Corporate Giving Directory provides analysis of over 1,000 corporate giving programs, corporate foundations, and companies which offer direct giving programs in the U.S., including hard-to-find information on corporate direct gifts, nonmonetary gifts, matching gifts, and corporate sponsorships, when available. To be listed in Corporate Giving Directory, programs/foundations must give at least \$200,000 in total cash and nonmonetary gifts combined per year. Key information offered in company profiles includes: company contact information, including email and URL addresses (when available); company description; operating locations; giving program contact and description; giving philosophy; nonmonetary support type and figures; financial summary; typical recipients; contributions analysis; corporate and foundation officers and directors; restrictions on giving; application information; grants analysis; and recent grants. Included are 331 email addresses for company giving programs, as well as web addresses for 462 corporate foundations and 1,129 corporate headquarters. Corporate Giving Directory is extensively indexed - indexes: Funders by

"Birth Emergency Skills Training is the interface between the world of midwifery and the world of medicine. It carries the reader from the initial steps of intervention through definitive care, balancing a friendly tone and visual appeal with authoritative and clinically useful information. It is loaded with mnemonics and other aids to understanding and is richly illustrated by the author.

Long before Shady Brook became a YMCA camp for boys and girls, it was a playground, respite and resort for the Bandhauer family. This work examines the camp's history through carefully selected photographs, memorabilia, historical documents and the author's personal experience. As both a documentary and memoir, the journey of a family with roots in Prussia and the camp's present-day life will be explored. The family's history tells a story of immigration, entre-preneurial pursuits, financial hardships, tragedy and survival. From the time the Bandhauers owned the property until after it became a YMCA camp in 1948, Shady Brook has been a portal into the wilderness for discovery and the divine

relationship between man and nature. This is the story, not only of a family, but of a place. This place is of red-brown gravel ground, dusty pine trees and beaten paths. It is about structures, old and new, from the Dancehall to the Dining Hall. It is about the creatures that inhabit Shady Brook, from the muskrat in the lake, to the rabbits in the bush, various dogs that resided at camp over the years, painted horses and garbage-rummaging bears. It is the geography of a place: Day Mountain, the Silver Mine, a lake, canyon and the Natural Bridge. It is a place of legend and lore, too, because what camp would be a camp without a ghost story or tales of Black Bart? It is the place of a thousand campers and a place once visited, you never really leave. This is the story of Camp Shady Brook.

Camps often provide children with a first taste of independence and freedom from the restrictions of home and school, while offering a milieu full of opportunities for psychosocial development, creative interaction, and mutual aid. Enduring friendships often grow in the close-knit cabin groups and age cohorts, and professionally guided camps offer a nearly unique setting for strengths-based development in a nurturing environment. Though summer camps have provided social workers and future social workers with educational, practice, research, and theory-development opportunities as they direct, staff, attend, and provide supervision in these surroundings, the field has received limited scholarly attention. *Not Just Play*, the only book written in many decades that focuses on the relationship between social work and the summer camp movement, provides a comprehensive treatment of this underappreciated area of practice. In addition to updating their knowledge in the area, social workers and camp professionals will benefit from the authors' consideration of the many advantages and connections explored in the volume, which includes case vignettes alongside core scholarly research. In addition to the more extended pieces, numerous quotations gathered from interviews and online questionnaires are incorporated into the text, many from well-known social workers citing the influence of their camp experiences. As a whole, the resource offers readers a multifaceted examination of social work and summer camp that broadens their professional and scholarly perspective.

## Read Online Ymca Scholarship Income Guidelines

In the United States, some populations suffer from far greater disparities in health than others. Those disparities are caused not only by fundamental differences in health status across segments of the population, but also because of inequities in factors that impact health status, so-called determinants of health. Only part of an individual's health status depends on his or her behavior and choice; community-wide problems like poverty, unemployment, poor education, inadequate housing, poor public transportation, interpersonal violence, and decaying neighborhoods also contribute to health inequities, as well as the historic and ongoing interplay of structures, policies, and norms that shape lives. When these factors are not optimal in a community, it does not mean they are intractable: such inequities can be mitigated by social policies that can shape health in powerful ways. Communities in Action: Pathways to Health Equity seeks to delineate the causes of and the solutions to health inequities in the United States. This report focuses on what communities can do to promote health equity, what actions are needed by the many and varied stakeholders that are part of communities or support them, as well as the root causes and structural barriers that need to be overcome.
