2nd American edition of the Floyd Clymer publication of 'Tuning for Speed' includes all of that valuable 'dated information' that was deleted from the later editions and is identical in all respects to the 294 page 1963/1965 revised and expanded 4th UK edition - with the exception that 7 pages of UK-based advertising to the rear of the book are not included in the Clymer publication.
